D. B. TROUSDALE
Proprietor
Feb. 27, 1880.

News By Telegraph.

WEATHER INDICATIONS.

WASHINGTON, Oct. 9.—Indications for West Gulf States, fair weather Southerly winds; stationary barometer and stationary or slight fall in temperature.

THE OHIO ELECTION.

CINCINNATI, Oct. 9.—In Southern Ohio weather is mild and pleasant and favorable to full turn out of voters so far as heard from here. Polls heaviest in Republican wards. As to how vote is going on can do no more than guess at. Balloting is secret and no counting is done until after 6 p. m. Women have appeared at some polling places asking votes for second amendment and prominent church members are attending polls for same purpose. Democratic tickets were printed with vote against this amendment Republican printed their ticket with Yes or no, so that persons desiring to vote for it must erase to word no. It is not likely the amendment will receive anything near majority in this county but it will get a much larger vote than prohibitionists usually poll. Owing to length of ticket and amount of scratching, reports to-night will be late and incomplete.

CLEVELAND, OHIO, Oct. 9.—After noon heavy vote has been poled here. Democrats claim 4,000 majority in City and Republicans concede 3,000. Second amendment workers are very active. They have head quarters in every ward except in the Third and in most precincts ladies are industriously distributing both tickets impartially to get votes for prohibition. Coffee and cake are served to whoever is thought to be favorable to the anti liquor cause. Mrs. J. Ellen Forest, of Iowa, reputed author of prohibition enactment of that State is on the ground and is going from ward to ward in a carriage directing temperance forces. Motteos are profusely displayed at Second amendment head-quarters like the following "Betty and the Baby vs. Boodle and Beer," "Vote for the second amendment and down will go the saloons, and up will go the home and our boys."

COLUMBUS O. Oct. 9.—Weather today warm and bright. Large vote being poled by representatives of the Second amendment, but it is believed that it will not be carried. Comparitively light vote from what has been claimed for it at Republican Headquarters. It is announced that straight tickets are being voted and great deal of scratching being done by Democrats. More than half of the entire vote was poled at noon.

ELECTION IN IOWA.

DES MOINES, Oct. 9.—The reports will be late as in this State no counting of votes is done until all the poles are closed, and most of the poles kept open till 7 o'clock, and some of them till 8 o'clock. It is a long ticket all over the State, so that the count will be slow as well as late. In the city of Desmoines at 3 p. m. nearly as many votes have been polled at most of the precincts as had been cast last year. The indications are that the polls of the State will be as large as that for President in 1880. All of the reports received up to this hour indicate good order, and no cases of disturbance have been reported.

BIG FIRE AT MEMPHIS.

MEMPHIS, TENN., Oct. 9.—Memphis had, last night, a destructive fire originating in Cole & Co.'s oil, paint, door, sash, window and blind store, No. 37 and 39, Union St. The fire burned with such furiousness that the firemen were unable to confine it to the building, and Greenlaw's to east was ignited and completely destroyed. Cole & Co.'s loss on stock is \$60,000, insured for about \$40,000. The building No. 39, owned jointly by People's Insurance Co. and the estate of Jno. Greenlaw was valued at \$12,000, insured for \$6,000; building No. 37 owned by Mrs. T. E. Greenlaw, the Opera House owned by G. B. Peters and People's Insurance Co., G. B. Peters and also two stores in the northern portion of the massive building, two south stores owned by Campbell Wallace of Atlanta, Ga. were destroyed. Loss on the Opera House building about \$50,000, insurance unknown but light. Two stores in south wing, occupied by the Memphis Lumber & Manufacturing Co., escaped, but serious loss was sustained in moving stock. The fire created intense excitement and drew out the entire population.

A later despatch says that the total loss by the fire last night will probably reach \$150,000. Cole & Co.'s loss estimated \$70,000.

QUARANTINE RE-ESTABLISHED.

