—We believe it is time that the Industrial School Committee should organize meetings in every ward of the parish, the time for the election is nearing and little has been done yet in addressing the people upon the voting of the school tax. —It looks very much as if our friends of the administration, in this parish will have clear sailing this year, as at this date no sign of opposition is yet visible. Is there any of our citizens bold enough to create an opposition? Perhaps if we were to have white primaries in this parish for the selection of parish officers, the candidates would show up, but we do not believe that the politicians would risk their chances at a white primary, so we can expect to see the old thing, the convention turn out the candidates, as in the past. White primaries, however, would be the proper way to let the people select their own candidates.

How to Prevent Croup.

We have two children who are subject to attacks of croup. Whenever an attack is coming on my wife give them Chamberlain's Cough Remedy and it always prevents the attack. It is a household necessity in this county and no matter what else we run out of, it would not do to be without Chamberlain's Cough Remedy. More of it is sold here than of all other cough medicines combined.—J. M. Nickle, of Nickle Bros., merchants, Nickleville, Pa. For sale by T. J. Labbe.
