ALL SORTS.

Governor Fitz Lee, of Virginia, is the champion checker player in Dixie.

Thomas Sanders, aged 65, dropped dead in a hotel in Paris, Mo., Saturday of heart disease.

Gold and silver deposits are reported along the line of the Shenandoah Valley railroad in Virginia.

Mrs. Henry Cordell, wife of one of the oldest settlers of Mount Pleasant, Mo., died Saturday after a short illness.

M. Paster is to retire from active practice soon to avoid paralysis, with which he is threatened.

A German visitor to this country says he found American women to be much better educated than American men.

Joaquin Miller's little daughter Juanita has a wonderful memory, and she can repeat everything her father has written.

Lorillard's strikers were paid off at the great factory in Jersey City Saturday. The employees declare they will not give in.

Truck laying on the Salina, Sterling and El Paso railway is progressing at the rate of two miles a day in Rice county, Kansas.

Mrs. Tyler, the widow of ex-president Tyler, is very much pleased because she has just become a grandmother. She lives at Madison, Va.

William M. Rideing, the editor of the Youths' Companion, is to be married to the daughter of E. C. Backus, financial editor of the Boston Herald.

By a collision between two freight trains at Fort Riley Kas., Saturday, two freight cars were wrecked and both engines damaged. No one was hurt.

Miss Hastings, the president's niece, who assisted Mrs. Cleveland to receive on New Year, is a teacher in the Houghton female seminary, at Clinton, N. Y., and is making a ten days' visit at the White house.

Congressman J. Scranton hears a rumor that President Cleveland has been saving the Turkish mission for ex-Governor Pattison, and says in his Republican paper that if he has he is entirely justified for the delay in filing it.

The houses on deck of W. K. Vanderbilt's new steam yacht, Alva, are of steel, sheathed with teak. The bulwark stanchions are of teak, grooved out where required for frames, and let down tightly into the water-way and securely bolted. The bulwarks are of teak.

Senator Cameron, while he declined to make a public subscription to the fund for Mrs. Logan for reasons, which, he said, would be satisfactory to her, is said to have cancelled and returned to her a note of the late Senator Logan for a loan running up into the thousands.

The farm on which W. H. Rinehart, the sculptor, was born, near Westminster, Md., has just passed out of the hands of that family. They occupied it in 1783, and it has since come down from father to son. A marble quarry on the place gave Sculptor Rinehart his bent.

Ferdinand Gentner, "first man who brewed beer in America," has just died at College point, N. Y. What marvelous growth the beer business had in this one man's life time! In his youth a keg could have held the hourly output; now a foaming Niagara of beer runs down the throat of a thirsty nation.

On the ostrich farm of Dr. Sketcheley at Los Angeles, Cal., says the New York Sun, there are now thirty pair of birds in a flourishing condition and doing better in the production of feathers than in their native Africa, and are fully as prolific in breeding. The ostrich produces its first crop of feathers at the end of its first year, and every seven months thereafter its plumage is ready for market, yielding about twenty-five of the very finest feathers, besides a number of less valuable ones. The longest and finest white feathers are worth at wholesale \$4 apiece, and good feathers are worth \$200 a pound. The birds are worth some \$700 a pair, and live to a great age, in some instances it is said, as many as 80 years.

We can state it as almost a fact, says the Randolph, Mo., Republican, that the contract for straightening the Chariton river and draining the swamps along its course is made. The parties agreeing to do this job, propose to make the channel forty feet wide at the top, thirty feet wide at the bottom, thirty feet deep, with six feet levee on each side. The price to be paid is \$2.50 per acre for all land thus drained and fitted for cultivation. And the Rural World hopes the farmers will watch that piece of work and see how it turns out. The effort is a commendable one, and it will save thousands to the owners if the work is well done.—Rural World.

A crusade against saloon keepers who sell beer and liquors to children has been begun in New York, where 150,000 children (chiefly with pitchers) are said to visit saloons in two hours of an average week day.

The English government has decided to purchase 40,000 additional horses and 500,000 Mannerlicher repeating rifles, to be ready March 1.

For colds, fevers and inflammatory attacks, as well as for cholera, colic, diarrhoea, dysentery or stomach-ache, or cramps in the stomach, use Dr. Pierce's Extract of Smart-Weed, composed of best Grape Brandy, Smart-Weed or Water Pepper, Jamaica Ginger and Camphor Water.

AN ELOQUENT PERORATION.

The following is the closing passage of Rev. Dr. Talmage's sermon to newspaper men:

Well, my friends, we will all soon get through writing and printing, and proof reading, and publishing. Our life is a book. Our years are the chapters. Our months are the paragraphs. Our days are the sentences. Our doubts are the interrogations. Our imitations of others are the quotation marks. Our attempts at display are dashes. Death the period. Eternity the peroration. O God where will we spend it? Have you heard the news, more startling than any found in the journals of the last six weeks? It is the tidings that man is lost. Have you heard the news, the gladdest that was ever announced, coming this day from the throne of God, lightning couriers leaping from the palace gate? The news! The glorious news! That there is pardon for all guilt, and comfort for all trouble. Set it up in "double leaded" columns and direct it to the whole race.

"Mine fren," said a Georgia merchant to a drummer who used to frolic with him, after the former had compromised all around at forty cents on the dollar and gained a year to wind up the business, "I'm gon' to make of you er—vot you call him—brevered greditor. How vas dot?"