NEW ORLEANS, Oct. 9.—A special to the Picayune from Mobile, Ala. says: On recommendation of the board of health, the port authorities to-night re-established quarantine against Pensacola. Information from reliable parties received that, owing to indignation expressed by the people and press of Pensacola against the physician who discovered yellow fever, the medical fraternity find it safe not to report to the board of health. The statement by that board therefore is not regarded as satisfactory, especially when physicians, during the past two weeks, reported fever to resemble disease prevailing at Brewton and to have been fatal in large number of cases.

A Times-Democrat special from Montgomery says:

Dr. Cockeran, State health officer telegraphed from Brewton as follows: One death with black vomit Sunday, one yesterday; 3 black vomit cases on hand and 9 other cases of prevailing fever. Since noon 2 new cases reported, and also the death of Col. E. Brewton. Quarantine rigid. Trains do not stop at Brewton.

YELLOW FEVER.

NEW ORLEANS, Oct. 9.—Picayune's Mobile Special says Board of Health received this afternoon such advices from Brewton as led to advice the establishing of quarantine against that place. No agreement apparently has been reached as to character of disease but it is fatal and spreading and pressure strong for quarantine laws. Dr. Ford telegraphs from Brewton this evening, 2 deaths from malarial fever since third inst. thirteen cases under treatment.

MISCELLANEOUS.

WASHINGTON, D. C. Oct. 9.—In the Supreme Court of the United States today, the long pending legal tender case of Julliard against Greenman was again postponed upon motion of Wm. A. Butler, of New York, and set for hear-

ring on the first day the Court shall be in session, after the Christmas holiday recess. There is, however, little more probability that the case will be argued then, than there was that it would be argued to-day. It was originally docketed in 1879, and since that time has twice come up for argument on regular call. On both occasions it was passed because counsel were not ready to argue. On the 4th of January, 1883, motion to fix the day of argument was made by Senator Edmunds and denied by the Court on February, 2. Another similar motion was made by Counsel on the same side, and the Court was willing to hear the case, but said Counsel must agree upon some day and not ask the Court to arbitrarily fix one. At that time it was supposed that it was Gov. Butler who was not ready and that Senator Edmunds was anxious for an immediate hearing.

However, when the case was reached the second time in regular order it was postponed on motion of same counsel who in January and February last, made repeated attempts to bring it to adjudication and manifested an eager desire to argue it at once. Why they were anxious for a hearing then and are apparently indifferent to another hearing or not now is a question to which no answer is at present obtainable. Wm. Allen Butler of New York, the leading Counsel in opposition to the constitutionality of the legal tender act, upon being asked to-day whether he thought there was any probability of an argument of the case on the day to which, at his request, it had been assigned, declined to express an opinion.

PHILADELPHIA, Oct. 9.—The 33rd General Convention of Protestant Episcopal church in U. S., reassembled this a. m., in Holy Trinity Church, prayer read by Rev. Elias Birdsall of diocese of California and Rev. Jas. Rankin D. D., of diocese of Western New Jersey. Benediction pronounced by Rev. Geo. D. Normandie Gillespie D. D., of Western Michigan. Rev. Jno. W. Brown, of Western New Jersey, from committee on Dioceses reported relative to memorial of Deputies of North Carolina asking consent to the creation of a new diocese in N. C. Committee recommended that consent be given. Adopted.

WASHINGTON, D. C. Oct. 9.—The first Cabinet meeting since summer vacation, began to-day. All members were present except Attorney General who has not yet returned to Washington. The session lasted about an hour and a half and was devoted to routine business before different departments. Samuel Melton, U. S. District Attorney for South Carolina, has written to Department of Justice, denying report that he had tendered his resignation and saying that he had no such intention.

The Weather.

Yesterday opened cloudy and cool, and from the aspects of the skies we were about to believe that we were about to receive the long looked and prayed for rain, but were badly deceived. At midnight the stars were sparkling like jewels in a diadem. The weather clerk has evidently neglected his business and gone to one or another of the numerous exhibitions.

Stable Halters 10c. to \$2.50 at Harris'.
