A switch engine in the V. S. & P.
freight yards while switching some
box cars from one track to another
Wednesday evening was delayed
about thirty minutes by the rear
wheels of one of the cars jumping
the track. The cause of the accident
was on account of the ground having
filled in over the track. No damage
was done, however, and after the
rails had been cleared of the accumu-
lation of dirt, the car was easily got
on the track.

INTERESTING GAMES.

A Series of Games Between Shreveport
and Bunkie.

Base ball has been once more re-
vived in Shreveport, and those inter-
ested in that pastime are more en-
thusiastic than ever.

Beginning Wednesday evening and
continuing Thursday morning and
evening—a series of three games—the
home team and the visitors
crossed bats in a contest for honors
on the "Diamond Field."

The first game, with a score of
6 to 5, though hotly contested, for
Shreveport, but the second game was
won by Bunkie, in their eighth inninz,
by a score of 2 to 1. It was one of
the hardest and best games of base
ball ever played here, and defeat for
either club when the score is as close
as the first two games was, is almost
as creditable as victory, for when our
home team holds as good a nine as
Bunkie in check that well, or vice
versa, it speaks well for them—much
better than to win by a score of 1 to 5
or 10 to 20.

The third game, while fraught with
many errors and mishaps, was a good
one, though not quit as brilliant as
the preceding ones. It resulted in
a victory for Shreveport by a score of
5 to 2, and was contested to the bit-
ter end by the Bunkies.

Every one was satisfied with the
game, and, unlike a great many ball
games, no wrangling or harsh words
was indulged in by either side as to
points in question.

While the visitors were somewhat
cut by their defeat, nothing but good
will and unalloyed friendship was ex-
pressed by them as to the treatment
received by the home team. A nicer
crowd of young men never before
indulged in the sport here.

Mr. Pete Youree, who has been on
a business trip to Galveston, returned
to the city yesterday.

A TOUGH NEGRO.

Hack Driver and Would-Be Murderer
Albert Howard.

Tuesday morning about 10 o'clock
one Albert Howard, a colored hack
driver, with a deadly weapon, as-
saulted one Henry Clark, a colored
boy, inflicting a serious though not
fatal wound in the arm, about four
inches below the shoulder. The
shooting occurred in the alley behind
the El Dorado saloon, where the boy
was employed. There were only two
witnesses, one being Mr. J. N. Rand-
ner and the other being the attacked
party's wife. Howard had caused
some estrangement between Clark
and his wife, resulting in a separa-
tion; in fact, several separations. A
most bitter enmity has existed be-
tween the two men ever since, and
the final result was Tuesday's shoot-
ing. Howard, in company with
Clark's wife, went to Clark's place of
business, and calling him out, after a
very few words, opened fire on him.
After two shots, Howard beat a re-
treat out toward Mugginsville, closely
pursued by Officer Irving, but was
not captured, and the last heard of
was headed for the country south of
the city.

The woman has been arrested and
a warrant has been issued for How-
ard.

FRIGHTFUL ACCIDENT.

Two Ladies in a Buggy Narrowly Escape
Death by a Collision.

Last Tuesday morning about 9:30
o'clock an accident occurred at the
corner of Milam and Market streets,
which, but for the timely assistance
of two or three citizens, would un-
doubtedly have resulted in the death
or serious injury of two ladies, Mrs.
W. S. Forrey and her guest, Mrs. H.
C. Grandmont.

The two ladies were driving past
the corner, when two mules belong-
ing to Mr. VanHoose's sprinkler
wagon were seen to be circling around
them, and the driver of the sprinkler
endeavoring to drive them into the
blacksmith shop located near the cor-
ner. Mrs. Forrey, who was driving the
buggy, stopped to allow the mules
to pass, when one of them ran into
the rear end of the vehicle in which
the ladies were, demolishing the hind
wheel and overturning both the
buggy and horse, and throwing both
ladies to the ground, almost directly
under the buggy. Fortunately some
passers by ran to the rescue before
the horse could regain his footing,
for, being so thoroughly frightened
was he that it required several men
to hold him until the ladies could be
removed from their dangerous posi-
tion.

The mules had been driven into
the blacksmith shop to be shod, and
in some manner had gotten loose,
and it was while in an endeavor to
once more get them into the shop
that the accident occurred.

Luckily the injury done to the
ladies was not of a serious nature,
Mrs. Forrey having on one side of
her face a slight cut, and one of her
wrists sprained. Mrs. Grandmont,
more fortunate than her companion,
was not hurt at all, with the excep-
tion of having her hands scratched
and clothing badly soiled by the
newly sprinkled street.

