Marriage and Friendship.

Marriage without love may be endurable, but marriage without love is intolerable. And if a man and woman have no mutual tastes and habits, friendship and even love itself will languish. Even the best and truest love loses with youth its first fire and fever, but with mental and moral kinship a better, saner, purer love is built on the ashes of the first. This love is made up of affection, friendship, comradeship, trust, and pervading all this a tender sentiment growing out of the dead memories of long ago.—Carrie E. Garrett, in the January Woman's Home Companion.

The seven principal Bibles in the world are the Koran of the Mohammedans, the Eddas of the Scandinavians, the Tripitakas of the Buddhists, the Five Kings of the Chinese, the three Vedas of the Hindoos, the Zendavesta, and the scriptures of the Christians.

REGAINED HEALTH.

Gratifying Letters to Mrs. Pinkham From Happy Women.

"I Owe You My Life."

Mrs. E. WOOLHISER,

Mills, Neb., writes:

"DEAR MRS. PINKHAM:—I owe my life to your Vegetable Compound. The doctors said I had consumption and nothing could be done for me. My menstruation had stopped and they said my blood was turning to water. I had several doctors. They all said I could not live. I began the use of Lydia E. Pinkham's Vegetable Compound, and it helped me right away; menses returned and I have gained in weight. I have better health than I have had for years. It is wonderful what your Compound has done for me."

"I Feel Like a New Person."

Mrs. GRD. LEACH,

1609 Belle St., Alton, Ill., writes:

"Before I began to take your Vegetable Compound I was a great sufferer from womb trouble. Menses would appear two and three times in a month, causing me to be so weak I could not stand. I could neither sleep nor eat, and looked so badly my friends hardly knew me.

"I took doctor's medicine but did not derive much benefit from it. My druggist gave me one of your little books, and after reading it I decided to try Lydia E. Pinkham's Vegetable Compound. I feel like a new person. I would not give your Compound for all the doctors' medicine in the world. I can not praise it enough."

Why They Raise Hay.

While I was up in Canada last summer a venerable inhabitant told me the reason why the farmers of the Dominion raise so much hay. He said that two or three centuries ago tithes were imposed for the benefit of the church upon all agricultural products, and a list was made of them. The farmers were compelled to give the priests one bushel in twenty-six of everything they produced, whether it was apples, potatoes, wheat, corn, onions, turnips, or any other grain or vegetable. Everything that grows was on the list except hay, which for some reason was omitted, he doesn't know why. Perhaps it was a mistake, but it is more likely the hay crop was so insignificant in those times that it was overlooked. In 1764, when Canada passed from French to British rule, the tithing law was confirmed and ratified by the treaty, and continues in force this day in the province of Quebec and wherever the Catholic church is strong. Therefore, to escape tithes, the farmers raise hay.—W. E. Curtis in Chicago Record.

Ears Beat Eyes.

Most people would no doubt be inclined to fancy that the eye was the gateway of quite the most delicate of all our senses. But this is not so. The sense of hearing has been proved to be far the most delicate of all the senses. And the sense of touch appears to be perhaps the keenest of all. The tests are very simple.

For testing sight a disc half black, half white is revolved quickly before the eyes. When it reaches a speed of twenty-four revolutions a second the colors cease to appear distinctly any longer to the eye, and the result is gray. For sound, a revolving toothed wheel makes a series of clicks, and these to the average man appear to be distinct sounds up to sixty a second. After that they cannot be distinguished apart. The sense of touch is tried by rapid blows of a tiny electric hammer on the skin. Up to 1,000 a second these blows have been felt separate and distinct.

The Sultan's Hobbies.

The estimated value of the sultan's jewels is 8,000,000 pounds sterling. If his majesty has any hobby at all, it may be said to be the purchasing of jewels and witnessing private theatricals. No professional of note—he actor, singer or conjurer—passes through Constantinople without an invitation from the sultan. He always pays for these performances in Bank of England notes.

Strong at 110.

Mrs. Ann Smith, of Worcester, Eng., 110 years of age, has spent over 100 years of her life in traveling from fair to fair in a van. She has had sixteen children, and one of her daughters, now 80 years of age, has also had sixteen. Mrs. Smith eats four meals a day, drinks sparingly of intoxicants, smokes a clay pipe steadily, and attends to all her household duties herself.

