CHIC STYLES.

A Practical and Modish Blouse For Summer—Lingerie Newness.
A smart waist of black large meshed cable net, made over white dotted net, has a shallow yoke of Irish crochet.
A stamped nightdress of fine main-book ready for embroidering is in a dainty pattern. The sleeves are short and the neck cut in Dutch round style. The stamped design is on the breast and edges of the sleeves, with additional markings at the waist depth. In the front are slits to be buttonholed and then threaded with ribbon. The price is 85 cents.
Shirred costumes are very good style this season. The model illustrated

gives a princess effect, yet is made with separate blouse and skirt joined at the waist line. One of the pretty French foulards is the material used.
JUDIC CHOLLET.

These May Manton patterns are cut in sizes for the blouse from 22 to 40 inches bust measure and for the skirt from 22 to 30 inches waist measure. Send 10 cents each for them to this office, giving numbers—blouse 6986 and skirt 6989—and they will be promptly forwarded to you by mail. If in haste send an additional two cent stamp for letter postage, which insures more prompt delivery.

NOTES BY THE WAY.

To Make an Old Waist Up to Date. The Princess Lace Veil.
Convenient aids for the freshening up of a blouse of net or soft silk are the jumpers of chiffons elaborately embroidered with soutache that come in all the modish shades.
White princess lace veils are worn with tallored hats. They are draped over the crown so that two long ends hang below the shoulders in the back.
A new linen collar made to wear with tallored ties is finished with a narrow hem and white cord.
Jacquard silk, a popular summer material, comes in all shades and is offered at 25 cents. Mousselines are selling at 35 cents.
One thing there is to the credit of the present style—one may have a comfortable gown for the street and not be compelled to wear a wrap with it for convention's sake. The street gown is one of the strong features of

SKIRT WITH TUNIO EFFECT.

the mode, and it differs little from the gown made for the house.
The plaited skirt has come back to vogue again, and in the jupe pictured one will find a practical skirt for wash materials, as it is straight and will not stretch and pull in an unseemly fashion. The lower tuck gives somewhat the appearance of a ruche.
JUDIC CHOLLET.

This May Manton pattern is cut in sizes for a 22 to 30 inch waist measure. Send 10 cents to this office, giving number, 6935, and it will be promptly forwarded to you by mail. If in haste send an additional two cent stamp for postage, which insures more prompt delivery.

FLOTSAM AND JETSAM.

A Stunning Costume For the Golf Girl. Traveling Bags.
A golf costume consisting of knitted skirt and coat is new. The smartest are in white with bands of chanticleer red on the skirt and the same bright red note repeated on the collar and cuffs. Gilt buttons in chanticleer design appear on the lapels of the coat.
The English hold-all is taking the place this year of the steamer trunk. It is being bought for general traveling also. It is a commodious article fashioned from plaid mackintosh in attractive coloring.
One of the pretty silk and cotton materials is illusion silk that comes in all

colors for street and evening wear at remarkably low prices.
The younger girls are wearing a great many dresses that show the favorite drawn in skirt effect, and this one includes the novelty in a graceful form. Any of the soft wash materials may be used with trimming of embroidery or lace.
JUDIC CHOLLET.

This May Manton pattern is cut for girls of eight, ten and twelve years of age. Send 10 cents to this office, giving number, 6982, and it will be promptly forwarded to you by mail. If in haste send an additional two cent stamp for letter postage, which insures more prompt delivery.

FASHIONS ON THE WING.

Complexion Veils to Hide Summer Tan—Revival of Pique.
Complexion veils with an underneath of white tulle are becoming fashionable.
The newest auto veils are luxurious accessories. They are very large, but so soft that an entire veil may be crushed in the palm of the hand. The changeable or shot effects are much favored. These veils are hemmed on all sides with chiffon cloth in a solid color to match a tone in the veil.
Pique makes some very charming dresses this summer. In a collection of Paris models was seen a frock of buff pique in soft finish, trimmed with broad strappings of the material elab-

orately braided with narrow soutache. The girl's dress that is simple, yet trimmed so as to give a dainty effect, is sure to be liked, and this model consists of a plain blouse and skirt with banding applied on indicated lines.
JUDIC CHOLLET.

This May Manton pattern is cut for children two, four and six years of age. Send 10 cents to this office, giving number, 6978, and it will be promptly forwarded to you by mail. If in haste send an additional two cent stamp for letter postage, which insures more prompt delivery.

FADS AND FANCIES.

Fascinating Hat For the Small Girl. Velvet Dog Collars Modish.
For the small girl there is a fluffy hat in mob cap style with a crown of embroidered batiste done in hand embroidery eyelets. The frill is of wide valenciennes lace, made very full.

THE AEROPLANE BLOUSE.

Pink ribbon is drawn very softly around the crown and finished at the side with one large open pink rose and ribbon ends.

There is a return to style of velvet dog collars. The most commonplace and yet the most brilliant ones are of rhinestones in bars of fleur-de-lis and marguerites.
All parasol sticks and handles are long, showing the director's influence. In colored handles the artists do not try to keep close to nature, but merely aim to achieve charming effects.

The overblouse that is cut with the back portion to form a belt is what is known as the aeroplane style. It requires but little time to make a blouse of this kind, and it is very smart made of transparent material over a fancy blouse.
JUDIC CHOLLET.

