

CHARITON COURIER.

VANDIVER & COLLIER, PROP'S. KEYTESVILLE, MISSOURI.

COLEMAN, of Saline County. For Congress—2d District, CHARLES H. MANSUR, of Livingston County. For State Senator—6th District, ANDREW MACKAY, of Chariton County. For Circuit Judge, G. D. BURGESS, of Linn County. County Democratic Ticket. For Representative, LUCIUS SALISBURY. For Probate Judge, HENRY C. MINTER. For Prosecuting Attorney, WILLIAM W. RUCKER. For Clerk Circuit Court, JAMES A. EGAN. For Clerk County Court, JOHN A. LEE. For Recorder, BENJAMIN F. CRAWLEY. For Sheriff, JOHN J. MOORE. For Treasurer, EARLE B. KILLOGG. Presiding Judge County Court, WILLIAM E. PERKINSON. Judge County Court, Eastern Dist., GEORGE G. DAMERON. Judge County Court, Western Dist., EDWARD B. WELCH. For Coroner, F. B. PHILPOTT.

If the sore-headed bull-dog publisher of the Chariton Democrat will tackle the "hind end" of the Courier's "blind mule" the dog will likely get "that little balance" kicked out of him, due the mule on a settlement.

Hale a last farewell. It supported Hale for the nomination, but when Mansur was nominated it gave him a willing support. Since Hale wrote that circular the Mercury denounces him as a traitor to his party.

The Democrats of Saline county do not bolt or scratch. They had just as soon have the honor of families traduced as the name bolter written after their names. John B. Hale should have been raised in Saline, where every Democrat is a gentleman.—Slaters Rustler.

Hon. D. H. Hammond, who represented this county in the Missouri legislature elected in 1878, and who for several years past has been a citizen of Bentonville, Ark., has been nominated by the Democrats of his district as a candidate for the state senate. He is sure of election.

The question that puzzles some people most just at this trying time is, whether Col. Hale has gone to the Republicans, or whether the Republicans have come to him—how is it anyway? Asks the Sullivan Standard. Dunno, better investigate.

Col. Hale has greatly pleased the Republican all over the district. They know they cannot elect a congressman and they hope that the bolt possibly will amount to something. They will find in the end that they will not gain anything by aiding a bolter.—Sullivan Standard.

During the playing of a game of ball near Houston, in Texas county, last week a quarrel sprang up between two of the players. The affair was settled at the time but was renewed at a dance a few nights thereafter and resulted in the shooting of four men, two of them mortally, the principal parties engaged are reported as being drunk at the time.

After a very bitter and protracted contest in the Sixth Congressional district the losing candidates, Messrs. More and Cosgrove, wrote the nominee, Hon. John T. Heard, congratulatory letters pledging him their support. This is Democratic as well as generous. Had our defeated pursued the same course we have no doubt it would have been better for all concerned.

Col. Eberman, a Democratic lawyer of Macon, has become an independent candidate for prosecuting attorney, against R. G. Mitchell, the Democratic nominee. No reason is assigned for the strange course of Col. Eberman. He was not a candidate previous to Mr. Mitchell's nomination. We fear this thing of "independent candidates" is becoming rather numerous of late.

A CORRESPONDENT of the Milan Republican in reporting Col. Mansur's speech at a picnic in Sullivan county, credits the speaker with these words—"The East is largely a loaning class, and the West a borrowing class, therefore their interest conflict with each other."

Then the correspondent says, "This is the first time we ever heard of the interests of the lender and borrower conflicting with each other." It occurs to us that even a small modicum of what is called common sense ought to teach a man something, whether he ever heard of them, or not. It is easy to be seen there is conflict of interest between the lender and borrower. It is to the interest of the lender to get as high rate of interest for the loan of his money as possible. It is to the interest of the borrower to get the use of the money at a low rate of interest, hence, there is a conflict of interests in a high and low rate paid for money. It is to the interest of the lender to get 10 per cent. for his money, if he can get it instead of 5 per cent. vice versa, it is to the interest of the borrower to pay 5 per cent. for the use of the money instead of 10 per cent., and both parties will take advantage of a trade in this respect if they can do so. If money is very plentiful and the demand light, interest is at a low rate. If money is scarce and a strong demand the rate of interest is increased.