A skilled workman is not an accidental product, either morally or intellectually. Thousands of years of discipline, by which the impulsive nature of the savage has been evolved into a comparatively self-controlling nature, capable of sacrificing present ease to future good, are pre-supposed.—Herbert Spencer.

Foot Poe Not Expelled from College. William H. Browne writes the following letter to the Baltimore News: "I see a paragraph going the rounds of the papers to the effect that it is remarkable that Edgar A. Poe should be honored by a bust erected in the university from which he was expelled. It has been shown again and again that Poe was never expelled from the University of Virginia. Mr. J. H. Ingram, the author of a well-known life of the poet, wrote to Mr. William Wertenbaker, secretary of the faculty, to inquire about Poe's conduct and standing, and that gentleman, who was librarian during Poe's residence and knew him well, replied, not from memory only, but after searching the records, that 'at no time did he fall under the censure of the faculty.' Mr. Woodbury, another biographer, says that during Poe's residence he did not come under the notice of the faculty, which is stated to have been at that time unusually watchful and strict.

The Joys of Childhood. Johnny and Tommy, who are the noisiest children in Yorkville, were playing. "Let's play on this doorstep," suggested Tommy. "No," Jimmy said, "there isn't any fun in doing that. That's an empty house. Let's go down the street and play. I know where there's a newspaper man's house. He works all night and sleeps in the daytime." And the pair of cherubs started off to the spot where the maker of thoughts for seventy million ladies and gentlemen was trying to replenish his empty think tank by the balmy sleep process.

Liked to Be Fooled. Said Mrs. Fondmother to her son, who is unduly partial to the softer sex: "Don't you put any reliance on what the girls tell you. They are awful liars and will fool you every time." "Yes, but how nice they do it," replied the enamored youth, with a beatific smile.

Transvaal Gold. Consul Macrum, from Pretoria, sends to the State Department a report of the gold output of the South African republic. Notwithstanding that the whole area of the Rand occupies only a series of miles along a belt of 30 miles, the production for a single month has reached 400,000 ounces, the average price of the September output being \$18.24 per ounce. The October report was the first to go over 100,000 ounces, and the number of mills and the total of stamps is rapidly increasing. It is expected that the output of the Transvaal next year will exceed that of the combined mines of Colorado, Dakota, California, Montana, and Alaska, although it fell short of that last year.

Cremation in Scotland. Cremation is not making rapid progress in Scotland. Since the crematorium was opened near Glasgow, four years ago, only thirty-eight bodies have been burned. In order to induce the working classes to resort to this method of disposing of their dead, the managers of the crematorium offer to conduct cremations at 2 guineas a piece, and in the case of very poor persons, for nothing at all.

In the "Lost and Found" column of an English paper appears an advertisement offering a reward for the return of a large Angora cat "with a very busy tail." The careless compositor again, but then not such a ridiculous error, after all.

Pain is the correlative of some species of wrong—some kind of divergence from that course of action which perfectly fulfills all requirements.—Herbert Spencer.

Long Seaweed. One tropical and subtropical variety of seaweed is known which, when it reaches its full development, is at least 600 feet in length. Seaweed receives its nourishment from the air and mineral matter held in solution in the sea water.

Cataract Cannot Be Cured. With local applications, as they cannot reach the seat of the disease. Cataract is a blood or constitutional disease, and in order to cure it you must take internal remedies. Hall's Cataract Cure is taken internally, and acts directly on the blood and mucous surface. Hall's Cataract Cure is not a quack medicine. It was prescribed by one of the best physicians in this country for years, and is a regular prescription. It is composed of the best tonics known, combined with the best blood purifiers, acting directly on the mucous surfaces. San Robinson, of Mt. Sterling, Ill., is a veteran of the Civil War, having served in the 3rd Pennsylvania Volunteer. He went to the war a vigorous farmer's boy and came back broken in health, a victim of sciatic rheumatism. Most of the time he was unfitted for manual labor of any kind, and his sufferings were at all times intense. He says: "Nothing seemed to give me permanent relief until three years ago, when my attention was called to some of the wonderful cures effected by Dr. Williams' Pink Pills for Pale People.
