Deepening the Channel in Quarantine Bay.

It is proposed to deepen the channel in Quarantine Bay at Neptune, opposite the railroad terminus at Buras. Certain shallow spots interfere very much with the transit there from the day in the canning factories and into the canal leading into the locks for transfer to the oyster bedding grounds in Bayou Cook and the adjacent country. The oystermen generally, and the lock and canal companies, as well as the canneries are all interested in this and efforts are making to get up a fund for the purpose. The Louisiana Navigation and Fisheries Co. will furnish a dredge free of charge and Mr. J. B. Easterling offers \$50 for the Cyprien Bay Oyster Co; while the Bayou Cook people will subscribe some \$200 and the canning factories \$250.

Vessels now going in and out lose so much time on the bars that it becomes quite an important matter to them and it is very much to be hoped that subscriptions will be secured and the channel improvement effected.

Baptiste Collette Gap.

The Louisiana Navigation and Fisheries Co. have about completed the closure of the stream known as Baptiste Collette Gap, one of the outlets of the Mississippi River in the delta country. This work was attempted about two years, through the combined efforts of the Oyster Commission of Louisiana, the Grand Prairie Levee Board, the State Board of Engineers and the fishermen in the locality.

The contract was awarded to the Louisiana Navigation and Fisheries Co. The work was nearly completed when the high stage of the river caused the sheet piling to give away, thereby causing a stoppage in the work until low water, and entailing a total loss to the contractors of some \$5000. The Company realizing the necessity of this gap being closed for the protection of the oyster beds in the territory known as the "Salt Works" located about 75 miles below the city of New Orleans, and adjacent to the waters of Grand Bay, California Bay and Quarantine Bay, have made a second attempt at closure, and have driven, piling, sheet piling and build a dam across the gap that will withstand any pressure put up against it. This work was done under the supervision of Capt. M. P. Doullut, President of the Louisiana Navigation and Fisheries Co; while the earthwork is being done under the direction and able management of Hon. Simon Leopold.

Although the Company has spent 1-3 more than the cost above the stipulated price, the benefit to be derived by the fishermen in this locality, spurred them on in the completion of this work. By the successful closure of this gap the oysters will get just the right proportion of an admixture of salt and fresh water, thereby rendering conditions ideal for the culture of the bivalves. The fishermen will evidently be thankful for this closure.

Died.

Died in New Orleans on Thursday night; 21st inst. S. Tedesco a native of Palermo, Sicily, and a resident of this state for the past fifty years.

Mr. Tedesco was 61 years of age, having been born in 1848. In early boyhood he came to this country and settled in New Orleans, where he identified himself with the import banana business, he being one of the first banana and other tropical fruits merchants of New Orleans. He drifted from this to the lugger business, running several large luggers on the Lower Coast and speculating largely in the purchase of orange crops. At this he accumulated some money, and when age began to creep on him he retired from that active life and began the commission business he so long afterward conducted in the French Market. "Captain Tedesco" as he was commonly called, was known from one end of the parish to the other, and was a man much esteemed for his gentlemanly and honest business methods.

He was a member of the F. E. P. secret order, composed mostly of French Market business men;

St. Augustine's Italian Benevolent Association, the Lusitanos Portuguese Benevolent Association; of this last organization he was a member for over forty years.

Captain Tedesco was twice married, a daughter Mrs. Peter Spicuzza survives him from his first marriage. His second marriage was with Mrs. John Giordano, mother of our worthy citizen Frank Giordano of Home Place who survives him.

The funeral services were conducted from the residence of his daughter Mrs. Peter Spicuzza 1240 Royal Street. Interment was made in Vincent de Pauls Cemetery on Saturday 23rd, at 2 p.m. A large concourse of sorrowing friends followed the remains to the grave. The Lower Coast Gazette expresses great sorrow over the loss of such a man who has always been looked upon as a man of many sterling qualities, and it extends its sympathy to the grief stricken family.

Pointe-a-la-Hache.

Mr. Jos. E. Perez, who formerly was a resident on Monsecour plantation in this parish, is now reported to have contracted with the owners of the Llanada and Auckland plantations, to plant a thousand acres of rice. This is up in the cotton country in Catahoula parish, where the low prices for cotton and the invasion of the boll weevil have demoralized things and this venture in rice culture is being made as an industrial experiment on a considerable scale and those interested in it are preparing to make a successful venture, if we may judge the capacity that Mr. Perez displayed in our parish, of which he is a native and where his great ability has always been recognized.

Belair.

Mr. J. J. A. Carlee, who has been spending the past year and a half at Belair, has gone to New Orleans for a short time.

On Sunday Mr. William Dymond, accompanied by Mr. William Jarvie left on the launch Helen for Pointe a la Hache, where they were to pick up Mr. Edwin Cohn and make a tour of the schools in the lower end of the river, taking in Burwood, Pilotown, Buras and other schools.

Venice.

All the people of this locality join the writer in congratulating the Lower Coast Gazette and wishes it success.

Mr. Steve Kennair, who is captain of the dredge at Baptiste Collette, paid a visit last Sunday, and states that the work is getting along splendidly.

Last Saturday, Miss Julia Biaggini and Miss Julia Buras were visitors in Olga.

Mr. Mrs. W. J. O'Brien were out driving last Sunday and paid an agreeable visit to Mrs. Jos. Bernard.

Since the New Years' bells rang, our little town is dry. The Bar rooms being closed, makes the neighborhood quiet and pleasant.

Our orange crops are now over but we are now admiring the orange blossoms. The trees are in bloom everywhere and it would be pitiful if a cold weather would come and rob us of our coming crop.

Mr. Frank Blaise, who has been on the sick list since Dec. '08, is now feeling better.

