The young men of this town have organized a rowing club and already have a fine boat in the bayou and they enjoy boat rides on the Teche every evening. This seems to be a happy recreation and good physical exercise for those who use the oars. We expect to see more boats in the bayou during the next few days.

Mr. W. F. Owen was here Thursday to confer with the committee; he reports the survey completed from Crowley to here, and Monday the papers will be ready for the committee to go to work to secure the right of way from the town limit to the parish line. This will complete the right of way from Crowley to St. Martinville. This line will be 32 miles. It is not yet decided whether the road will go to Loreauville or New Iberia. If New Iberia refuses to vote the tax asked, the road will go St. Martinville to Loreauville and from Loreauville to Jeanerette.
