## SMASHES HER IDOL

### Broken "Billikins" Strew Home of Their Creator.

Florence Pretz Finds the Image "God of Things as They Oughtn't to Be"—No Luck for Her.

Kansas City, Mo.—"Billikin" may be the god of things as they ought to be, but he has been off the job a long while so far as his creator, Miss Florence Pretz of 2618 East Thirty-first street, is concerned. Doubtless there are smiles in thousands of homes and offices where "Billikin" abides and in the factory where he is fashioned in Chicago, but his grin brings no laughter or pleasant thoughts to the Pretz family, and least of all to the gifted daughter.

For Miss Pretz the squat little figure has meant so much trouble and disappointment that he has been banished from her home. She has smashed the last of the idols she formerly had prized. She turns aside from the shop windows to avoid seeing one. She dislikes even to talk of "Billikin"—and all because a group of men have, she believes, deprived her of the profits which legally should be hers. Not a "Billikin" is allowed in Miss Pretz's home. It is a name never spoken except when absolutely necessary. Her mother is said to have one of two of the idols hidden somewhere, but the daughter never sees them. To Mrs. Pretz they stand for a family hope unrealized. To Miss Pretz they mean \$20 a month royalty while thousands go to the bank accounts of the men who have involved the designer in a maze of technically worded contracts and agreements not understood when she signed them.

Miss Pretz is a teacher of art at the Manual Training High school. She is trying to forget "Billikin." She has despaired of ever getting what she believes are her rights and would rather go blocks out of her way than see a "Billikin" throne, a "Billikin" pin, cuff buttons, watch charm or anything suggestive of her first business

"Billikin."

undertaking. There is just a chance that she may break into some of the profits if a really live lawyer can be found willing to go into the tangle as to the patent. Miss Pretz isn't quite sure what she signed. She knows just two things, and these are that about \$1,000 represents all she ever got for her work, and that two or three men are becoming rich as a result of it.

"I'm out of patience with the whole subject," Miss Pretz said recently. "Don't care to see 'Billikin' again" was suggested.

"I do not," she replied.

"You'd smash one if you had a chance?"

"I certainly would."

Mrs. Pretz says her daughter has broken the last of the "Billikins" that stood on the family mantelpiece.

"She has dismissed the whole thing from her life," the mother said. "She worried about it a long time and her father tried to make the Chicago people pay her for what they had pre-empted. There is a chance yet that she may get what she deserves. I can't talk about that now, however. She still owns the patent. She is reticent and refrains from going into court to enforce her rights."

But listen: One of these fine days the creator of "Billikin" will give the changeable public another idol, something to touch every human being struggling along toward some goal. She won't tell what it is. One thing is certain, when Miss Pretz has another novelty it will take a mighty careful lawyer to get her signature to any paper. The next contract offered her, she says, will go with her on a long vacation to be studied. After which the bar association will be asked to pass upon it.

### More Dietetic Facts.

Verify the food of dietetic righteousness is a strait and narrow path. A big sanitarium gives its patients the following printed list of "Dangerous Foods": Cane sugar, fats, flesh foods, including fish, oysters, lobsters, etc.; eggs, milk, coarse vegetables, such as spinach, cabbage, turnips, etc.; condiments, including salt and pepper; tea, coffee, chocolate, cocoa and all alcoholic drinks. This leaves practically only cereals, potatoes and nuts. The skin and seeds of nuts are forbidden; this practically cuts off cherries, prunes, dried apricots, figs, dates, raisins, currants and most grapes, unless strained of objectionable parts. Peas and beans are admissible, if passed through a colander to remove the hulls.

### Feeding School Children.

Profiting by the experience of several American cities which provide food at cost for their school children, the London county council has about decided on a similar system in some of the schools of the metropolis. Parents having asked that meals be supplied at school to their children who are not "necessitous," the county council authorities are planning to grant the applications, payment to be made in advance, the charge to be calculated to the nearest farthing."

## The Exceptional Equipment

of the California Fig Syrup Co. and the scientific attainments of its chemists have rendered possible the production of Syrup of Figs and Elixir of Senna, in all of its excellence, by obtaining the pure medicinal principles of plants known to act most beneficially and combining them most skillfully, in the right proportions, with its wholesome and refreshing Syrup of California Figs.

As there is only one genuine Syrup of Figs and Elixir of Senna and as the genuine is manufactured by an original method known to the California Fig Syrup Co. only, it is always necessary to buy the genuine to get its beneficial effects.

A knowledge of the above facts enables one to decline imitations or to return them if, upon viewing the package, the full name of the California Fig Syrup Co. is not found printed on the front thereof.

### A MAN OF RESOURCE.

Actor (of provincial company)—Can you give me ten cents on account? I must get a shave. I have been playing Hamlet for four days, and my beard is beginning to grow.

