Savings Deposits.

SHREVEPORT TRUST CO., CORNER OF
MORGAN AND TEXAS STREETS,
SHREVEPORT, LA.

Savings deposits of the bank is
its deservedly popular feature.
At the rate of three per cent
interest is allowed on all sums of
money and upwards remaining on
deposit three or more calendar

months during the first three
months interest is allowed
on deposits as if deposited on the
first of the month. Interest on all
money withdrawn will be payable on
the first of February and August,
and not then withdrawn is
the principal thereby giving
the depositor compound interest.
Interest may be made by marriage
or minors, in their own
names, and are given depositors to
draw on at any time.
Money made for a longer period
than six months draw a higher rate
of interest on savings deposits.

Every merchant insists that
his goods should present a neat appearance be-
cause it represents his store and his
reputation. That his stationery pre-
sents a neat appearance because it repre-
sents his business. If we print it you will
have one thousand.

FIFTEEN ARE DEAD

More Than a Score of Others Sus-
tain Injuries.

DWELLINGS RUINED.

Wind, Hail and Rain Do Considerable
Amount of Damage, Reaching
to About One Hundred
Thousand Dollars.

Hastings, Neb., May 27.—Fifteen per-
sons dead, more than a score injured,
a hundred houses, barns and small
buildings wrecked and losses of \$100,-
000 are reported as the known work of
a series of winds, hail and rainstorms,
two of which were tornadoes, that
passed over Clay, Franklin and Kearney
counties Sunday night.

Most of the damage was caused in
rural regions, and reports of casualties
and damage were late in coming in.
As far as reported the casualties are
as follows:

Near Norman, Neb.—Dead: Daniel
McCurry, Robert McCurry, Mrs. John
Wehler, Mrs. Art Bacon, Mrs. C. A.
Tippie.
Near Upland.—Dead: Lutheran min-
ister, name unknown; Mrs. John Pe-
ters, Mrs. Chris La hers and mother.
At Pauline.—Dead: Mrs. James Muma
and child, James Muma, Frank Creigh,
Flora Palmer, John Palmer.

Near Normal, at the home of Daniel
Curry, a number of relatives and
friends were spending the day, and not
an inmate escaped death or injury.
Two miles south of Upland German
Lutheran services were being held in
a schoolhouse when the storm struck
and demolished it, killing four of the
occupants, including the minister, and
injuring a number of others.

UNDER WATER.

Fully Five Hundred Houses Said to Be in
This Condition.

Oklahoma City, Okla., May 27.—On
Monday morning it was estimated that
fully 200 houses along the bottom of the
Canadian river in this vicinity are
under water. Some of them have been
washed away. In the western part
of the city fifty houses are in three
feet of water, while in the business dis-
trict threshing machine engines have
been pressed into service in order to
pump water from basements.

A train was run out of this city on
the Frisco to a point near the Choctaw,
where the passengers were transferred
and brought here after having run
through a mile of water.

Within the history of Oklahoma the
rivers and streams have not assumed
the dangerous stage that exists at
present. From all portions of the ter-
ritory come reports of disaster from
rain and flood.

NOTED DOCTOR DEAD.

Took His Life at Paris During Temporary
Aberration of the Mind.

New York, May 27.—Dr. E. Charles
Wendt of this city shot and killed him-
self at his apartments in Paris
during a temporary aberration of the
mind. Dr. Wendt practiced medicine
in New York until seven years ago,
when he married. He was an authority
on sanitation, and after his marriage
he devoted nearly all of his time
to studying the methods of sanitation
in Europe, more especially in southern
Italy. On this subject he wrote many
papers. He was also associated with
Dr. F. G. Shady as an editor of the
Medical Review. After going to Eu-
rope Dr. Wendt continued to contrib-
ute valuable papers to medical publica-
tions in this country.

NEGRO RIDDLED.

He Criminally Assaults a Lady and Posses
Shot Him to Pieces.

