Two For a Cent.

DETROIT, Mich., April 20.—Yesterday afternoon newsboys struck on the Evening News of this city, demanding two papers for a cent instead of one, as heretofore. There are about one hundred of the boys in front of the News office, and they have acted like their elders. When any one attempted to take out papers the boys so doing was set upon and his papers torn to pieces. Few papers are being sold except from the office. The Journal is free from the trouble.

Slanderers Climb into Your Hole.

MACON, Ga., April 20.—The Telegraph of Sunday says: For obvious reasons we have hesitated to notice a matter which is engaging the attention of the press of the country. Even now we hesitate. That the visit of Secretary Lamar to his old home and relations should have been the occasion of a newspaper sensation was an unworthy reception of him; that it should have been seized upon to defy the traditional civility and hospitality of this section by wounding the sensibilities of a modest and much-honored woman is coarse, indecent and unsensible.

We have the best reason to know what a social visit has been converted into by newsmongers, and there is no foundation in fact for the report of the Secretary's matrimonial intentions any more than there is any reason for the breach of good manners.

The Committee To Examine into the Strike.

WASHINGTON, April 19.—All of the members of the select committee on labor troubles except Mr. Stewart, of Vermont, who is on leave of absence, were present at Saturday afternoon's meeting. After a short discussion of the best means of pursuing the inquiry the committee resolved to subpoena Messrs. Gould, Hopkins, Powderly and McDowell. The committee is anxious to secure all of the correspondence passing between these gentlemen in relation to the Western strike, and will begin its investigation here to-day with the examination of Messrs. Powderly and McDowell, who are to be followed on Wednesday and Thursday by Mr. Jay Gould and Mr. A. H. Hopkins. On Sunday next the committee will start for St. Louis, and after taking such testimony at that point as may be deemed material, it is probable that the members will divide into two sub-committees, one proceeding to Atchison, Kan., and the others to Fort Worth, Tex., to collect information relative to the strikers at those places and along the lines of the route. The committee is disposed to report at an early day, but it is determined to make the investigation thorough and impartial.

A Kick All Around.

NEW YORK, April 20.—The employes of the Dry Dock line state that they left work because they were ordered to do so by the committee.

and not because they had any grievances. The Forty-Second street line men stopped for the same reason. In fact, the men on any of the lines, with the exception of the Third Avenue line, have any complaints to make in regard to the hours or pay. The general tie-up was ordered so as to force the directors of the Third Avenue line to yield to the demands of the strikers. The men ordered out of a number of the lines feel very bitter over the action of the committee in stopping all cars, and state that the general tie-up business is being run into the ground.

With the exception of Eighth and Ninth avenues, the streets on which horse cars usually run, are deserted and quiet today. All the railroad men, drivers, conductors and stable men, have concluded to take a holiday in sympathy with their brethren on the Third Avenue line. Almost the entire police of the city has been on duty since 5 o'clock yesterday morning. All the street car stables are guarded by detachments of police, and the streets along which the lines run are filled with "blue coats."

Much Alarmed.

CHICAGO, April 20.—A Cleveland dispatch says: Many residents are much alarmed over the appearance for several months past of a thick, bluish fog, which appears to issue from the earth. Its presence is regarded by persons conversant with its previous appearance here as ominous of approaching cholera. It is a singular fact cited by those who went through the cholera plagues of 1866 and earlier years that this same fog has always preceded an outbreak of the dreaded scourge, and it has not been seen here until this week since the last cholera epidemic. Scientists here whose attention was called to the fact believe that the conditions favorable to the creation of this fog are favorable to a spread of cholera.

Charged with Destruction by Dynamite.

A special dispatch from Waco, Tex., says: For several days officers of this city have been on the lookout for Abe Jackson, who is charged with destruction by dynamite of the residence belonging to the noted evangelist Sam Jones, at Cartersville. Jackson was apprehended and lodged in jail Sunday to await the arrival of officers from Georgia with requisition papers. Jackson is also charged with being implicated in the blowing up of Judge Collins' large stables, near Cartersville. He denies both charges; says he is persecuted because of his friendship for the Wild brothers who have just been acquitted of destroying Judge Collins' property.

Protested.

At a regular meeting of the Trade and Labor Assembly, Sunday, Mark L. Crawford, of the committee appointed to wait on members of the county board who had the letting of the contract for repairs of the county courthouse reported that he had visited the commissioners having the matter in charge and protested against the contract awarded to E. B. Brauard & Co., on account of their being employers of prison labor, all the men being used by them being convicts in the Joliet penitentiary. The protest was entered five days too late, as the contract had already been awarded. There was a clause in the contract, however, prohibiting the use of convict labor in the repairs.
