

JUST A SUGGESTION.

The Rejected One—And is this great love of mine to be cast aside?
She (wearily)—You might have it stuffed!

Starch, like everything else, is being constantly improved, the patent Starches put on the market 25 years ago are very different and inferior to those of the present day. In the latest discovery—Defiance Starch—all injurious chemicals are omitted, while the addition of another ingredient, invented by us, gives to the Starch a strength and smoothness never approached by other brands.

Recipe That Breaks a Cold in a Day and Cures Any Curable Cough.
"Mix half ounce of Concentrated pine compound with two ounces of glycerine and half a pint of good whiskey; shake well each time and use in doses of a teaspoonful to a tablespoonful every four hours."

These ingredients can be obtained from any good druggist or he will get them from his wholesale house. The Concentrated pine is a special pine product and comes only in half ounce bottles, each enclosed in an airtight case, but be sure it is labeled "Concentrated."

Her Sad Finish.
"Did you ever know a girl to die for love?"
"Yes."
"Did she just fade away and die because some man deserted her?"
"No; she just took in washing and worked herself to death because the man she loved married her."

For a Poor Memory.
"Say, Mayme, what's that ring on your finger for?"
"That's so I won't forget that I promised to marry Tommy. Beats a string for looks, too."

Peleg's Idea as to Thanksgiving

THANKSGIVIN' is goin' to be the banguppest affair at our house that'll be known from the way Mary has been makin' me trot around in Squashville town, judgin' for supplies.

"Peleg," she says to me a week come next Wednesday, "Peleg, you better get started on Thanksgiving or it'll be here and we will be in a fix like Mis' Jenkins was the time she had us all over for dinner six years ago. I shall never forget that dinner to my dyin' day," she says, "and it'll be a warning for me, I hope."

"When Mary Ann talks that way, knowin' her the way I do, bein' married a good 20 year, I give in. And I don't dawdle around doin' it, either. "Thursday mornin'," when I got through with the chores, and seen that the woodbox was filled and the water pail brimmin' over, them bein' things that gets on a woman's nerves, I gits loaded up with jugs and things and was down to Jay Home's store before he had the floor sprinkled.

"Jay," I says, "if you have got anything in this shanty that's needed for a bang-up Thanksgiving dinner, trot 'er out, and don't stop to figger it up till the whole caboodle is wrapped up. Jay set down his sprinkler and went out to the back shed for the broom."

"Don't you git riled up, Peleg," he says, "or excited. Comin' in on me at this time of the mornin'," he says, "when my mind's set on gettin' the prune pits and other dabree of the evenin' debauch of some of these Squashville sports, as the feller says," he says, "cleaned up. I ain't fit to figger up a Thanksgiving dinner. But if you'll set down and hold your horses," he says, "we'll git to it, we'll git to it!"

"Long and short of it was, Jay didn't have half the things Mary Ann had set down. We figgered out pretty well, from what he had. But dang if he had any cider or even cider vinegar."

"Jay," I says, "I'm a believer in truth, and I trusted you. But when I read, 'in the Squashville Bugle, as I did yes'day, them items which says 'Jay Home has the full-est, most complete and general stock of groceries in the northwest, prices right and good treatment,' and I come here, as I hev, and find no cider, or even cider vinegar, I find that I have been misled. After this I will read the Squashville paper with some caution, let alone orderin' you as postmaster to quit deliverin' it to box 198."

"Peleg," says Jay, "you're about the dangdest fool that ever set foot inside my store. I had that cider, as advertised, and I had that good treatment, and no one ever said my prices wasn't fair. But because a lot of others has been trottin' in here for supplies, let alone them that buys it by the glass, you git on your high horse. I like your trade, Peleg," he says, "but dang if I ain't a notion to tell you to find another place."

"Jay," I says, "seem' I was harsh, 'we bein' members of the Modern Woodmen ain't goin' to hev no words. But I am thinkin' of Mary Ann. She's set her heart on real cider for them mince pies, and you know Mary Ann."

"And I was right. Mary Ann put her foot down when I come into the kitchen and she see I didn't hev the cider."

"I can't help it, Peleg," she says. "I must hev it. You'll hev to go to Podunk for it, and to-day's as good a time as I know. I won't sleep now till I git that cider. I remember poor Mis' Jenkins, and it's a warnin'."

"And dang if I didn't hev to walk over to Podunk, me that ain't been there since I got beat for constable. And Mary Ann set down some other little things she thought of, bein' as I was goin' to make the trip. When I got home I set down the jug a little hard on the kitchen table."

