## Electric Bitters

Succeed when everything else fails. In nervous prostration and female weaknesses they are the supreme remedy, as thousands have testified. **FOR KIDNEY, LIVER AND STOMACH TROUBLE** it is the best medicine ever sold over a druggist's counter.

### REGISTER NOW.

Do not get the idea into your head that because you have paid your poll tax you are qualified to vote, because you are not. You may pay your poll tax a dozen times over and unless you register you cannot vote at any time. See that you register, and do it promptly. There is no telling what minute you may be called upon to vote, and your vote may turn the tide in the direction you want it to go.—Iberville Sentinel.

### Attacks School Principal.

A severe attack on school principal, Chas. B. Allen, of Sylva, Ga., is thus told by him. "For more than three years," he writes, "I suffered indescribable torture from rheumatism, liver and stomach trouble and diseased kidneys. All remedies failed till I used Electric Bitters, but four bottles of this wonderful remedy cured me completely." Such results are common. Thousands bless them for curing stomach trouble, female complaints, kidney disorders, biliousness, and for new health and vigor. Try them. — Only 50c at all druggists.

### The Value of a Baby.

N. O. Daily Item.

There is no escape from figures these days, even in the cradle. Unless a value is expressed in terms of dollars it is not presumed to have a meaning. This is extreme, of course, but it serves to point to a very real aspect of this commercial age.

The California Board of Health recently declared that the value of a baby is \$4000. This is a point on which there is permissibly a wide difference of opinion. The poor seem to have a high opinion of the value of babies, to judge from the number of them they have. The rich have comparatively poor an opinion of them. The home of wealth with more than one or two children is the exception. Of course, this is the sentimental way of looking at it.

When the grave pronouncement of the California body fell upon waiting ears, two colleges professors took issue with it and undertook each to show the real value of a baby. One of them declared that \$150,000 was nearer the real worth. The other said that a baby at \$20 would be a losing investment. This is presumable the calm, dispassionate view of the subject. It varies as widely as the sentimental view.

The value of a baby, in a broad sense, probably depends upon the birth-rate and population of a country and upon that country's state of harmony with other countries. A war, causing a sudden death rate, would naturally put a premium upon the birth-rate. The value of babies individually, however, could never be determined. One might be a future George Washington, the other an embryonic burglar. Which would be the more valuable then?

It all goes to show the human flesh can not be dealt in like beef, and that, after all, there must be a difference between Man and Beast.

Medicines that aid nature are always most successful. Chamberlain's Cough Remedy acts on this plan. It loosens the coughs, relieves the lungs, opens the secretions and aids nature in restoring the system to a healthy condition. Sold all by druggists.

The country church is a powerful factor for civilization and the pastor, when he does his duty towards his people, is instrumental in fostering cooperation, education and social purity. True religion not only gives men a grasp of the kingdom, but it makes them good guardians of terrestrial affairs. Give the church your support and the pastor your co-operation in making men and women better. — Texas Farm and Ranch.
