There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease, and prescribed local remedies, and by constantly falling to cure with local treatment, pronounced it incurable. Science has proven Catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials.

This popular hotelery has been recently purchased by Mr. Philip Lagarde, of this parish, who has renovated, and now gives it his personal attention. It affords unsurpassed accommodation for merchants and planters visiting New Orleans, and is situated on Bourbon street, within half a block of Canal street. We take pleasure in recommending it to all.

This has been a great convention week for New Orleans, the fair metropolis of the South. The Bankers' Association, The Daughters of the Confederacy and the Federation of Labor Leaders, all held their annual conventions in the "delightful city" during the week. There was much enthusiasm displayed and the good people of the city tendered all the conventionists a most cordial reception. We trust all the visitors will carry away with them, when they return to their respective homes, none but the pleasantest recollections of New Orleans and her people, and a high estimate of the resources and of the possibilities of the country.

The Arthur C. Alston's Stock Company presented the popular melo drama "At the Old Cross Roads," at the Thibodaux Opera House on last Sunday evening to the largest audience on record this season. The company is a strong one and did some very clever acting. Individually the various actors were all equal to their roles but Miss Estha Williams was by far the star, she enacted the leading part to the satisfaction of all present.

The new Orchestra under the leadership of Dr. Daigre made its debut on this occasion, and discoursed good music which was greatly appreciated as the intervals between the acts were long, and had it not been for the music would have become very tedious. The orchestra will be in attendance at all future performances; this is a great improvement and the managers are to be congratulated for the great interest they take in the comfort of their patrons.
