## FOSTER'S BULLETIN

FORECAST OF STORMS TO CROSS THE CONTINENT

### THE NEXT DISTURBANCE

Frosty Temperatures and Following This Cold Wave the Trend Will Be Decidedly Upwards with Spring Crop Weather Coming in Early.

(Copyrighted 1913 by W. T. Foster)

Washington, D. C., Feb. 22.—Last bulletin gave forecasts of disturbance to cross the continent Feb. 25 to March 1, warm wave 24 to 28, cool wave 27 to March 3. Unusually cold weather will precede this disturbance and the warm wave will not go very high, although making the temperatures average below normal. Not much precipitation, most of which will precede the warm wave. The cold wave preceding this disturbance will be the low point of temperatures for February and the trend of temperatures following will be decidedly upward, with spring crop weather coming early. Again we warn all to be on the lookout for dangerous storms from Feb. 20 to 28. These storms are expected to be somewhat similar to those that occurred early in January, but not so radical and probably not in the same places.

Next disturbance will reach Pacific coast about March 3, cross Pacific slope by close of 4, great central valleys 5 to 7, eastern sections 8. Warm wave will cross Pacific slope about March 3, great central valleys 5, eastern sections 7. Cool wave will cross Pacific slope about March 6, great central valleys 8, eastern sections 10.

This disturbance will be of greater force than usual but dangerous storms are not expected to accompany it. Precipitation will be less than usual. Some snow flurries in northern sections east of Rockies but no wave of general precipitation is expected to cross the continent.

At the time of the dangerous storms that are expected to continue till after Feb. 28 some very heavy rains may be expected east of the Rockies, but they will not cover much territory and will be of the cloudburst variety.

The cold wave to cross the continent March 7 to 11 will be severe and will cause a great fall in temperatures on most parts of the continent. As this cold wave crosses the Pacific slope some heavy precipitation north of San Francisco is expected and some heavy snows in British Columbia.

March will bring some dangerous storms and we expect them from 18 to 28. It will pay to prepare for these severe storms twenty times rather than get caught in one of them. We will not often miss their dates and hope soon to be able to give their locations. We particularly request all to note the time given for these dangerous March storms.

March and April are expected to be unusually warm months and therefore not require so much feed for livestock. This may cause a drop in prices of grain and it may be good policy for those who are not prepared to feed their grain to stock and who can not hold till the 1913 crops show what they will produce, to sell and avoid a possible loss. Three months ago oats were selling at Chicago around 30c and corn around 49c. We then advised farmers not to sell and thousands have made money by holding, as oats and corn are now about 5c higher at Chicago. We feel it a duty to now withdraw our advice to farmers not to sell, as there is now considerable doubt about prices going higher between this and the first of May.

### The Bulgar-Turkish War.

The latest advices as have been reported from London are that a three days battle was fought between 100,000 Bulgarians and 70,000 Turks, ending on Friday. The battle was one of the fiercest of the war. Each side sustained great losses in dead and wounded.

The situation about Adrianople remains unchanged.

The Servians have brought with them heavy artillery to assist the Montenegrins in an assault on Scutari.

### The Grand Jury.

The Grand Jury has been called to convene on Friday next. The call suggests special cases for consideration.

## A COLLISION

On the V. S. & P. Railway Friday Evening at Ford's Switch Between Gibsland and Arcadia—Many Injured.

Friday afternoon a collision occurred at curve at Ford's Switch on the V. S. & P. railway between Gibsland and Arcadia, between the regular east-bound passenger train and the west-bound local train.

The cause of the collision has not been determined, and may not be settled until after an official inquiry, as the crew of each train claim they are blameless. As far as could be ascertained the collision is due to a misunderstanding of orders. There were no fatalities, but several of the injured are in a more or less precarious condition.

The company on being advised of the collision contributed their best efforts to the relief of the injured.

Superintendent Hearn gave his personal attention to the care of the injured. The list of the injured is as follows:

John H. Mulden, Shreveport, engineer of train No. 5, leg broken at hip and very bad shock. Serious.

W. A. Courcal, engineer of train No. 2, slightly hurt.

Mrs. P. G. Maxwell, El Dorado, Ark., back badly hurt, lip lacerated; finger mashed.

J. A. Richardson, Homer, rib broken.

J. B. Holston, Gibsland, badly cut and bruised.

J. A. Robinson, roadmaster for V. S. & P., left shoulder and arm broken; very serious.

Mary McDonald, back sprained.

Jones Johnson, passenger, shoulder broken.

L. A. Dawson, head cut.

J. E. Reynolds, Arcadia, cut and bruises; very slight.

Jim Russon, waiter in dining car, back broken; serious.

George J. King, Louisville, Ky., back and side hurt; rib broken; serious.

H. A. Chapman, 230 Stoner avenue, Shreveport, head cut; slight.

S. I. Dunson, Forest Park, Ga., cut on head, slight.

R. S. Danforth, news agent, arm hurt, not serious.

Frank D. Sanders, conductor, arm and head cut; very painful.

E. W. Stewart, passenger, finger cut, slight.

Fireman Albert Turner, badly but not seriously hurt.

H. L. Madlin, passenger, shoulder hurt.

G. A. Dyer, Bivens, Texas, back hurt.

F. H. Hodges, New Orleans; knee hurt.

H. G. Clark, Pittsburg, Pa., legs and hand cut.

E. A. Walker, Hattiesburg, Miss., knee cut.

W. R. Williams, Shreveport, back hurt.

D. T. Nethery, Shreveport, flagman, head and arm hurt.

E. Berkley, Monroe, conductor, legs skinned slightly.

Frank Seger, Shreveport, leg hurt, body bruised, not serious.

J. J. Taylor, Haughton, bruised on left hip, not serious.

Edward O'Grady, St. Louis, legs bruised; not serious.

## WHAT HE HAS DONE.

Jacob A. Riis Will Lecture in the Opera House Tomorrow Night.

Tomorrow night, Monday, February 24, Jacob A. Riis will deliver one of his famed lectures for the benefit of the Y. M. C. A. Newsboys Club.

Mr. Riis is a man of the world. He has experienced all the vicissitudes which are connected with the tramp. He has been homeless and poor and hungry. He determined on his reform and became a reporter, and he gradually through his own efforts ascended to the highest of fame as an author. He wrote "The Battle With the Slums," "The Making of an American Citizen," "The Old Town." He was born in Denmark 56 years ago. He is a delightful lecturer and a man of a charming presence and striking individuality. The purpose of the lecture is not only commendable, but the audience will be afforded an intellectual treat which must be heard as it is delivered to be fully appreciated.

## Washington's Birthday.

Yesterday was Washington's birthday. It was observed as a half holiday at the postoffice and the commercial exchanges. In these days of money making and when the dollar is placed above the man, little attention is given to the birthdays of the patriots who struggled for American liberty and independence.

A Visit to Our Store Now Will Be Profitable and Pleasant

## Relatively Speaking, Where Are You

Are you advancing with the times or do you still look on our city from the standpoint of years ago? Do you move on just a little better than the ox wagon of yore, or are you keeping pace with the lightning express of today? This is an age of advancement. The wisdom of yesterday may be the folly of today and nothing but eternal vigilance will keep ahead of the times. New machines, new formulas and new ideas are being introduced that are as far ahead of old methods as the lightning express is ahead of the ox team. We are using all of our ability, our energy, our experience and our means to keep pace with the times. Our plant of yesterday is not our plant of today, and our plant of today will not be our plant of tomorrow. There is not—there can not be, any end to advancement.
