### A Warm Reception

A Mormon elder was given a warm reception and taught a lesson by the wife of a Benton country farmer. The preacher stopped at the farmhouse and the next morning announced to the lady that Jesus Christ had appeared unto him and commanded him to take her unto himself as a wife. The lady was dumfounded for an instant, and then replied that the Lord had appeared unto her and commanded her to take a chair and beat him to death with it, and it is said that she came near keeping the command, too.—New Iberia Enterprise.

### TELEPHONE AMENITY.

**A Few Suggestions Offered in the Interest of All Concerned.**  
The telephone is an instrument through which the everlasting joys of the hereafter or the perdition forever, may be accelerated to a wonderful degree.  
Be patient!  
Approach the instrument gently  
Do not ring, ring, ring, as if the house was on fire and you desired to summon the fire department, barking clearly.  
Do not grab the handle of the transmitter as if it was about to get away from you.  
Seize it, as if it were a sixteen or eighteen-year-old blushing sugar-lump, upon whom you propose to concentrate your best efforts.  
Do not try to talk while chewing gum, or tobacco, or holding a cigarette between your teeth.  
Do not talk in a tone of voice which would indicate that all the world is deaf and dumb but you.  
The essential, the absolute, (in a singular tense) is the Angel at the Central (all angels), don't forget this! Now, do not suppose that the angel who is the intermediary between you and the person to whom you would speak will not appreciate kindness and generous words. And, do not forget that, unless you are kind and considerate, some day (when you will wish to engage in a sweet little conversation with your best girl, she knows your voice—hang in will make you feel joyful with the answer to your ring "they're talking").  
Now, be good; do not say (and if you are pious) unkind naughty words. Do "like us" for instance. We propose to communicate with the sheriff's office instant and we ring:  
Clunk, clunk, ring, ring and ding!  
Central: "Number."  
Caucasian: "562, please."  
Connection made.  
Sheriff's Office: "562, Sheriff's office hello!"  
Caucasian: "322—Smith at the phone would speak to Brown."  
Sheriff's Office: "I am Brown what is your pleasure?"  
Here Smith and Brown are immediately placed in connection, they are introduced, as it were in an instant, and feel free to speak on the matter they would consider and for which Smith has called Brown.  
A moment's reflection will impress this fact on the intelligent mind that it is essential that each person at each end of the telephone should be made acquainted with each other before they may engage in a talk over business or any matter whatsoever. [These rules are not confined to men exclusively.]  
If you want to have soft velvety skin, free from roughness and redness, always use Toilet Cream "412" on soap. (Your hands.) Allen's Pharmacy. The place where it's made.

### WEATHER BULLETIN.

Real Winter, With Snow and Ice, Forecasted.

(Copyright, 1900, by W. T. Foster.)  
St. Joseph, Mo., January 26.—Last bulletin gave forecasts of storm wave to cross continent about 19 to 23, warm wave 27 to 31, warm wave 26 to 30, cool wave 27 to February 1.  
Storm wave will reach Pacific coast about 30, cross west of Rockies by close of 31, great central valleys February 1 to 3 Eastern states 4.  
Warm wave will cross west of Rockies about 30, great central valleys, February 1, Eastern States, 3. Cool wave will cross west of Rockies about February 2, great central valleys 4, Eastern States 5.  
Temperature of February will average below normal. Highest temperatures will be near 1 and 13 on meridian 50 as the warm waves move eastward across the continent.  
Real winter may be expected from 9 to 17 on meridian 50 as the low temperature wave moves eastward across the continent.  
A great fall in temperature will occur from February 1 to 10 and a great rise from 10 to 25.  
Most rain and snow will fall during first half of the month; last half will be quiet.  
Indications are that New England States Pacific slope, New York, Pennsylvania and vicinity of St. Louis will have an excess of rain in February. Elsewhere rainfall will be below normal.  
Dry weather and no frosts in extreme South will have February quite favorable to truck gardening and for preparing the soil for the planting and sowing of other crops.

### Anti-Toll Bridge.

A number of gentlemen anti-toll bridge men—held a conference yesterday, at which was considered the question of collecting tolls for crossing the railroad bridge. By a special act of the Legislature, an election may be ordered, at which may be determined whether the bridge shall be free, or be for revenue or for sufficient tolls for the maintenance of the bridge. The Caucasian has a record; it was for free ferries and free bridges when it stood almost alone and was ridiculed, and it stands today as it did years ago for free ferries and free bridges. Why should tolls be exacted from any man who would cross over the bridge to come to Shreveport and trade?
