A TIMELY SUGGESTION.

This is the season of the year when the prudent and careful housewife replenishes her supply of Chamberlain's Cough Remedy. It is certain to be needed before the winter is over, and results are much more prompt and satisfactory when it is kept at hand and given as soon as the cold is contracted and before it has become settled in the system. In almost every instance a severe cold may be warded off by taking this remedy freely as soon as the first indication of the cold appears. There is no danger in giving it to the children for it contains no harmful substance. It is pleasant to take—both adults and children like it. Buy it and you will get the best. It always cures. For sale by Phenix Drug store.

It will be good news to the mothers of sick children to learn that cramp can be prevented.

The first sign of cramp is hoarseness. A day or two before the attack the child becomes hoarse. This is soon followed by a peculiar rough cough. Chamberlain's Cough Remedy, freely as soon as the child becomes hoarse, or even after the rough cough appears, will dispel all symptoms of cramp. In this way all danger is averted. It is used by many thousands of mothers, and has been known to prevent cramp. It is pleasant to take. For sale by Phenix Drug store.