Manager—Well, that's easily remedied. We'll put on Othello.

### Schools for Tuberculous Children.

Special schools for tuberculous children have now been established in Providence, Boston, New York, Rochester, Washington, Hartford, Conn., Chicago and Pittsburg. New York has three schools and Washington, D. C., two. The board of education of New York city is proposing to establish three more, and similar institutions are being planned in Detroit, Buffalo, Philadelphia, Cincinnati and Newark, N. J.

In cities like Providence, Boston and New York, where outdoor schools have been conducted for two years, the results obtained from the treatment of children in special tuberculous open air schools seem to show the great advantage of this class of institutions. This, coupled with the experience of open air schools in Germany and England, proves that children can be cured of tuberculosis and kept up with their school work, without any danger to fellow pupils.

### A Kneeling Proposition.

"Fony" Moore, the once famous minstrel, is dead at the age of 80. He was one of the last of his kind.

"Moore," said a veteran Chicago manager, "used to make up his jokes. Once, when he played here, he had his toes run over, and limped on that night with a foot that resembled a white pillow.

"Ah's ez tendah-hoofed as Lize Johnsing," he said to the audience, with a chuckle. "Yo' know 'bout Liza? Young Calhoun White, he sez to her, 'propposin':

"'Whaffo' you make a face like dat when I propose, Miss Johnsing?"

"'Well, Cal,' says Liza, 'Ah kain't give yo' offah propah consideration less'n yo' takes yo' knee off'n mah co'n.'"

### The Fez a Necessity.

All through the markets of every Turkish city and village are little shops where the fez can be pressed and ironed for a few cents. At his prayers a Moslem could not use a hat with a brim, as his head must press the prayer rug a certain number of times during each prayer. As the head must be covered at all times, a fez or some other business covering must be used.

### Prescriptions Not General.

Some people look on a doctor's prescription in the same light as a cookery recipe and pass it on to their friends for general use. They forget that some symptoms may come from totally different causes and that to take a medicine prescribed for a friend is a very risky thing to do and may do a great deal of harm.

### SECRET WORKERS

The Plan Upon Which Coffee Operates.

Coffee is such a secret worker that it is not suspected as the cause of sickness or disease, but there is a very sure way to find out the truth.

A lady in Memphis gives an interesting experience her husband had with coffee. It seems that he had been using it for some time and was an invalid.

The physician in charge shrewdly suspected that coffee was the "Worm at the root of the tree," and ordered it discontinued with instructions to use Postum regularly in its place.

The wife says: "We found that was the true remedy for his stomach and heart trouble and we would have gladly paid a hundred times the amount of the doctor's charge when we found how wise his judgment was.

"The use of Postum instead of coffee was begun about a year ago, and it has made my husband a strong, well man. He has gained thirty-five pounds in that time and his stomach and heart troubles have all disappeared.

"The first time I prepared it I did not boil it long enough and he said there was something wrong with it. Sure enough it did taste very flat, but the next morning I followed directions carefully, boiling it for fifteen minutes, and he remarked 'this is better than any of the old coffee.'

"We use Postum regularly and never tire of telling our friends of the benefit we have received from leaving off coffee."

Look for the little book, "The Road to Wellville," in pkgs. "There's a Reason."

Ever read the above letter? A new one appears from time to time. They are genuine, true, and full of human interest.

### FREED AT LAST

From the Awful Tortures of Kidney Disease.

Mrs. Rachel Ivie, Henrietta, Texas, says: "I would be ungrateful if I did not tell what Doan's Kidney Pills have done for me. Fifteen years kidney trouble clung to me, my existence was one of misery and for two whole years I was unable to go out of the house. My back ached all the time and I was utterly weak, unable at times to walk without assistance. The kidney secretions were very irregular. Doan's Kidney Pills restored me to good health, and I am able to do as much work as the average woman, though nearly eighty years old."

Remember the name—Doan's. Sold by all dealers. 50 cents a box. Foster-Milburn Co., Buffalo, N. Y.

### Special Note from Atchison.

The engagement of Mr. Hiram Hardesty and Miss Suzette Sharley is announced. It occurred the other evening at 9:45 on the red sofa in Miss Sharley's parlor. The young lady was dressed in black, and wore no ornaments. She did not look unusually pretty, and what caused the young man's mental aberration is not known. Neither one could remember exactly what was said, and both admitted it was not the first time he kissed her. We print the details for the romantic young things who are always curious to know how an engagement is brought about.—Atchison Globe.