Kemp, Tex., May 27.—An unknown
negro, who criminally assaulted Mrs.
Chitworth, a white woman, seven miles
north of here, was shot to death by the
posse while he was attempting to es-
cape.
Mrs. Whitworth is in a critical con-
dition as a result of the assault.
The negro is said to have been shot
to pieces by his pursuers, who came
upon him about a mile north of this
place.

Operated on Several Patients.

Dallas, May 27.—Dr. Lorenz operated
upon a number of little patients Mon-
day. A number of physicians were
present. He was tendered a reception
at the Elks' club Monday night, where
nearly 500 children offered him a
nearly 500 ladies met him.

In Terrible Condition.

Chickasha, I. T., May 27.—The coun-
try surrounding Chickasha is in a ter-
rible condition, and it will be several
days before passenger traffic can be re-
sumed over any of the lines. On the
Mangum branch six bridges, two of
them iron, are washed out between
Anadarko and Mangum. In Anadarko
the Washita river has overflowed its
banks.

Livestock Board Meets.

Fort Worth, May 27.—An important
executive session was held Monday by
the Texas livestock sanitary board.
While no information was given out,
it is stated that the appropriation for
carrying on the work is exhausted and
Governor Lanham will be at once notifi-
ed.

It costs no more to have good station-
ery for your business than the poor kind.
The good kind is the kind we do.

A STAG PARTY.

A Delightful Entertainment by Sand
Beech Camp.

Friday night Sand Beech Camp en-
tertained at their Forest a large number
of Choppers. It was a social gathering
of Woodmen of Shreveport and others
visiting. It was a sociable affair in
which the best feeling prevailed. There
were talks by several of the craft who
spoke eloquently and well. The spread
comprised a variety of eatables and re-
freshment from which was excluded the
ardent spirit. These eatables and re-
freshments were complimentary from
friends of this camp and were appre-
ciated. Indeed this camp evinced in
soulful words their kindly regards for
such courtesy. The stag party is a nov-
elty but it was successful in cordiality
and sociability and reinforced the link
of fraternity which binds all good and
true Woodmen to duty.

McCALL'S MAGAZINE.

The June number of McCall's Maga-
zine is a beauty in all its artistic fea-
tures and is filled with selections inter-
esting and valuable, which must afford
pleasure to its readers. McCall's Maga-
zine is up-to-date in its fashion illu-
strations and notes and is one of the best
and there is about it an originality that
is refreshing. It is deservedly popular
and should find a ready welcome in
every home.

WEATHER BULLETIN.

The Warm, the Cool and the Storm
Waves Forecasted.

(Copyrighted 1903 by W. T. Foster.)
Washington, May 23.—Last bulletin
gave forecasts of disturbance to cross
the continent May 24 to 28, warm wave
23 to 27, cool wave 26 to 30.

Next disturbance will reach Pacific
coast about May 28, cross west of the
Rockies by close of 29, great central
valleys 30 to June 1, eastern states
June 2.

Warm wave will cross west of the

Rockies about May 28, great central
valleys 30, eastern states June 1, cool
wave will cross west of Rockies about
May 31, great central valleys June 2,
eastern states 4.

This disturbance will belong to a high
temperature period, it will be followed
by a ten days low temperature period,
will bring general but not heavy show-
ers and altogether will be favorable to
growing crops.

About date of this bulletin we will
be in a long decline of temperature that
will reach its low point on meridian go
not far from 28 and by that time gen-
eral showers will have fallen.

Temperature of the week ending June
1 will average below normal, rainfall
about normal; too cool for corn, but
more favorable corn weather will fol-
low.

The Denton (Tex.) Record of re-
ports editorially says: "Foster's weath-
er forecasts, published exclusively in
Denton county by the Record and
Chronicle, is one of the most valuable
features of the paper. His forecasts are
unusually accurate, as has been noted
by those who have kept up with them,
and last week his long range forecast,
made fifteen or twenty days before,
beat the government weather bureau
bulletins sent out twenty-four hours in
advance, badly."

Next bulletin will give general fore-
casts for June and will be of special
interest because that is one of the prin-
cipal crop making months.
