FOSTER'S BULLETIN

FORECAST OF STORMS TO CROSS THE CONTINENT

AUGUST TEMPERATURES

Storms Will Not Be So Severe as Those of July—Rainfall Will Be Generally Short, Particularly in the Southern States.

(Copyrighted 1913 by W. T. Foster)

Washington, D. C., July 26.—Last bulletin gave forecasts of disturbance to cross the continent July 29 to August 2, warm wave July 28 to August 1, cool wave July 31 to August 4. Cool weather will prevail during that week, rains will fall in many places and the storm forces will be more than usually intense. But the public is getting accustomed to great storms and the newspapers do not give them much space. The killing of people and the destruction of millions of dollars in property by the weather forces does not occupy as much space in our newspapers as the same amount of destruction in Mexico by the forces of war. Great and destructive storms have occurred as predicted and we only regret that we can not make such forecasts more in detail.

Next disturbance will reach Pacific coast about August 2, cross the Pacific slope by close of 3, great central valleys 4 to 6, eastern sections 7, warm wave will cross Pacific slope about August 2, great central valleys 4, eastern sections 6. Cool wave will cross Pacific slope about August 5, great central valleys 7, eastern sections 9.

August storms will not be so severe as those of July, but this storm will be of greater than usual force, particularly August 3, 4 and 5 about and before the storm wave reaches meridian 90. Rainfall will be generally short, particularly in southern states. Our predictions of July rains proved good and greatly benefited corn and spring wheat. We expect a dry August to damage corn and cotton. Indications are that most of August precipitation in the great central valleys will occur during the weeks centering on August 1 and 13 and in eastern sections during the weeks centering on August 1 and 19. Very warm weather is expected during the weeks centering on August 8 and 25.

Farmers and planters should not sell the new crops of grain and cotton till later. We hold that prices will go higher. Many combinations have operated against good prices and those who have interests in the new crops should not part with them while the crops are growing.

The Balkan war disturbed European finances and sent American securities back to this country, causing financial weakness here. The tariff revision causes some financial uneasiness. In the nature of governmental affairs the change of administration is always a disturbing element. Above all other influences is the undoubted fact that in all governments the people are reasserting their lost rights, a change of base is being effected, and such changes always affect the finances.

These financial furies have kept prices of grain and cotton down, but those influences have spent their force, have failed to cause a panic. Our country is on a solid basis, its future success assured. The effects of these financial furies will soon pass and a very large demand for all products of the soil and of manufacturing will prevail through 1914.

While the crops of grain and cotton will be sufficient they will not be large as compared with population and demand. Mexico is not producing and must be fed and clothed. The Panama canal will open up new territory for our products. Many other facts tell us that prices of farm products must go up and therefore every farmer and planter should hold his products for better prices.

A word to those who deal in futures. Don't try to base your scalping on changing prospects. You can profit on long range weather forecasts but not by scalping the market. Before the 1914 crop begins to grow we will have our forecasts worked out so as to give information longer in advance. Then the cash dealers and the option dealers can profit by long holdings. But it is very dangerous to try to profit on a fluctuating market that is manipulated by the big dealers.

EL KARUBAH TEMPLE

Formally Instituted by Past Imperial Potentate Geo. H. Green of Dallas—A Brilliant Display and a Magnificent Ceremonial.

Yesterday was a gala day, long to be cherished by the Masonic fraternity of Shreveport and their friends from Texas and Arkansas, from New Orleans and from every section of Louisiana. This event had long been anticipated and culminated in a success most agreeable to the fraternity and their friends.

The gathering of the Shriners, the nobles and the dignitaries, was to assist and be present at the formal institution of El Karubah, organized in Shreveport, with a membership of representative citizens.

The ceremonial was conducted by Past Imperial Potentate George H. Green of Dallas and his aids, especially appointed by Imperial Potentate William E. Irwin for the occasion, officiating.

Following the ceremony of instituting this temple there was given a luncheon in the basement of the Commercial National Bank, and then came the street parade headed by Jerusalem Temple Band discoursing splendid selections. Then came the Arab Patrol from El Karubah and visiting nobles in automobiles, and the candidates initiated in white robes. The display in the parade was strikingly attractive.

The Shriners assembled at the Fair grounds in the afternoon where an interesting ceremonial was held in the Coliseum.

The events of the day were ended last night. Each and all the visitors and the local Shriners expressed themselves well pleased. The celebration was all that could have been desired.

The officials of the El Karubah Temple are James H. Rowland, illustrious potentate; H. D. Adgar, chief rabban; H. M. Weil, assistant rabban; T. H. Scovell, H. P. and prophet; H. S. Weston, oriental guide; L. E. Thomas, treasurer; A. W. Cheesman, recorder; E. R. Bernstein, first ceremonial master; H. A. Peterman, second ceremonial master; Charles F. Crockett, illustrious director; H. K. Ramsey, illustrious marshal; J. G. Bransford, captain of guard; J. J. Lyon, illustrious outer guard; W. R. Spann, first alchemist; T. G. Holman, second alchemist.

To become a Shriner, as related to the Caucasian representative, one must be a York Rite Templar or a thirty-second degree Scottish Rite member of the order of Masons. The Shrine is a play ground. Its purpose is divertimento and pleasure.

