

### Women Picket the Republican Convention

We protest against the continued disfranchisement of women for which the Republican party is now responsible. The Republican party defeated ratification in Delaware. The Republican party is blocking ratification in Vermont. The Republican party is blocking ratification in Connecticut. When will the Republican party stop blocking suffrage

The Woman's national party decided to picket the Republican convention in Chicago, and this shows one of the banners their pickets carried to the Coliseum. The women holding it are Miss Alice Paul and Mrs. Abby Scott Baker.

### SCRAPS

All the best plotting paper is made from soft cotton rags. Nearly 60,000 women were engaged in engineering work in England during the war. A London oyster bar boasts of an attendant who can open and serve oysters at the rate of 400 an hour. Stockholm, Christiania, Berlin and London, in the order named, have the lowest death rate among the European cities.

People of the middle ages believed the best remedy for an aching tooth to be an application of serpent's skin steeped in vinegar. Householders in Great Britain are barred from entertaining their mothers-in-law, or other guests, longer than four weeks by an order from the ministry of food. Hospitality is a striking characteristic of the Turk. In fact, it is against the precepts of his religion to turn away a guest who needs shelter and lodging at his hands.

### Make Your Signature Legible.

Few people sign their names legibly. With a great many there is a positive trick or affectation of illegibility. It is a relic of the old idea that, to forestall forgery, there should be something peculiar, very individual, even cryptic, about a formal signature. Such signatures are purely calligraphic; they are all right, no doubt, if you are Horace Greeley or Rufus B. Kipling, or the treasurer of the United States, or somebody exceedingly widely known, but they are a nuisance to the world if you are obscure.

"Well, why worry? You're happy, aren't you?"

### Children Cry For

### Special Care of Baby.

That Baby should have a bed of its own all are agreed. Yet it is more reasonable for an infant to sleep with grown-ups than to use a man's medicine in an attempt to regulate the delicate organism of that same infant. Either practice is to be shunned. Neither would be tolerated by specialists in children's diseases.

Your Physician will tell you that Baby's medicine must be prepared with even greater care than Baby's food.

A Baby's stomach when in good health is too often disarranged by improper food. Could you for a moment, then, think of giving to your ailing child anything but a medicine especially prepared for infants and children? Don't be deceived.

Make a mental note of this:—It is important, Mothers, that you should remember that to function well, the digestive organs of your Baby must receive special care. No Baby is so abnormal that the desired results may be had from the use of medicines primarily prepared for grown-ups.
