

## The Maine And Her Mystery.

Gen. Bixby, chief of the army engineers, has expressed the opinion that the destruction of the Maine was caused by the explosion of the magazines. No external explosion, in his judgment, could have caused the conditions now observed in the remains of the battleship. But Gen. Bixby adds that the primary cause of the explosion will never be known. Many will persist in believing that the American court of inquiry was right in attributing the awful result to two distinct explosions, the first of which was external and the second internal. There is no inconsistency between the court's findings and the view of Gen. Bixby, although there is no denying the fact that the authorities who, with Rear Admiral Melville, believe there was no discharge of any mine or other outside agent will find confirmation of their conclusion in the Bixby view. We fear the mystery of the Maine, unlike the hull itself, will never be revealed. It will remain buried.—Chicago Record-Herald.

**THE WELD  
THAT HELD**

You will find electrically welded hoops on ice cream freezers and washing machines, on many tubs and buckets. Examine them. "PITTSBURGH PERFECT" fences are made by this modern, simple and marvelous process, producing "THE WELD THAT HELD."

**MR. FARMER: LISTEN, NOW.** Every agent handling "PITTSBURGH PERFECT" fences is authorized to guarantee this:

- That the wires are not injured at the joints.
- That the fence is perfectly adjustable to uneven ground.
- That the stays will not separate from the strands.
- That the fence is all right in every particular.

Could you ask any more definite protection? Your complete satisfaction is absolutely assured.

**O. P. RESWEBER**

In order to introduce THE HAZARD PAINTS in this section, we will sell it at \$1.50 per gallon. This paint fills the demand for a durable house paint at a moderate price, suitable for use on any building, be it wood or brick or metal, inside or outside.  
**ONE CAR LOAD OF ELECTRIC WIELDED FENCE WIRE.**

## What I Believe In.

I believe in the stuff I am handing out, in the firm I am working for, and in my ability to get results. I believe that honest stuff can be past out to honest men by honest methods. I believe in working, not weeping; in booting, not knocking; and the pleasure of my job. I believe that a man gets what he goes after, that one deed done to-day is worth two to-morrow, and that no man is down and out until he has lost faith in himself. I believe in to-day and the work I am doing, in to-morrow and the work I am going to do, and in the sure reward which the future holds. I believe in courtesy, in generosity, in good cheer, in friendship and in honest competition. I believe there is something, somewhere, for every man ready to do it. I believe I am ready right now! — Elbert Hubbard.

## Kill More Than Wild Beasts.

The number of people killed yearly by wild beasts don't approach the vast number killed by disease germs. No life is safe from their attacks. They're in air, water, dust, even food. But grand protection is afforded by Electric Bitters, which destroy and expel these deadly disease germs from the system. That's why chills, fever and ague, all malarial and many blood diseases yield promptly to this wonderful blood purifier. Try them, and enjoy the glorious health and new strength they'll give you. Money back, if not satisfied. Only 50c at all druggists.

Baby, 27 Months Old, Weighs 122 Pounds and is Nearly 4 Feet Tall.

Mount Airy, Ga., July 5. — A problem — and a mighty serious one at that — presents itself in the form of James Adolph Cody, two years and three months old. Think of Papa Cody walking the floor with Baby Cody at 2 a. m.

While only a baby according to the birth certificate, James is very much a man, and this opinion is not merely an empty boast of a proud father and mother. James weighs just 122 pounds up to date and is still growing in defiance of

the speed laws of this section. He stands 39 inches in his stocking feet, is 15 inches across the shoulders and has a 12-inch biceps. They have not measured his punch as yet, but it is generally conceded to be potential with hope for the white race.

Jimmy sleeps well and is perfectly healthy. Of course he's a bit more expensive than the normal baby owing to his capacity for food which is in proportion to his size. Just where the fond parents are going to get a vehicle to convey this piece of babyhood about is another serious proposition. They may ask estimates from well-known wagon-makers and engage a couple of Georgia mules — nice gentle ones who wouldn't kick. Still they hesitate at deciding, for at present rate of growth one wagon or cart, or whatever it may be, won't last long.

Sprains require careful treatment. Keep quiet and apply Chamberlain's Liniment freely. It will remove the soreness and quickly restore the parts to a healthy condition. For sale all druggists.

## Our Millions Go To Europe

FOREIGNERS IN THE UNITED STATES SENT \$100,000,000 TO THEIR NATIVE LANDS IN 1910.

American dollars are pouring into the coffers of other nations of the earth as they never did before, according to statistics compiled by the post-office authorities, and those countries which have their largest classes are getting the great bulk of the money.

Italian residents of the United States last year sent to Italy, in round figures \$26,000,000, while the amount sent in 1909 was \$8,000,000 less. Hungary showed the greatest gain with a total of \$37,000,000. All the countries included in Great Britain received last year \$14,000,000, as against \$12,000,000 the previous year.

Germany received \$1,700,000; France, \$1,384,000; Austria, \$10,000,000; Sweden, Belgium and Greece \$1,000,000. Nearly every nation on the face of the earth took its toll from the United States last year and toll is increasing rapidly.

Science has developed something infinitely better than the old-style wrap or clamp.

## "PITTSBURGH PERFECT" FENCES ARE WELDED BY ELECTRICITY.

This is the modern method of construction. Years of life are added through the elimination of serious fence defects.

**AWRAP** holds moisture, cracks the galvanizing and allows the water to attack the bare wire. A small amount of displaced galvanizing on "PITTSBURGH PERFECT" REINFORCES THE PROTECTION AGAINST RUST AT THE ELECTRICALLY WELDED JOINT; examine the joint.

**STAYS CANNOT SLIP.** They are always just where they were put. Stay and strand wires become one piece when the union is made. The fence is like a solid sheet of perforated steel.

## Every Rod is Guaranteed Perfect.

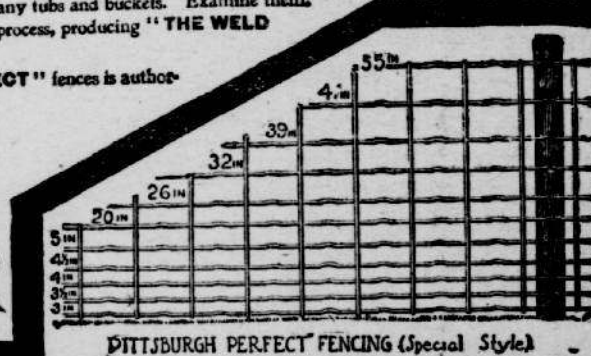

Don't allow your prejudice in favor of the rapidly-declining and now antiquated methods you have heretofore known, to warp your good judgment.

"PITTSBURGH PERFECT" FENCES REPRESENT PROGRESS, because hundreds of thousands of dollars worth of standard material is daily welded by electricity.

The hoop on the average sugar barrel in the isolated country grocery store is an electrically welded product.

If your wagon was made in a large factory, its tires were welded by electricity.

Examine them.

## Parson's Poem A Gem.

From Rev. H. Stubenvoll, Allison, Ia., in praise of Dr. King's New Life Pills. "They're such a health necessity. In every home these pills should be. If other kinds you've tried in vain, USE DR. KING'S And be well again. Only 25c at all druggists.

The several cases of cholera which developed at the quarantine station at New York among the emmigrants from Italy, is causing a great deal of anxiety to the authorities of that state since one of the American employees of the station died of the disease.
