

"Necessity is the Mother of Invention."

It was the necessity for an honest, reliable blood purifier and tonic that brought into existence Hood's Sarsaparilla. It is a highly concentrated extract prepared by a combination, proportion and process peculiar to itself and giving to Hood's Sarsaparilla unequalled curative power. Its wonderful record of cures has made it America's Greatest Medicine.

Rosy Cheeks — "I have good health and rosy cheeks, thanks to Hood's Sarsaparilla. It builds me up and saves doctor bills." Mary A. Burke, East Clair St., Indianapolis, Ind.

PLANTERS' CONVENTION.

Will Be Held in Shreveport, December 18, 1900.

In accordance with a resolution passed at the last meeting of the Producers' League of the parish of Red River, the planters of North Louisiana are called to meet at Shreveport on December 18, to consider the planting conditions existing; and to try to better the conditions we may be called upon to face in the near future. All planters are expected to lend their assistance. It is supposed that no pledges will be exacted, but as our mutual interests are so closely allied we will agree to agree. We have to consider the labor question, the cotton seed question, the car load question, and if I have any voice, the "Hay Seed" (?) question, which includes them all. Come one, come all, and get your neighbors to come.

All papers in North Louisiana friendly to the planting interests are requested to notice this call free of charge.
