## School Board Proceedings.

on the first Friday of each month, the colored teachers will meet on the second Saturday, and the Thibodaux Institute will hold its session on the last Friday of the month. I am satisfied that these institutes will have a very beneficial effect on the teaching corps of the parish. The law allows the Superintendent three dollars for every session of the Institute that he holds, and the institute managers are entitled to two dollars and a half per day, for like services. As the funds of the Board are very limited, I have decided not to avail myself of the extra compensation to which I am entitled for institute work, and the thanks of the Board are due to the Institute managers appointed for their generosity and public spirit in waiving their right to the compensation the law accords them.

In this connection, I will lay before your honorable body a communication from Prof. H. E. Chambers, State Institute Conductor in which he intimates very broadly that if this Board desires to have a summer normal institute of four weeks duration, one can be held at Thibodaux, provided three hundred dollars, the cost of the undertaking is contributed. The advantages of having professional and academic instruction given to our teachers, and those of the surrounding parishes, for four weeks, by competent professors is one that ought not lightly to be put aside, but is a matter that requires our most earnest consideration.

In pursuance of the instructions given me by the Board I have advertised for bids for the construction of three school houses, one at Kraemer's, one at Lubin Bergeron's, in Bayou Blue, and one near the Cut Off. I lay before the Board the bids received for the building of the two last-named school houses. No bid has been received for the Kraemer school house.

I have had occasion to enforce the policy of the Board in regard to declining to pay rent for buildings used by the Board unless same were in good, comfortable condition. In three instances, the owners of the buildings have been notified that we would pay no rent until necessary repairs would be made.

In order to raise the standard of qualifications to teach, I believe that a professional library for the teachers would be an excellent thing. Seventy five dollars would buy a sufficient number of standard works to form the nucleus of such a library. As the salaries paid our teachers are so small, it would be a hardship upon them to even expect that they could supply themselves with the necessary books of instruction on the calling.

The new desks which the Board authorized me to purchase for the Lockport School are now in position in that school and give perfect satisfaction. I regret to state that there seems to be a misunderstanding on the part of the Lockport Public School Association in regard to the old desks of that school. The Board will remember that new desks were furnished the Lockport School House with the understanding, that the old desks would belong to the Board, and would be used for other houses that required additional desk capacity. It seems that the owners of the Lockport School House now decline to allow the old desks to be removed. Action in this matter will have to be taken by the Board.

The semi-annual examination of applicants to teach will be held on Thursday and Friday, the 11th. and 12th. of April, for white applicants, and on Friday, the 18th. of April for colored applicants. Due notice of these examinations have been given, as ordered by the State Superintendent.

I have been asked whether an enumeration of children of educable age by the Assessor would be required this year. An examination of the latest statute on the subject shows that a census of school children need only be made every four years, and that the last census was made in 1899.

The law requires us to meet in regular session on the first Saturday of every quarter, but as this is a very inconvenient day for some of the members of the Board, I would recommend that some other day, near the beginning of each quarter be selected for our regular meetings.

I have made several official visits to school since the beginning of the present session. I made it my business to spend at least three hours in each school visited, and to inspect the building and surroundings, and also, to find out the methods employed in imparting instruction. I made notes of everything connected with the schools that might be of a character to interest the Board, but, as this report is already quite lengthy, I will simply state that my visits covered the following schools: Ariel, Chacabay, Billie, Sealy, Bergeron and Guion Academy. I will, on some future occasion give the results of my inspection of the schools.

Respectfully submitted,  
Thomas A. Badeaux,  
Parish Superintendent

A letter from Prof. H. E. Chambers, State Institute Conductor, suggesting that if the proper efforts were made and the necessary inducements were offered by this Board that a summer normal institute to last four weeks would most probably be held in this parish was laid before the Board. The Board considered that a State Teachers' Institute had recently been held in this Parish and that the Parish Superintendent was now holding monthly Institutes, and that in the existing situation of the school funds in the treasury, they could not afford to appropriate three hundred dollars towards paying the expenses of the summer normal, resolved to forego the holding of such an institute in this parish, and the Superintendent was requested to notify the State Institute Conductor to that effect.

