READ MISS BOLLMAN'S EXPERIENCE.
 "Some time ago I was in a very weak condition, my work made me nervous and my back ached frightfully all the time, and I had terrible headaches."

My mother got a bottle of Lydia E. Pinkham's Vegetable Compound for me, and it seemed to strengthen my back and help me at once, and I did not get so tired as before. I continued to take it, and it brought health and strength to me, and I want to thank you for the good it has done me.—Miss KATZ BOLLMAN, 142nd St. & Wales Ave., New York City. \$5.00 for full original of above letter proving genuineness cannot be produced.

Lydia E. Pinkham's Vegetable Compound cures because it is the greatest known remedy for kidney and womb troubles.

Every woman who is puzzled about her condition should write to Mrs. Pinkham at Lynn, Mass., and tell her all.

When the Gardener Swore.
 His religious training had been carefully given. SEABROOKE AND HIS "Q."

Where the Comedian Got the Initial in His Name.

Those who have been worrying their young lives away in a vain effort to find out what the "Q" stands for in Thomas Q. Seabrooke's name need trouble no longer. The comedian settled the matter last week himself.

"The 'Q' in my name," said he "stands for 'Qurika.' It is an Indian name. When I was barely a year old, my father had some government business which took him to Fort Thomas, Ariz., among the Apache Indians. He took mother and baby with him. The Indians who loitered around our place took a great fancy to me; they patted me on the cheek and called me 'Qurika.' My father was greatly amused at it and after awhile began to call me 'Q' for short. The name stuck to me as I grew up, and as I had no middle name I finally took this pet family name for my middle name, as it harmonized euphoniously with the rest of my cognomen."

"But what in the world does 'Qurika' mean?" he was asked.

"Oh, that's Indian for 'pretty boy,'" replied Seabrooke.

And the comedian looked dangers when someone laughed.—New York World.

The Shepherd of the Sea.

I am a mighty shepherd, and many are my flocks. I lead them among the woody rocks. My shepherd's crook is fashioned out of a Norway pine. And there's no sheep dog in the world will herd these flocks of mine.

My fold is wide, and day and night the walls shift of my fold. No upland, no lowland my lambing ewes without. From the cry of their shepherd, the beckoning of his hand; For my own desert places they leave the pastureland.

With wild white flocks surging about me to my knee. I go about my herding, the Shepherd of the Sea.

I call to the rock postures the white sheep of the waves. For they but find their grazing where sailors find their graves.

I am a mighty shepherd, and mighty flocks have I. I lead them, I feed them while stars are in the sky. And when the moon is waning on sheltered shore and lee. I rest not nor slumber, the Shepherd of the Sea.

—New York Tribune.

A Deadly Cigarette.

Capt. Peter Miller, the head of the detective bureau, showed a visitor the other night a cigarette. It was long and slim with a straw mouthpiece, or lip, and looked like any other expensive cigarette, except that it had no name on it.

"This," said the chief, "is the latest device of the law-breakers—a knock-out cigarette. Innocent as the small contrivance seems, the inhalation of the ten whiffs of it would throw the strongest man into a coma. The cigarette was sent to me by a Chicago crook whom I once befriended. The man tells me that an Illinois chemist is manufacturing the nefarious things and selling them to 'the profess' at the rate of \$10 for a box of five. They look like a good cigarette, and they taste like one, but they bring on a ten minutes' unconsciousness, and in ten minutes much can be done. I am glad to say that they are not deadly. The box they come packed in is yellow."—Philadelphia Record.

Japanese Music.

Corea is coming on, having organized a brass band. As a rule the modern band is not popular among the orientals, the Chinese having none and the Japanese giving it but slight encouragement. A Japanese regiment marches on parade to the monotonous toot-toot of two bugles, eschewing even the drum as an accompaniment. During the war in 1894-95 there was but one band connected with an army corps and that one was attached to headquarters, where it played music that few of its hearers understood or really wanted to like. For musical inspiration on the march the troops relied on their own voices, a sergeant starting up a strident wail and the men coming in on the chorus.

Black Diamond.

