Mr. John W. Bryan, U. S. Signal observer at Vicksburg, was in the city last night. He brought over with him instruments, stationery, etc., and instructed our young friend Eugene Windes, observer at this city, in their use in order that he may report correctly his observations to headquarters at Washington for the cotton belt bulletins. Observer Windes will begin taking these observations on April 10th next.

The big oil firm of Waters-Pierce has purchased a lot near the freight depot of the V. S. & P. R. R., in this city and will shortly erect there a tank that will hold 50,000 gallons of oil and will make Monroe a distributing point for their illuminating fluid, filling the barrels from the tank as orders are received. This will be a great convenience to our people as well as those of the surrounding country and will no doubt be liberally patronized.