In this instance it was by the as-
sistance of passers by, and that alone,
that one or both the ladies escaped
either being mangled by a runaway
horse or, as the first endeavors of the
steed were to go backward, being
trampled upon and crippled for life.

The practice of driving stock
through the business portion of the
city, with no other means of guid-
ance save to run ahead and turn them
is a bad one, and a stop should be
put to it. If Tuesday's accident
had occurred fifty feet further away
from the gentlemen who went to the
rescue of the ladies, the result would
no doubt have terminated as men-
tioned above. But will such assist-
ance be so convenient should an-
other accident of a like nature occur?

SECOND ANNUAL MEETING.

Beginning Tuesday next the Rod
and Gun club will hold their second
annual shoot, lasting two days. A
large crowd is anticipated, and in an-
ticipation of the coming event our
home team is practicing and getting
everything in shape for the shoot.
Every provision has been made for
the comfort and convenience of the
large crowd which is expected to be
in attendance. The premiums to be
awarded by the club on this occasion
will amount to \$250, which will be
added to by private purses and pre-
miums from our merchants.

The club has been receiving for
some time past both clay and live
pigeons, and will be amply supplied
with those articles.

ASKED FOR BIDS.

The board of levee commissioners
of the parish of Bossier met at the
Board of Trade rooms last Wednes-
day.

After considerable discussion and
several plans and methods had been
presented for consideration, a com-
mittee was appointed to draw up
plans and specifications of the work
to be done, and to solicit bids for
same. The bids will be opened and
passed upon at a meeting of the
commissioners at the Board of Trade
rooms to be held on September 3.

CADDO'S LEVEE BOARD.

A meeting of Caddo parish's levee
board, consisting of Messrs. W. J.
Crowder, W. L. Dickson, J. M. Rob-
inson, J. R. Moss, J. L. Gale, W. A.
Martin and John Glassell, was held
in the Board of Trade rooms in this
city on Tuesday last. A committee
consisting of Messrs. Robinson, Moss
and Dickson, was appointed to draft
suitable by-laws, rules and regula-
tions. Pending the report of the
committee, the board adjourned until
2 o'clock p.m. Wednesday.

Accordingly at 2 p.m. Wednesday
the board met pursuant to order,
with Mr. Crowder in the chair.

Assistant State Engineer Kerr, who
was present, was invited to take a
seat in the meeting.

Upon the committee reporting
their work, the same was adopted
and ordered printed.

Capt. Kerr was then called upon to
give his views of the condition of the
levees, and to suggest anything
which in his opinion would be neces-
sary toward improving same, after
which the following named commit-
tees were appointed:

Executive—J. R. Moss, W. L.
Dickson; W. J. Crowder, chairman
and ex-officio member.

Finance—Robinson, Moss, Dick-
son.

Mr. S. N. Kerley was elected secre-
tary.

The meeting then adjourned, sub-
ject to call of the president.

THE COMING FAIR.

As the time draws near for the
opening of the State Fair and
Shreveport Exposition, enthusiasm is
growing daily, and at the present
writing there is no doubt whatever
but that the Fair will be a successful
one—both financial and otherwise.
Daily Secretary Horan is being
pressed with inquiries concerning
the coming event, and taken all in
all, from the interest evinced by par-
ties residing in the country adjacent
to Shreveport and Caddo, there will
be in attendance a much larger crowd
than ever before.

SOME LOCAL DOTS

From Plain Dealing, Cartersville and
Vicinity.

CARTERSVILLE—This little town is
about like all other little country
towns in the summer time—not much
business going on—but the people
are very lively; they will have their
fun.

The Carter Brothers are doing a
good business this summer in the
way of sawing.

Prof. M. A. Love, of Alabama, has
been teaching a literary school in
Cartersville ever since the 1st of Janu-
ary last. His school will close the
2d of September next.

Rev. J. S. Sanders, pastor of North
Bossier circuit, will begin a protract-
ed meeting at Cartersville next Sun-
day, August 21, at 11 o'clock a.m.
Everybody is invited to come and
bring dinner.

PLAIN DEALING—This place is filled
with singing school pupils (I for
one), and we are having a nice time
indeed. Prof. E. T. Hilderbrand, of
Daton, Va., is our teacher. This is
his second normal music school at
Plain Dealing.

Some last year's cotton was sold
here this week.

Crops around in this neighborhood
are very good. Cotton, as a general
thing, is better than corn. There
will be lots of syrup made here this
year; nearly everybody has a cane
patch.

We are having lots of rain—too
much for our good. BOSSIER BOY.