With the view of making money plentiful and creating a low rate of interest, the plan of paying out the surplus millions in the national treasury has been advocated by one class of our citizens, while the class that has money to loan has favored keeping as large a balance in the treasury as possible. Yet the correspondent alluded to has never heard of a conflict between the interests of the parties named.

DOWN WITH TRADERS We hear it stated that some attempts are being made to effect a trade of votes on the county and congressional candidates, and that in one or two instances the contract has been made whereby such trade is to be consummated at the polls. Now, we wish to lift a voice of friendly warning to those who may have been indiscreet enough to offer to make such a trade. You are dealing with edged tools that cut both ways. The county nominees are just as important in the eyes of the Democrats generally as is the congressional nominee. If you trade off your vote for a county candidate, in order to get even some friend of the county candidate may make a trade on congressman. We will guarantee if it should become known that trading is being done there will be nothing gained to the parties that inaugurated the scheme.

The Brunswickers of last week seems disposed to object to being led by the young editor of the Cunningham Utilitarian, in Democratic paths. The editor tells us he has lived within this Congressional district for twenty years, which he thinks is sufficiently long to entitle one to dictate its affairs, whereupon the Brunswickers proceed to ask how long he has been a Democrat, which we suppose will be answered in due time. In addition to the Brunswickers' question, we would like to ask if there are many of his near relatives that are, or ever were Democrats. Some people go a great deal on blood. They say "blood will tell." It may be the editor of the Utilitarian is a Democrat, but he seems not to be acquainted with the Democratic ways, else he would not be using his utmost endeavors to defeat a Democratic nominee for congress.

We understand the proprietors of the gallon houses in Huntsville have come to grief. Instead of gallon houses, it seems their houses have been saloons in fact. Two of the proprietors were indicted by the late grand jury 162 times and required to give bond for \$100 in each case to insure their appearance at the next term of the circuit court. 162 indictments against a fellow and a bond of \$16,200 is no small item in the journey of life. Let us have a vigorous enforcement of the law, then so much talk about prohibition will cease.

The following ticket was nominated by the Democrats of Linn county last week.—Representative, Geo. N. Elliott; Sheriff, G. K. Denbo; Circuit Clerk, S. A. Field; County Clerk, B. A. Jones; Recorder, J. H. Craig; Treasurer, E. C. Prewitt; Coroner, Dr. Robert Haley; Prosecuting Attorney, A. W. Meyers; Judge, Judge, James A. Howe; Judge Eastern District, Beverly Nece; Judge Western District, E. G. Fetty.

SENATOR MACKAY FAVORS SUBMISSION. This is right, it is Democratic. The Democratic party has always trusted the people and will continue to do so. To say that prohibition will carry it submitted is a conclusive argument that it should be submitted. Vest and the St. Joseph Gazette may oppose submission, but the people favor it and that is reason enough why it should be submitted.—Sullivan Standard.

A COLORED policeman in Atchison, Kas., attempted to arrest another colored man, a notorious and worthless character, which resulted in the fatal wounding of both.

The first issue of the "Chariton Democrat," published at Salisbury, reached us last Saturday. Of course the most interesting items to us were devoted to the abuse of the Courier people. We know not what is the matter with the migratory editor of the Democrat, but are satisfied that any one acquainted with the facts will readily decide the articles alluded to are the result of a disordered brain or of a very bad heart. If the editor of the Courier or anyone connected with the Courier office ever wronged Mr. Lettwich we have no knowledge of the fact. We do not know what he is kicking about and we have reached a limit in his case that we have not the slightest concern whether we go to please him or not. We did not announce his departure from Keytesville in flaming headlines and as a consequence the town was draped in mourning. Had we done so we would seemingly have been raising a question that involved his veracity as he announced the week previous in the Keytesville Democrat, that he was a fixture in Keytesville. For this omission or something else of which we have no knowledge we are made the object of his malicious attack, and the calling of us by hard names of some of the respectable order of lower animals. He has not exhausted the catalogue however, and by way of a change we had a thought of calling him a skunk, but have desisted because of the unpleasantness that might possibly follow in the way of making an apology. Should we ever chance to meet this odoriferous little animal we would certainly feel like asking his pardon for ever using his name in connection with that of the editor of the Chariton Democrat.