The only place in the world where that form of carbon known as the black diamond, or bort, is found in marketable quantities is in Bahia, in South America. The substance is used for points for stone drills and saws, and is powdered and used to polish diamonds and other precious stones. There is a wide and growing demand for it.

Engraver of the Bank of France.

The engraver of the Bank of France is not to be envied in regard to the conditions under which he works. Case No. 34,529.—Mr. Walter McLaughlin of 2022 Jacob street, Wheeling, W. Va., a machine hand working at J. A. Holiday & Son's planing mill, says: "I firmly believe had I not used Doan's Kidney Pills when I did I would not be alive now. I was in a terrible condition, and although I took quarts of medicine and was attended by doctors, I got no better, but worse. Friends spoke of my bad appearance, and thousands knew about it. I could hardly get around and felt and looked like a dead man rather than a living one. Doan's Kidney Pills, procured at the Logan Drug Co.'s store, were a blessing to me; half a box relieved me; three boxes entirely cured me."

THE EDITOR IS JOYFUL.

Kansas Molder of Thought Announces His Approaching Marriages.

There is but one more week of singleness for the editor of the paper. A young woman has consented to take our name and share with us the burdens and joys of life. She is Mrs. Elsie Kitzmiller, young daughter of Mrs. Lavinia Kitzmiller. Her father was Frank Kitzmiller, a veteran of the civil war, who died one year ago.

The time set for the ceremony is next Wednesday at 2 o'clock in the afternoon at the home of Mrs. Kitzmiller. A number of friends have been invited—but not nearly all. The house would not hold nearly one-third of all those "we" should have been pleased to see present. (This is not the editor we—"we" having assumed a new significance.) But there will be enough, we hope, to fill the house and see that the job is well done. There will be no attendants. "We" will be the whole show. There will be no tears—every one will be glad to see us (editorially) finally married. There will be a happy, handsome couple, the handiwork of the gods, the handiwork of the gods, the handiwork of the gods.

No one's life is complete who lives alone. No, of course not. To develop into a surly, crabbed, soul-shriveled, old bachelor, or to dwindle away an old maid full of vinegar and fool notions—what unhappy fate! To form a complete and useful life, marriage is a necessity as well as a luxury. Yet these considerations are mere side issues. The first consideration is to find someone you can love, respect, admire. Love is apart from logic. It is capricious. It frowns upon wealth, tramples over differences of age, breaks down any established rules of precedence and astounds the coolly systematic. We are it. Time passes slowly.—Highland Kansas Vindicator.

British Mining Industry.

A blue book has just been issued, giving the statistics of the persons employed, and the output and the accidents in the mines of Great Britain for the year 1901. It appears from the statistics that the total number of persons employed in and about the mines of the United Kingdom was 839,178. Compared with 1901 there is an increase of 26,683 persons at the coal mines, and a decrease of 2,022 persons at metalliferous mines. The output of minerals at the coal mines was 231,343,224 tons, of which 219,037,240 were coal, and the balance was fireclay, ironstone, shale and sundry minerals. Adding 8,705 tons which come from open quarries the total output of coal for the year was 219,046,945 tons, and this is a decrease of 6,134,355 tons.

Restaurant Cook's Idea.

A young man who dines quite frequently in a French restaurant, whose reputation is based on the unvarying excellence of the dishes served, sent for the chef the other night to compliment him on a poulet en casserole. "I like you," said the cook, "because you never bring any women in this place. They ruin a cook and a restaurant. A gentleman who comes in alone for his dinner regards the dishes and pays his whole attention to the food he is eating. But when he is with a woman! Bah! He laughs, he talks, he regards only his companion, his attention is distracted, the cook and his work are forgotten. It is not popularity that ruins a restaurant. It is the women and music."—New York Press.

The Humor of Cycle Taxation.

Possession may be nine-tenths of the law, but the remaining tenth occasionally makes trouble, especially in France. A man in Paris had two motor cycles, on which he paid the annual tax uncompromisingly until the motor cycles were stolen from him two years ago. The law insists he should go on paying taxes indefinitely, as he cannot prove that he no longer possesses the cycles by returning the taxing plaques which were attached to the machines and, of course, vanished with them. As long as he does not return the plaques the law considers he is in possession of the cycles, and insists on the taxes being paid.