"Mary Ann," I says, "this idea of hev'in' the whole dum town a-trumpin' in here on Thanksgiving may be all right. I ain't sayin' nothin' against it. You'll hev your way. But they's Douglas to be reform in this town. Jay Home'll keep cider and every other article," I says, "for Thanksgiving or Podunk'll git my trade."

"Shet up, Peleg," she says, "and git some water in this pail. You never filled it, and I hev been skimpin' ever since you started for Podunk."

"They ain't never been no trouble in our family for 20 years, as I was sayin', but if they is, it'll come from one of these Thanksgiving dinners, Danged if it won't."—R. B. Pixley, in Milwaukee Free Press.

Thanksgiving
Lo, 'tis Thanksgiving, day of grateful thanks
For those true blessings that the year has wrought;
Let vain Regret's poor lottery of blanks Be stored away, unwritten and forgot.
Perchance for thee joy, happiness, content,
Perhaps 'twere Fame that has assigned a part,
Perchance dull Luck his favored knee has bent;
Accept them all in fullness of the heart.
For its success a nation bows its head;
The clouds of panic passeth from the sight;
Lo, groping, let us in Thy light ahead See that unquestioned privilege of Right.
For Thy sure Presence in the things we lacked—
A simple heart, the benefits of mind,
To Thee, O Creator of our every act,
We give our thanks, for all such gifts are Thine! —George Kerr Anderson.

A GREAT ANNOYANCE.

Kidney Disease Shows Many Painful and Unpleasant Symptoms.

George S. Crowell, 1109 Broadway, Helena, Mont., says: "I was troubled with a disordered condition of the kidneys, some backache and irregular passages of secretions. At times I was obliged to get up out of bed at night, and the urine was unnatural in appearance. On the advice of a friend I procured Doan's Kidney Pills and began using them. This remedy helped me at once, strengthened my kidneys and corrected the disordered condition."

SKIN TROUBLES CURED.

Two Little Girls Had Eczema Very Badly—In One Case Child's Hair Came Out and Left Bare Patches.

Cuticura Met with Great Success.

"I have two little girls who have been troubled very badly with eczema. One of them had it on her lower limbs. I did everything that I could hear of for her, but it did not give in until warm weather, when it seemingly subsided. The next winter when it became cold the eczema started again and also in her head where it would take the hair out and leave bare patches. At the same time her arms were sore the whole length of them. I took her to a physician, but the child grew worse all the time. Her sister's arms were also affected. I began using Cuticura Remedies, and by the time the second lot was used their skin was soft and smooth. Mrs. Charles Baker, Albion, Me., Sept. 21, '08." Foster Drug & Chem. Had a Sure Thing.

An individual, well known on the Berlin Bourse for his wit, one morning wagged that he would ask the same question of 50 different persons and receive the same answer from each. The wit went to first one and then another, until he had reached the number of 50. And this is how he won the bet: He whispered half audibly to each: "I say, have you heard that Meyer has failed?" "What Meyer?" queried the whole 50, one after another, and it was decided that the bet had been fairly won.

Taking Care of Yourself.

There never was a time when people paid as much attention to their health and strength as they do now. Time was when fine stock and fine horses were fed more carefully than human beings.

The result of properly balanced rations has worked wonders with stock and recent experiments are proving that the same thing is true of mankind.

It has been found that Quaker Scotch Oats eaten often and regularly taking the place of heavy, greasy foods will work wonders in the health and strength of a family.
School children fed frequently on Quaker Scotch Oats thrive physically and are always capable of the best work at school. For athletes, laborers it is the best food.
For those who live in hot climates the hermetically sealed tins are best.

A Hero.

Tommy's mother had made him a present of a toy shovel and sent him out in the sand lot to play with his baby brother. "Take care of baby now, Tommy, and don't let anything hurt him," was mamma's parting injunction.

Presently screams of anguish from baby sent the distracted parent flying to the sand lot. "For goodness' sake, Tommy, what has happened to the baby?" said she, trying to soothe the wailing infant.

"There was a naughty fly biting him on the top of his head, and I killed it with the shovel," was the proud reply.—Exchange.

Mind Over Matter.

"Much may be done," said the Acute Observer, "by an authoritative voice. Now, if a man says to a dog: 'Come here!' with a note of absolute authority in his voice, the dog comes immediately."

"Yes," said the Traveler, "I've noticed it. And it is especially marked in oriental peoples. Why, when I was in Khalisandjharo, I heard a man say, with that authoritative note in his tone: 'Oh, king, live forever,' and immediately the king lived forever."—Carolyn Wells, in Success Magazine.

Deafness Cannot be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces. We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free. F. J. CHENEY & CO., Toledo, O.