Mrs. Cannon, the amiable wife of Hon. Newton B. Cannon of Happy Jack, was a visitor to friends in Pointe a la Hache during the week. Her many friends are pleased to see that she has entirely recovered from her late illness—looking the picture of health.

Miss Nettie Minge of Lawrence, La. was a guest of Mrs. S. Favre on Tuesday. Miss Minge is quite an enthusiast on the organization of a Red Cross society in this parish. She is also a member of the society of Prevention to Cruelty to Animals. And is certainly

deserving of success and we hope that she will achieve the effect of her highest ambitions.

Hon. Simon Leopold and Theophile Ragas were agreeable callers at our office on Tuesday.

Hon. Roselius Perez, Police Juror from the 7th ward, was a visitor to our town on Wednesday.

Daisy.

The people of this place are quite busy preparing for the 1909 crop, giving their best efforts to rice. They have been so encouraged by good yields and satisfactory prices the last two seasons that they are now "going after rice in earnest." Land that has been idle for sometime is being cleared, ditched and put in proper shape for cropping as a should we have reasonable weather which is a very necessary adjunct to all crops, this place will make a good show at Harvest time.

Arbor Day was fittingly observed at this place by the teacher and pupils of the Fox School and also by the ladies of this place who were busy planting out trees, shrubbery and flowers.

Rev. L. E. Wicht preached an eloquent sermon here last Sunday.

Mr. and Mrs. Gilbert Buras were visitors to New Orleans Sunday.

The little daughter of Mrs. Edward Burton, while at play a few days ago with her brother, accidentally fell and fractured her arm but we are glad to state she is doing nicely.

The pupils led by their teacher walked in ranks up the public road with trees in their hands to the church grounds and there planted trees and shrubs. There was no tree planting on the school grounds owing to the construction of a new levee and the school house will have to be removed to some other place.

Belair.

Last Thursday Mr. Carrie our chemist left for New Orleans where he will reside for the next two months. Miss Florence Dymond spent the past Monday and Tuesday in New Orleans.

Much interest is taken here in the raising of chickens; evidence of this is Mr. Jarvie's poultry farm which will soon enable Belair to boast of the best chickens in Plaquemines.

Last Friday, Arbor Day was observed by Belair school children; One of the features of the day was the planting of various trees with appropriate ceremonies, however, owing to the death of an Italian resident, the celebration was of all that had been planned.

Mr. William Dymond and Mr. Jarvie left on Sunday to visit the schools in the lower part of the Parish. They returned.

Successful Advertising.

Hon. Simon Leopold reports to THE LOWER COAST GAZETTE that as a result of his advertisement in this paper he has had numerous inquiries concerning the stock he has to sell and has made several sales based thereon. It pays to advertise in THE LOWER COAST GAZETTE. Verbum sap.

Burwood.

Nothing doing—except that a few members of the Parish School Board got lost in the fog the past week and struck this place looking for the Burwood school which is situated a little higher up at Pilot Town Bayou. It speaks well for the Board to see that such interest is being taken in our school to send a committee such a distance in a small launch. If they do know what will they do when we have a Higo School.

Our popular young friend G. J. Clay, chief clerk on the U. S. steamship Benyard to Captain Walker Meyer made a flying trip to New Orleans Sunday to see his family. Mr. Clay is a fine fellow and believes in patronizing home industry.

Capt J B Lindhe wears a smile but he says that he would wear a broader one if congress would only hurry up and make that big appropriation for South West Pass.

A rowing match between J. T. Alexander and J. L. Hortenstein came off on Saturday last. Hortenstein fouled just as he got near the wharf and lost by one length. Hortenstein wants to try it over, he says he has several brass medals he won while at Oxford rowing on the Thames.

Mr. James Rayburn lost the rudder and shoe of his launch this week. He made several ineffective attempts diving for it, he now thinks the "mermaid" got it.

The many friends of Frank Blaise of Venice will be pleased to know that he is entirely recovered from his recent ill-

ness and was a passenger to Empire, La. on the Dependent Wednesday.

The gasoline launch being built by M O Buras of Venice is nearly completed and presents a neat appearance.

Quartermaster Sergeant Omer G. Paquet, stationed at Fort St Philip returned to his post of duty accompanied by his charming bride who he staid away quietly to Chattanooga, Tenn. Sergeant Paquet is to be congratulated upon his good fortune on arrival at the Fort they boarded the "Bick" railroad for their home in the reservation. The sergeant has charge of all the clerical work at the Forts.

What is the Best Way to Be Happy

1st. Maintain good health. If you are not healthy take the diet and exercise and other steps necessary to attain good health.

2nd. Refrain all impulses to indulge in ill-temper—cheerfulness is cheap and wholesome.

3rd. Cultivate a "Noble Discontent." Have some aim worth achievement, and urge yourself to its achievement. Strive to be first in your calling or business, the very best. If your occupation affords no opportunity for mental effort take up some line of study that interests you deeply, and advance as far as you can. Mere "content" might mean happiness for clams, not humanity.

ORA HARRIS.

Economy is Wealth.

That Messrs. Strack and Babington are enterprising citizens the following will show:

Sometime last week, although we have not had any amount of rainfall to speak of, the writer noticed the drainage machine on the St. Clair plantation hard at work with a full head of steam. As there was not much water in the drain, this seemed strange, so we, asked genial Judge Strack for an explanation. He deposed as follows: "No we have not much water in the field, but we kill two birds with one stone when we run that machine no matter how little water is in the field we get the pump to working, as we have a corn grinder attached to it. We grind up corn, cobs, and shucks and all, thereby getting feed for our mules while at the same time draining our field. Of course our feed is not all protein, but contains what the chemists call fibre, about 58 percent., but this feed is filling and satisfies and sustains the mules, so that they ruminate in peace when off duty."
