

THE STRIKE ON THE GOULD SYSTEM.

Governor Ireland Declares that Rail-Road Business Shall be Resumed.

ST. LOUIS, April 6.—A special from Fort Worth Tex., to the Post-Dispatch says: Gov. Ireland arrived here yesterday morning from the capitol of the State and has been in consultation with railway officials and military commanders. When the governor's train stopped at Waco on its way here Sunday night several strikers mounted the engine and killed it. Another engine was procured and the train arrived yesterday morning without further hindrance.

Gov. Ireland said that he was determined that the lawlessness which has prevailed here must cease and that the railway officials must be permitted to run their trains, even if it required the assistance of every man in the State able to bear arms to aid in accomplishing this end.

A freight train was made up in the Missouri Pacific yards yesterday afternoon under a heavy guard of militia. The report that the strikers had torn up a section of track south of this city, proved upon investigation, to be unfounded. A box of dynamite cartridges, however, was found concealed near the railroad depot.

There was but little interference last Saturday with the running of trains from East St. Louis, and it was the expectation of the officials that they would be able to prosecute their regular business yesterday the same as though there had never been any trouble.

The Bridge and Tunnel company announced Sunday that they would be ready to handle all business given them.

The joint notice agreed on at the general meeting held Saturday giving the men until 1 o'clock yesterday to return to work evidently had the desired effect, as the superintendents were notified Sunday by many of their former employes that they would be on hand yesterday ready for duty.

President Tansey, of the transfer company also received official notice from his employes that they would report for work in a body at the company's stables yesterday morning.

The striking Missouri Pacific Knights, it is understood, also intended to apply for positions to their former employers.

The formal revocation Sunday night by the general executive committee of their order to the Knights of Labor to return to work made the outlook yesterday less hopeful, and the strike may not be so nearly ended as it was thought. The Missouri Pacific has already employed a sufficient number of new men to carry on its business, and the officials of the road anticipate no trouble in keeping the road open and in spite of the renewal of the strike in East St. Louis, however, the situation is different for those who have already returned to work, as well as those who announced their intention of returning yesterday, are Knights of Labor, and are subject to the order of the executive committee. It is expected therefore that those who have gone back to work struck again yesterday and the others will withdraw their applications for their old positions when they shall receive the official announcement of the committee's action.

NEW YORK, April, 6.—The following dispatches were received yesterday morning at the office of the Missouri

Pacific Railway at this place:

FORT WORTH, April, 6.—Quiet prevailed here yesterday morning. Seven companies of State troops and one company of artillery have arrived from Galveston. They moved Sunday three trains south on the Missouri Pacific and two trains on the Texas Pacific. No resistance was offered either in the city or country. A good many strikers are arriving at Fort Worth from other places. The adjutant-general is in charge of the troops, which consist of 376 men and two pieces of artillery.

PARSONS, Ks., April 6.—The situation is steadily improving. All trains are moving freely. The best of the old force are applying for work and forty of them have been re-employed. The master mechanic has a surplus of applications from new men, but is giving old employes the preference. The adjutant-general has ordered the citizens to organize for the protection of property when the militia has been withdrawn.

KANSAS CITY, April 6.—All quiet in the Missouri Pacific yards. It is reported that a number of strikers returned to work at Cypress yards in West Kansas City yesterday, but it is not ascertained how many, or whether they were Knights of Labor.

Exercise is the cheapest medicine in the world and the cheapest. My father said it was the best remedy for rheumatism ever tried. When the pain struck him bad he would get up and take a tramp over the farm and would go in a walk or fox trot, according to suffering. Walking is very good for genteel exercise, but it takes a variety of work to bring all the muscles into play and make the whole body strong. The cross-cut and the ax are very good. Shoving a jackplane is first rate, but if a man wants to get tired all over let him dig post holes for half a day.

LOUISVILLE, Ky., April 6.—Last evening the river was checked to a rise of half an inch per hour, but later took a renewed start and is now coming up steadily at the rate of an inch an hour. The Kentucky and the Big Sandy have both received an impetus from the rains and are pouring in at a fearful rate. Along the river front many have moved out and others are in readiness.

LOUISVILLE, Ky., April 6.—The river is rising slowly—three-quarters of an inch per hour—and the canal gauge registers thirty-one feet. The Big Sandy is reported receding above Cattlettsburg, but a heavy rain fell in that region and there will be another rise.
