Her deed was glorious but lives are often saved by Dr. King's New Discovery in curing lung troubling, coughs and colds, which might have ended in consumption or pneumonia. "It cured me of a dreadful cough and lung disease," writes W. B. Patterson, Wellington, Tex., "after four in our family had died with consumption, and I gained 87 pounds." ## Civil War News In The Item Happenings of 50 Years Ago To-Day

Southern sympathizers and those who bore a part in the great war between the states have long desired the publication in easily accessible and readable form of an impartial record of the great events of the Civil War. The average person has not the money or the time to dig through the stupendous number of books which have been written on the subject. In the judgment of The New Orleans Item, the time has come when a fair and accurate and interesting narrative can be written regarding this great struggle. Accordingly, an article which has been prepared appears now each day in The New Orleans Item, telling of the great events of that day fifty years before. This is newspaper reporting fifty years to the day after the event. It must be remembered, however, that there never has been given a newspaper account of the war, in this way, for the papers of fifty years ago not only had not the facilities for securing the information, but they were violently partisan on both sides in all their reports. Again, the men on the firing line could not secure the papers. Every veteran of the Civil War will learn something new about the war itself from these reports. The interest in the war is far wider than that held by the veterans themselves, for most of their families, their friends and relatives and everyone, North or South, who has not had access to an impartial narrative like this, will be interested. The publication of the series has been begun in The New Orleans Item and will continue indefinitely.

Subscriptions to the daily including the Sunday paper are \$5c a month or \$7.00 a year. Once you have read one of these articles, you would not be without them, for they deal with events whose interest is more thrilling in general than are those of any period in the world's history.
