The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers, that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

Night Was Her Terror.

"I would cough nearly all night long," writes Mrs. Chas. Applegate, of Alexandria, Ind., "and could hardly get any sleep. Easter Festival.

An Easter Festival will be given in our town after Lent by the kind ladies of our town for the purpose of securing funds to help pay off the heavy indebtedness on our splendid convent which is the most imposing and the most magnificent structure in town.

There should be no earthly reason why every body should not do all in their power to make this Festival a financial success in every respect. Money is actually needed to further carry on the work of this educational institution which ought to be looked upon with much pride by every citizen in this town regardless of faith. What greater work could our good Sisters be engaged in than in trying to strengthen our community intellectually? What nobler calling exists than the one to help enlighten the human race? The work which our Sisters are engaged in is a work of charity—a work which ought to appeal directly to every good citizen and every good Christian.

The Festival must be a success. It lies with the people of our town to make it so. Talk festival on the streets, talk it in the stores to people who come in to purchase goods, talk it when you go out in the country. Talk it all the time and every where and it will be a grand success. Will you make it so?

Spring Dress Fabrics.

The wise woman plans her summer wardrobe now, when the shops are abounding in novelties and the variety of fabrics exhibited makes it possible to gratify all tastes. Lacy effects characterize many of the so-called wash fabrics, and some delightful color combinations are shown. An accurate idea of what are to be the favorites of the season may be had from the March *Delicatel*, which shows patterns of the new materials in actual and reduced size and describes the weaves in detail. The same number illustrates the fancy buttons and braids which are to figure so conspicuously as dress trimmings.