This May Manton pattern is cut in sizes from 22 to 40 inches bust measure. Send 10 cents to this office, giving number, 6991, and it will be promptly forwarded to you by mail. If in haste send an additional two cent stamp for letter postage, which insures more prompt delivery.

VOGUE POINTS.

Ball Fringe the Smart Trimming For Chiffon Blouses.

A tiny ball fringe to match makes a pretty finish for a blouse of white or cream made of plain chiffon or crape velled with coarse net.
Solid mesh in the gold and silver bags is newer than the openwork pat-

tern. And when these hand bags are lined with a dainty colored silk the effect is charming.

Linen braided with soutache, rattail cord or coronation braid is always handsome and in the height of fashion. This gown is in buff colored linen, while the braid is white. A pretty effect can be obtained by making collar and cuffs of white on color, or if the design represents too much work the model is good perfectly plain.
JUDIC CHOLLET.

These May Manton patterns are cut in sizes for the waist from 22 to 40 inches, bust measure and for the skirt from 22 to 34 inches waist measure. Send 10 cents each for the patterns to this office, giving numbers—waist 6979, skirt 6983, and braiding design in one size only, 6990—and they will be promptly forwarded to you by mail. If in haste send an additional two cent stamp for letter postage, which insures more prompt delivery.

A ROAD LAW

Proposed by an Enactment of the Legislature.

There is pending in the Legislature a bill providing the construction of good roads throughout the State, the main features of which, as explained in the Homer Guardian Journal, are: "One-fourth of a mill tax to be levied all over the State which is to compose en masse a common road fund. The parish sites are to be joined or connected by a model highway. The construction and administration of the highway and the funds are under engineers and commissioners to be appointed.

"Now, the above are some of the main points of the bill as we understand it. It seems to us that it would be very difficult to manage an affair of this kind so as to be just to every parish. The requirement and conditions existing in the various parishes differ widely. For example, Claiborne has fairly good roads now constructed by her Police Jury, and at less cost than one-fourth of a mill. There are other parishes that still adhere to the old time method and have practically impassable roads. Then, too, it would almost from necessity become an intricate political affair, in which the public good would be lost sight of. We are of the opinion that our police juries can and will give us better roads at less cost and more satisfaction than the method suggested and provided for in the bill."

Good roads are necessary, but the scheme as outlined would be unsatisfactory and would probably develop into stupendous grafting. There are now too many "State commissions" through which political favorites are recognized and rewarded for services rendered. The bill should be defeated. The State should not be permitted to meddle with the function of the police jury of each parish. The whole scheme is without merit, except to provide occupations and emoluments for political "dead ducks."

HARMON OF OHIO.

Judson Harmon has been renominated for the office of Governor of Ohio. He is the candidate of the Democracy of that State and is being groomed for the presidency. In the convention the proposition to endorse a candidate for the United States Senate was hooted down, and at the same time there was an attempt to discredit William Jennings Bryan, who favors the nomination of United States senators by primary election. It has been charged that Bryan has been trying to dictate to this convention, which is not true. The fact is that Harmon is a straddler and will, if he can, evade an issue. As other men, Harmon may not be entirely free from what is called the influence of the system, which dominates the Republicans and the Democrats alike. Harmon, as a Democratic possibility for President of the United States, may be pleasing to his personal friends and to his followers in Ohio, but he is not impressing the great body of the Democracy, who admire and respect Bryan. The kind of a man the people want for president is one who is free from all political entanglements and connections with the system. Harmon is not the man wanted by the people.

A CONTRAST.

Alexandria proposes to borrow \$15,000 to pay current expenses until October 1911. Some day all of us will have to pull up—Shreveport Journal.

Alexandria is a wide open town with saloons and booze obtainable anywhere and everywhere on demand for the price.

If saloons and booze are helpful to a town; if booze and saloons "make business," then Alexandria should ever be booming and, in a figurative sense, should have money to throw at birds.

Such is Alexandria.
Shreveport is not a wide open town. It has no license revenue from the saloon. Saloons and booze do not flourish, although it is possible to obtain booze for the price, but the booze selling is limited to a risk of a jail sentence or servitude on the roads. Instead of having to borrow money as Alexandria to pay current expenses, Shreveport's taxable rate is to be reduced; the Shreveport banks are full of money; new buildings are in evidence everywhere; the city has contracted for the pavement of miles of its streets; prosperity is in evidence, and the old town is doing fairly well, and is not going to shiel, with prohibition, as was predicted.
So much for prohibition and push and such is Shreveport.

AN INFAMY.

The proposed law to authorize an illiterate voter to request any person to go into the booth with him and mark his ticket for him, is probably intended to enable the political heeler and grafter to see that the goods are delivered when he buys a vote. The title of the bill should be "to facilitate the buying and selling of votes."—Mansfield Enterprise.

The Caucasian has already denounced this infamy in vigorous words, and it has scanned closely the columns of the State press in the hope of noting some expressions of protest, but in vain. The Mansfield Enterprise, at least to our observation, is the only newspaper which has alluded to this vicious bill, and

should it become operative, there will be revived the debauchery of the electorate which finally led to the enactment of the primary election law, but which has been tampered with, more or less, at every session of the Legislature. This infamy should be defeated, as should be every representative in the General Assembly who would sustain it, who may be a candidate for any office in the gift of the people.
