

SATURDAY, Jan. 24, 1914.

The Banner said that they will soon announce the ticket that will oppose the present administration. We have some doubts that there are five men in this town that are so easy as to allow themselves to be driven to the slaughtering block, simply to please a few politicians, no we refuse to believe that we have some of our citizens so easy as to becoming victims of a cause they know is hopeless.

Not Well Enough Advertise.

We have better lands and at lower price, we are closer to the people who are seeking new homes, we have a better climate, better water, better health and more opportunities to make money and be happy, but we don't advertise it. As a result the people are going to sections that do advertise and our own rich resources are lying dormant and undeveloped simply for lack of people and money to develop them. We can only get people by going after them. Isn't it about time we started about it? —Meridian Dispatch.

—We have interviewed several planters this week regarding their seed cane, and as a rule, the seed is good with those who put their seed down at the proper time and under favorable condition. Those who put their seed down on too wet ground and covered with wet ground or allowed the cane exposed, have bad seed. We can consider as an average, the seed is fair.

—The present administration is unpopular with the best element said our confere the Banner. We would be thankful to the Banner if it would mention one single act of the present administration that could make it unpopular, if errors or mistakes were made, you did not protest or criticize them. But please mention only one of their failures if you cannot find more.