REGULAR and PAINLESS

monthly periods mean more to a woman than all the wealth of the world, for such a condition means health. Irregular and painful periods are unnatural; they mean that the regulating forces of the system are out of order, and they are warnings of still more serious troubles which are sure to result unless Nature is given the aid she needs to set things right. G. F. P. gives this aid because it furnishes pure, rich blood to every part; it is more than medicine—it is concentrated health.

FOUND PERMANENT RELIEF.

PE-RU-NA CURES CATARRH OF KIDNEYS EVERY TIME

Major T. H. Mars

DANGEROUS KIDNEY DISEASES CURED
 Pe-ru-na Creating a National Sensation in the Cure of Chronic Ailments of the Kidneys.

Major T. H. Mars, of the First Wisconsin Cavalry regiment, writes from 1425 Dunning street, Chicago, Ill., the following letter: "For years I suffered with catarrh of the kidneys contracted in the army. Medicine did not help me until a comrade who had been helped by Pe-ru-na advised me to try it. I bought some at once, and soon found blessed relief. I kept taking it four months, and am now well and strong and feel better than I have done for the past twenty years, thanks to Pe-ru-na."—T. H. Mars.

Mr. John Vance, of Hartford City, Ind., says: "My kidney trouble is much better. I have improved so much that everybody wants to know what medicine I am using. I recommend Pe-ru-na to everybody and some have commenced to use it. The folks all say that if Dr. Hartman's medicine cures me it must be great."—John Vance.

Mr. J. Brake, of Petroleum, Ontario, Canada, writes: "Four years ago I had a severe attack of Bright's disease, which brought me so low the doctor said nothing more could be done for me. I began to take Pe-ru-na and Manalin, and in three months I was a well man and have continued so ever since."—J. Brake.

At the appearance of the first symptom of kidney trouble, Pe-ru-na should be taken. This remedy strikes at once the very root of the disease. It at once relieves the tortured kidneys of the stagnant blood, preventing the escape of serum from the blood. Pe-ru-na stimulates the kidneys to excrete from the blood the accumulations of poisons, and thus prevents the convulsions which are sure to follow if the poisons are allowed to remain. It gives great vigor to the heart's action and digestive system, both of which are apt to fail rapidly in this disease. Pe-ru-na cures catarrh of the kidney simply because it cures catarrh wherever located. If you do not derive prompt and satisfactory results from the use of Pe-ru-na, write at once to Dr. Hartman, giving a full statement of your case, and he will be pleased to give you his valuable advice gratis. Address Dr. Hartman, President of The Hartman Sanitarium, Columbus, O.

MONEY IN RAISING BANANAS.

Nature seems to have made Jamaica the home of the banana, but it remained for American enterprise to turn the yellow fruit to gold. It is estimated that 9,000,000 bunches of bananas were shipped from this island last year. At an average of thirty-five cents a bunch this would yield \$2,150,000. It is also stated that about 1,850,000 is paid out annually in wages by fruit companies. This would bring a total of \$5,000,000 to the island each year as a direct result of the fruit trade.

I began to take Pe-ru-na and Manalin, and in three months I was a well man and have continued so ever since."—J. Brake.

At the appearance of the first symptom of kidney trouble, Pe-ru-na should be taken. This remedy strikes at once the very root of the disease. It at once relieves the tortured kidneys of the stagnant blood, preventing the escape of serum from the blood. Pe-ru-na stimulates the kidneys to excrete from the blood the accumulations of poisons, and thus prevents the convulsions which are sure to follow if the poisons are allowed to remain. It gives great vigor to the heart's action and digestive system, both of which are apt to fail rapidly in this disease. Pe-ru-na cures catarrh of the kidney simply because it cures catarrh wherever located. If you do not derive prompt and satisfactory results from the use of Pe-ru-na, write at once to Dr. Hartman, giving a full statement of your case, and he will be pleased to give you his valuable advice gratis.