The offer of Bell & Company, publishers of Kansas City to furnish their charts to the schools of the parish at the rate of ten dollars each was considered but declined.

The posts of the fence at the Guion Academy were ordered to be painted in order to be uniform with the new fence lately erected on the south side of the property.

Inasmuch as the School House Fund, with the legitimate demands to be made upon it for repairs on school houses and rent of buildings used for that purpose would suffice to build but one school house, it was determined to accept the bid of Mr. Lubin Bergeron for the erection of a school house on the site recently donated to the Board for a school house, the price to be paid him being three hundred and fifty dollars.

The Superintendent was directed to inform the owners of the Lockport School House Association that they must select between retaining the new desks lately supplied to that school house, or surrendering the old desks in that school house to be used for other school houses that needed them.

The question of having a Fiscal Agent for the custody of the school funds, which are entirely under the control of the Board and of no other body was brought up, and it was decided to invite proposals from the Bank of Thibodaux and from the Bank of Lafourche as to the terms and conditions under which they would act as such custodian of the school funds of the Parish, it being the consensus of the Board that a bonus would be preferred.

The first Thursday of each quarter was chosen for the regular meetings of the Board.

The Superintendent was authorized to inform the teacher of the Grande School to the effect that if she would extend a written apology to Director Scott for her act of insubordination in refusing to obey the order to close her school temporarily on account of the prevalence of small-pox in the neighborhood, Mr. Scott acting at the time on behalf and by authority of the School Board, that, on her complying with this condition she would be reinstated.

Seventy five dollars was appropriated to purchase a teachers' library, or rather, the nucleus of one.

## Heartburn.

When the quantity of food taken is too large or the quality too rich, heartburn is likely to follow, and especially so if the digestion has been weakened by constipation. Eat slowly and not too freely of easily digested food. Masticate the food thoroughly. Let six hours elapse between meals and when you feel a fullness and weight in the region of the stomach after eating, indicating that you have eaten too much, take one of Chamberlain's Stomach and Liver Tablets and the heartburn may be avoided. ## THE HOME GOLD CURE.

An Ingenious Treatment by which Drunkards are Being Cured Daily in Spite of Themselves.

No Noxious Doses. No Weakening of the Nerves. A Pleasant and Positive Cure for the Liquor Habit.

It is now generally known and understood that Drunkenness is a disease and not weakness. A body filled with poison, and nerves completely shattered by periodical or constant use of intoxicating liquors, requires an antidote capable of neutralizing and eradicating this poison, and destroying the craving for intoxicants. Sufferers may now cure themselves at home without publicity or loss of time from business by this wonderful "HOME GOLD CURE" which has been perfected after many years of close study and treatment of inebriates. The faithful use according to directions of this wonderful discovery is positively guaranteed to cure the most obstinate case, no matter how hard a drinker. Our records show the marvelous transformation of thousands of Drunkards into sober, industrious and upright men.

**WIVES CURE YOUR HUSBANDS!! CHILDREN CURE YOUR FATHERS!!** This remedy is in no sense a nostrum but is a specific for this disease only, and is so skillfully devised and prepared that it is thoroughly soluble and pleasant to the taste, so that it can be given in a cup of tea or coffee without the knowledge of the person taking it. Thousands of Drunkards have cured themselves with this priceless remedy, and as many more have been cured and made temperate men by having the "CURE" administered by loving friends and relatives without their knowledge in coffee or tea, and believe today that they discontinued drinking of their own free will. DO NOT WAIT. Do not be deluded by apparent and misleading "improvement." Drive out the disease at once and for all time. The "HOME GOLD CURE" is sold at the extremely low price of One Dollar, thus placing within reach of everybody a treatment more effective than others costing \$25 to \$50. Full directions accompany each package. Special advice by skilled physicians when requested without extra charge. Sent prepaid to any part of the world on receipt of One Dollar. Address Dept. CS92 EDWIN B. GILES & COMPANY, 2330 and 2332 Market Street, Philadelphia.
