HENRY HOLZNER, Proprietor.

New York Life Insurance Company.

The New York Life Insurance Company, is the oldest International Life Insurance Company in the world, and is endorsed annually by eighty-two separate and different governments throughout the civilized world.

In a recent contest, of twelve weeks duration, among the field men of the New York Life, there was placed on the books---of paid for business---66,000,000 of insurance. The Company has about 5,000 agents, who participated in this contest, and among the successful contestants were two of our fellow-townsmen, Messrs. Wm. Winter and W. H. Williams who ranked fifth in the amount of business that was written and paid for, which is certainly a fitting reward for their untiring energy and never failing labors for their company.

Messrs. Winter & Williams are the general agents, and have been representing this favored company for the past five years, and by their constant and incessant "push," have made the New York Life a household name with the general public, and the result is, that, the insured in this immediate section are now carrying the bulk of their insurance with the New York Life Insurance company; all due to the fact that its contracts are the most liberal of all life insurance companies, which is especially noticeable from the fact that the insuring public have given to this company \$143,000,000 of paid for business in the first nine months of this year, which demonstrates its popularity and the confidence reposed in its management, after a trial of fifty-four years.

The New York Life Insurance Company is composed of over 300,000 policy holders, who are the company, who own the company, who alone receive the profits of the company.

To those who contemplate insuring we cannot too strongly urge upon them to first talk with Winter & Williams ere placing their insurance. And to the young men who wish to embark in this line of business, we say, see and make your arrangements with

Winter and Williams.

The W. K. Henderson Iron Works.

Builders of

Saw Mill Machinery

CARRY IN STOCK

Saw - Mills, - Engines, - Boilers

And a Full Line of Mill Supplies.

We have the most complete plant in the South, and will be glad to name you prices on anything that you may need.