Shot and Killed Her Seducer.

As reported from New Orleans Thursday night shortly before 8 o'clock Miss Augusta A. Edwards, aged 29 years, a stenographer, shot and killed Geo. W. Reihl. When arraigned before Judge Fisher of the City Criminal Court, Miss Edwards pleaded not guilty. This is a story of a woman's weakness in loving not wisely and a man's perfidy. Reihl was married and had a wife and five children, but he had made Miss Edwards believe he was single. When Miss Edwards discovered this treachery she was dazed and then on recovering, her love was turned into all the hatred of a woman scorned and hunted Reihl five days, and as he emerged from an establishment on Carondelet street, shot and killed him.

Is Miss Edwards justifiable? Why not?

Seven Day Adventists.

The Seven Day Adventists are holding their annual conference in Alexandria, La. There are twenty-one small tents and three large ones for the accommodation of the delegates. It is presided over by Dr. Lydia E. Parmele of New Orleans, medical secretary of the Louisiana Conference.

A Ban on American Dances.

The New Orleans States observes that from Europe comes the news that leading hotels of Switzerland have posted notices forbidding American dances. This was the result of complaints filed by British, German and other foreign tourists, whose sense of modesty has been so severely shocked that they decline to associate with those who indulge in the degrading dances.

The proprietors of those Swiss hotels are to be commended, for if American vulgarities behave in such an outrageous and indecent manner as to tinge with shame the cheeks of the sinners of Europe, they can expect no more than to be called to account. The self-respecting citi-

THE workmen are now busily engaged fashioning our new modern store. We desire to apologize for any present inconvenience to which this may put you, and at the same time assure you that when finished ours will be the most modern and complete dry goods store in North Louisiana.

Closing Out of All Odd Lots, Remnants, Etc. Will Continue While This Remodeling is in Progress. Bargains for All

Hearne Dry Goods Company

zens of this country have no sympathy for those who go abroad to make indecent exhibitions of themselves.

The dances complained of in Switzerland are condemned by respectable Americans at home, and it would be surprising if respectable tourists from other countries would tolerate them. There is nothing prudish about the Americans who take these dances abroad, but it would be better for them and their country if they had a higher sense of the proprieties.

Peerless Bakery Fire.

The Peerless Bakery on Texas avenue in the Bernstein building suffered a total loss by fire at an early hour Saturday morning. The origin of the fire is unknown. In this building were a number of roomers, many of whom reached the street over the fire escapes. There were several ludicrous as well as serious incidents. Fortunately there was no loss of life nor did any one sustain any injury.

Weather Forecast.

Local forecast for Shreveport and vicinity: Showers and thunder storms tonight or Sunday; not much change in temperature.

The Grand Jury.

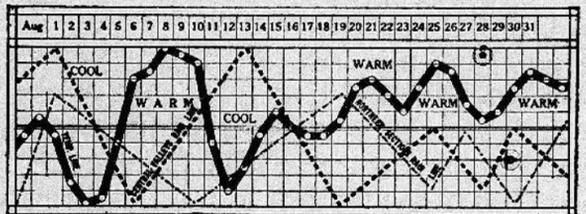

The Grand Jury has been called by Judge John R. Land to convene tomorrow, Monday, presumably to inquire into the assassination of John Gossiol and other cases of less gravity.

Suffocating Pistols.

Says the Picayune: "Suffocating pistols, which overcome the person hit but leave no after consequences, now are being used by the police of Paris. The weapons are very simple and the municipal laboratory which loads them, after preparing the charges, is prepared to give instructions when needed. The pistols have been tried successfully, notably in the case of a lunatic who had injured several persons, but who was instantly reduced to unconsciousness by the discharge of the pistol. The chief of detective was brave enough to first try the weapon on himself, allowing his men to use it. So far no ill consequences have followed the 'wound' and the police of Paris are delighted with the new invention."

If the suffocating pistol was controllable entirely by the police, the criminal and law breakers would be at a great disadvantage, but could not the police be put out of business with the suffocating pistol?

FOSTER'S AUGUST 1913 WEATHER CHARTS.

Temperatures of August will average above normal east of Rockies and rainfall below; a warm and dry month, not best corn crop weather. Cooler than usual west of Rockies. Some severe weather but storm forces will be much less than previous month. See weekly weather bulletins.

Treble line in cut represents normal temperature and rain. Light broken line marked "northern sections rain" is for northeastern states

only. Heavier broken line is for central valleys east of Rockies rain. Heaviest crooked line is for temperatures. Where these rise indicates greater probability of rain or higher temperatures and where they fall less probability of rain or lower temperatures. Temperature dates are for meridian 90. Count one to three days earlier for west of that line and as much later for east of it in proportion to the distance from that line which runs north and south through St. Louis.

A House Entirely in a Class by Itself. We Lead Where Others Would Like to Follow

Convince yourself of this fact by calling on us for STEAM, GAS and GASOLINE ENGINES, SAW MILL and OIL WELL MACHINERY, also SUPPLIES OF EVERY DESCRIPTION which we carry in large quantities. Our factory is thoroughly equipped and we can give you the best of service. Our reference: Any Bank in the State and thousands of customers everywhere.