At the Republican Judicial convention held at Milan, on Thursday of last week Judge Hall, of Trenton, received the nomination for circuit judge. A. E. Kubanks, of Sullivan, O. F. Smith, of Chariton, were candidates also, and each received a respectable vote, Smith lacked only one vote on a number of ballots of getting the nomination. On the 6th ballot Hall drew the prize. Mr. Hall is the same gentleman who opposed Judge Burgess six years ago. Judge Burgess beat him handsomely then and we know no reason why he should not do so again.

Now that Hon. John P. Phillips, one of the judges of the Kansas City court of appeals, has received the nomination for congress, we suggest Hon. Charles Hammond, of Brunswick, as a suitable person to succeed Judge Phillips on the appellate court bench. What say you brethren of the press?

Our neighbor, the Brunswicker, reached us last week in the form of a seven-column quarto, and was neat and tasty in its new dress. The enterprising proprietors have put in a new Buck & Nw. No. 2, two revolution Campbell press, with the Brown folder and paster attachment. Success to the enterprise.

"Is Mike Howe on board of this train?" asked a man, approaching an engineer who was oiling up his locomotive. "I don't know anything about your cow," replied the engineer, sharply; "I am the engineer, and not the cow-catcher of this train."

If you make your paper large and of many pages, people assert that you are greedy and presumptuous; while if you cut down its size, they cry that you have met with reverses, and will be compelled to close up soon.

B. Welch, on which he will build a dwelling to be occupied by himself. —Jas. H. Fuller has sold his interest in the store formerly occupied by himself and Ellis to Jim. We dislike to suppress anything of a public character, but will do so where the best interest of society demands it.

—A ball of hair nearly round and almost solid, about 3 inches in diameter, was taken from the stomach of a five weeks old calf, killed at Bain & Haysler's slaughter house on Friday. How it came there is one of the mysteries of nature. Can any of our scientific men explain it? —A large number of our citizens, including the writer and his better half, went to Shannondale last Sunday to attend the dedication services of the new Christian church. When we arrived large numbers were already on the ground and more coming from every direction, and this stream of humanity kept pouring in till by preaching time there were from 1,000 to 1,200 people present, only about one-third could get inside the church building. Eld. O. A. Carr preached an appropriate sermon after which all repaired to the beautiful grove which surrounds the church on three sides, and heartily partook of a sumptuous repast, previously prepared by the good people of that vicinity. After all had eaten their fill, enough was left to feed nearly as many more. The afternoon service consisted of celebrating the Lord's Supper, and another discourse by Bro. Carr. One of the strange features about the dedication was that there was no church debt to be paid off, the only collection taken being for incidentals only. All honor to those good people for the grand work they have accomplished. We were placed under special obligations to Uncle Billy Cook and his wife and Mr. Weatherly and his wife for special efforts and kindness in our behalf. Sept. 12, 1886, will be a day long to be remembered in the history of Shannondale.

—Mr. Francis M. Smith, who is visiting friends and relatives, we understand will return to Boonville, where he will be employed to teach music during the coming winter. We would be pleased to keep him with us. I fear he is thinking about taking one of our belles with him from all present appearances. —There was quite a surprise party given to Miss Rosalia Smith, at the residence of her parents, by the young folks of the neighborhood. Miss Rosalia who has been teaching the choir at the Catholic church, at Indian Grove, returned Saturday evening and found them awaiting her return. They all seemed to enjoy themselves to the utmost. The music furnished by the Prof. and Miss Rosalia was remarkably fine.

UNCLE BEN. —We were blessed with an excellent rain on the night of the 9th. —Mr. Jasper Sears has gone to his school near Jackson Chapel. —Miss Alice Fray has gone to Roanoke, to attend school this fall and winter. —A protracted meeting was carried on at Prairie Hill church by the C. She will rent her farm here until she can effect a sale. She is a lady of many attractions and we are sorry to have her leave us. —Political cranks are in a measure controlled by the same selfish motives that govern the same characters in every other department of life. Some people believe as though they thought that their opinions were a suitable standard by which the entire universe must harmonize or else the whole machine is out of order. There is no reasonable grounds upon which they can be brought to a compromise. As for us we will do just what we said we would do before our primaries, and that was to abide the issue. We cannot control all our friends and have no desire to try. Parties are usually controlled by majorities, and when we do not happen to be large enough to measure up we will fall in the ranks of the mighty host against a common enemy. AUNT SALLY.

Were this his first trial away from home at school, we would know how to account for it, but as he is an old student from another, we do not know why he was dissatisfied.
