CROUP

Is a violent inflammation of the mucous membrane of the wind pipe, which sometimes extends to the larynx and bronchial tubes; and is one of the most dangerous diseases of children. It almost always comes on in the night. Give frequent small doses of Ballard's Horehound Syrup and apply Ballard's Snow Liment externally to the throat. 25c, 50c, \$1.00. For sale by T. J. Labbe.

The game of base ball which was to take place here last Sunday between Breaux Bridge and St. Martinville, had to be postponed on account of the bad weather. The Breaux Bridge boys had come here, it rained in the morning, the ground was full of water and our streets were too muddy for any one to be out on pleasure.

INDIGESTION.

With its companions, heart burns, flatulence, torpidity of the liver, constipation, palpitation of the heart, poor blood, headache and other nervous symptoms, sallow skin, foul tongue, offensive breath and a legion of other ailments, is at once the most widespread and destructive malady among the American people. The Herbine treatment will cure all these troubles. 50c bottle. At Labbe's.

Old Francois, the old man who was for several years the yardman of Mr. Rousseau, who was lately in the employ of Sheriff Badou, died last Sunday morning from the effect of a kick from a horse which he received the day previous in the lower part of the abdomen. Old Francois lived here for many years and was known by no other name. He was a man advanced in years and claimed he worked on the Suez Canal at the beginning of this great work.

BUY IT NOW.

Now is the time to buy Chamberlain's Colic, Cholera and Diarrhoea Remedy. It is certain to be needed sooner or later and when that time comes you will need it badly—you will need it quickly. Buy it now. It may save life. For sale by T. J. Labbe.

The happiest man in the world is the common, every-day chap who makes his own living, pays his bills and has a little money as he goes along; but who doesn't strive to get a corner on the local output, and is neither a slave to ambition nor society. He loves his God and fellow men, thinks "there is no place like home," the haven of rest; prefers the company of his wife and children to that of any one else, never has to sit up at night to poultice his conscience, believes in the doctrine of live and let live, and when he encounters one of the needy he doesn't stutter over his pocket-book. The plain man is happy because he is satisfied, and he doesn't spend the best part of life yearning for something four sizes too large for him.

One of the most important engineering problems waiting for solution to-day, says Railway and Locomotive Engineering, is a practicable method of using crude petroleum as an explosive in internal combustion engines. When this invention is perfected we will see the engines driving the locomotives in all the regions where oil wells are to be found.

Mrs. Jos. S. Martin and son, Tom, who were spending some time in Bitouxi, returned home last Sunday.
