—To-morrow the Ladies of the town will give a Bazar and expect the town and parish people to turn out in full to give them the support they expect to make a success of their efforts. They will have a splendid restaurant at Duchamp's hall all the day where nice meals will be served for 50cts. There will also be cakes and all kinds of refreshments. Everything will be opened right after High Mass and all are invited at the ball. It is expected that every family in town will send away their cook on that day and take their dinner at the hall, provision has been made to feed all the town, and all are expected to be on hand. At night there will be Moving Pictures at the Opera House and Bienvenu Theatre, all for the benefit of the church repair fund.

Puts End To Bad Habit.

Things never look bright to one with "the blues." Ten to one the trouble is a sluggish liver, filling the system with bilious poison, that Dr. King's New Life Pills would expel. Try them. Let the joy be better feelings and "the blues." Best for stomach, liver and kidneys. 25c at all druggists.

Snow Drift Hydrated Building and Water-Proofing Lime

When You Buy Ordinary Lump Lime

There is 15 per cent air slack, which has absolutely no value in mortar, and therefore a loss to you. The contractors waste time and labor slacking and mixing it. He does not get a full 200 pounds to the barrel. Any part of a barrel not used, is usually wasted through air slacking.

WHEN YOU BUY SNOW DRIFT HYDRATED LIME

You save 25c per barrel in labor and make a mortar tully as strong as lump lime with 15 per cent cement added, because it is absolutely pure and has no air slacked lime in it.

You get it in powdered form, in 40lb. sacks, always ready for use by adding water and mixing.

You can use any part of a bag, and the balance will keep indefinitely for future use.

You save time and labor in preparing the mortar.