### Patetic Pride.

Willie had had a tumble when he was a baby and his hip was so hurt that ever afterward he was obliged to use a crutch. On one occasion, when his mother had bought him a new crutch of the latest and most approved style, Willie expressed his enthusiasm and delight in the roundest terms. "And oh, mother!" he exclaimed, in conclusion, referring to a little friend of his who having the use of both legs had no need of crutches, "won't Johnny Knowles be jealous!"

### The Cost of Politics.

In his reminiscences of Grover Cleveland, George F. Parker tells a story concerning prodigal expenditures in politics. A rich man who had been nibbling at the Democratic nomination for governor of New York asked William C. Whitney's advice. This is the advice: "Of course, you ought to run! Make your preliminary canvass, and when you have put in \$200,000 you will have become so much interested in it that you will feel like going ahead and spending some money."

### Catarrh Cannot Be Cured

### Avoiding Popularity.

"How shall we avoid popularity?" John Wesley once asked his preachers, and straightway gave them the answer in a set of rules. Here is rule 4: "Warn the people among whom you are most of esteeming or loving you too much." And here is rule 5: "Converse sparingly with those who are particularly fond of you."

### Never.

### BENEFIT OF HOME TRAINING

Probability That Father "Improved" on Anything Willie Had Heard on the Street.

When Willie's father came home to supper there was a vacant chair at the table.

"Well, where's the boy?"

"William is upstairs in bed." The answer came with painful precision from the sad-faced mother.

"Why, wh-what's up? Not sick, is he?" (An anxious pause.)

"It grieves me to say, Robert, that our son—your son—has been heard swearing on the street! I heard him."

"Swearing? Scott! I'll teach him to swear." And he started upstairs in the dark. Half-way up he stumbled and came down with his chin on the top step.

When the atmosphere cleared a little Willie's mother was swearing sweetly from the hallway. "That will do, dear. You have given him enough for one lesson."—Judge.

### TORE HIS SKIN OFF

In Shreds—Itching Was Intense—Sleep Was Often Impossible.

Cured by Cuticura in Three Weeks.

"At first an eruption of small pustules commenced on my hands. These spread later to other parts of my body, and the itching at times was intense, so much so that I literally tore the skin off in shreds in seeking relief. The awful itching interfered with my work considerably, and also kept me awake nights. I tried several doctors and used a number of different ointments and lotions but received practically no benefit. Finally I settled down to the use of Cuticura Soap, Cuticura Ointment and Cuticura Pills, with the result that in a few days all itching had ceased and in about three weeks' time all traces of my eruption had disappeared. I have had no trouble of this kind since. H. A. Krutskoff, 5714 Wabash Ave., Chicago, Ill., November 18 and 28, 1907."

### Boy's Essay on Clothing.

Here is an extract from an essay, written by a boy in a London school: "Clothing is an article which every body should wear. The least of this article is worn by savages or natives, which is a piece of cloth or a few leaves or feathers round the waist, in cold countries, same as Eskimos, the people wear more clothes than we do, count of the icy cold out there. They can skate all the year round, except about one thaw there is in summer. If they walked about like natives they would catch cold directly and die of bronchitis. We put clothes on which are nearly like our bodies, some have caps, coats and trousers, but women and girls wear hats and frocks to tell who they are."

### Purchasing Power.

A young gentleman of our acquaintance, who had just reached the age of six, was recently waiting with his mother for a train at a railway station, when he noticed a penny-in-the-slot weighing machine. He asked his mother a great many questions about it, and at last received permission to drop in his penny and be weighed. Having obtained that important information, he said: "How much would I have weighed, mamma, if I had dropped in a dollar?"

### Hypnotism Long Recognized.

Hypnotism has been recognized by the medical profession since the fifteenth century and in the last 100 years has been experimented and tested out in thousands of cases by such savants as Charcot in Paris and Bernheim in Nancy, yet with all these years of trial its results have not justified its practical and general use in sickness.—New York Press.

## What Ails You?

Do you feel weak, tired, despondent, have frequent headaches, coated tongue, bitter or bad taste in morning, "heart-burn," belching of gas, acid risings in throat after eating, stomach gnaw or burn, bad breath, dizzy spells, poor or variable appetite, nausea at times and kindred symptoms?

If you have any considerable number of the above symptoms you are suffering from biliousness, torpid liver with indigestion, or, as we call it, Dr. Pierce's Golden Medical Discovery is made up of the most valuable medicinal principles known to medical science for the permanent cure of such abnormal conditions. It is a most efficient liver invigorator, stomach tonic, bowel regulator and nerve strengthener.

The "Golden Medical Discovery" is not a potent medicine or secret nostrum, a full list of its ingredients being printed on its bottle wrapper and attested under oath. A glance at these will show that it contains no alcohol, or harmful habit-forming drugs. It is a fluid extract made with pure, triple-refined glycerine, of proper strength, from the roots of native American medicinal forest plants.