"Thanks, old fellow, thanks! I knew you wouldn't go back on me. How are you going to arrange it?" The merchant led him aside.

"Well," said he, closing one eye, "I want to tell you rite now that nobody vas gon' ter git a darn cent out of his pizness."

"And you call this making me a preferred creditor." The drummer's eyes could have been knocked out with a stick.

"Vy not? You know all about it now, but dem udder vellers won't fine id out for er year."

The home for overworked horses, established in London through the efforts of Miss Lindo, reaches farther than its name implies, inasmuch as it benefits man as well as beast. The object is to provide quarters where poor cabbies and tradesman may obtain rest and treatment for their animals at a moderate cost, or free of all charge, as the circumstances indicate. Horses of well-to-do people will also be treated and cared for. It has been found expedient in the present state of the finances of the establishment to drop the scheme of feeding horses to the poorer of those who make use of its benefits.

It is said that Mrs. Cleveland upon entering an opera house at Washington recently doffed her high hat, thus showing a regard for the rights of other people—a species of property that all women do not possess. Several other ladies followed her example. This is a consummation that has been devoutly wished for from time immemorial, and Mrs. Cleveland deserves the thanks of a long-suffering public for the innovation.

Cuts.—There is a very simple and inexpensive remedy for cuts and bruises on horses and cattle at the command of almost every one. It is nothing more than to apply to the wound with a common paint brush lime fresh slaked of the consistency of thick cream. Cover the wound with it as thickly as possible, and repeat daily or oftener if necessary. In a short time new flesh will form and the wound heal with hardly a scar.

It is generally believed in the political circles of Kentucky, that Speaker Carlisle will be a candidate for the United States senate to succeed Senator Beck. He has a great many friends who would like to see him in the senate, and, as Mr. Beck has lost none of his popularity among the rural statesmen, a long and bitter fight is expected to take place when the time comes for the next senatorial election.

Last week the Christian church, three miles north of Parsons, Kas., was totally destroyed by fire. The origin of the fire was a mystery until Friday, when a half-witted young man named Ruby Coffman confessed that he had set the building on fire to warm the cattle that were shivering with cold in the pasture near by. The young man was arrested and lodged in jail at Erie.

"A boy has been born in Kansas with eyes in the back of his head," says one of the exchanges. There is an eternal fitness of things in the operation of nature. That boy has not made his advent before his time, but he will serve his purpose. When he grows to man's estate he will be a grand man to watch prohibition drug stores.—Carrollton Democrat.

"Ah, Charlie," she murmured, as they drove along the moonlit road, "am I very dear to you?" And Charlie, as he did a little sum and mental arithmetic, in which a team and his small salary very largely figured, softly answers, "Yes, very dear."

The reduction of internal revenue and the taking off of revenue stamps from Proprietary medicines no doubt has largely benefited the consumers, as well as relieving the burden of the home manufacturers. Especially is this the case with Green's August Flower and Boschee's German Syrup, as the reduction of thirty-six cents per dozen has been added to increase the size of the bottles containing these remedies, thereby giving one-fifth more medicine in the 75 cent size. The August Flower for dyspepsia and liver complaint, and the German Syrup for cough and lung troubles, have, perhaps, the largest sale of any medicine in the world. The advantage of increased size of the bottles will be greatly appreciated by the sick and afflicted in every town and village in civilized countries. Sample bottles for 10 cents remain the same size.

To remove old paint and varnish from wood and iron, mix one part by weight of pearlash with three parts of quicklime by slaking the lime in water and then adding the pearlash, making the mixture of about the consistency of putty. Lay the above with an old brush over the whole of the work required to be cleaned; let it remain fourteen or sixteen hours, when the paint can easily be scraped off.

An excellent exercise for the chest is simply the steady inhaling of air at the nostrils until the lungs are fully distended, holding the air there for a while, and then slowly expelling it. A time-keeper is useful in this exercise, so that its effect in improving the capacity of the lungs and increasing the power of the breathing apparatus generally may be tested.

A new use for the tobacco plant is said to have been discovered. Its stems and waste, it is claimed, are equal to linen rags in the manufacture of paper. Tobacco waste costs less than \$10 a ton, linen rags \$70 to \$80. There is no expense in sorting the former and very little shrinkage, as against the loss of one-third of rags.

In all fish-ponds, large or small, only one kind of fish should be allowed at a time; if many varieties of fish are mixed in the narrow limits of a pond, they not only come to little good, but they devour each other and thereby encroach on the privileges of their proprietor.

Four two quarts of boiling water over one ounce of powdered extract of logwood, and, when the solution is effected, add one drachm of yellow chromate of potash and stir the whole well. When rubbed on wood, it produces a pure black.

Arsenic is put in lead shot to facilitate the process of finishing. It makes the shot slightly poisonous. Game that is kept for a time with much shot in it might be poisonous from both lead and arsenic.

When it becomes necessary to trim a piece of rubber, it will be found that the knife will cut much more readily if dipped in water.

THE NEW QUININE Kaskine. WHAT THE PHYSICIAN says about it in Rheumatism.

MALARIA, DYSPEPSIA. NERVOUS DEBILITY, Liver, Lung and Kidney Diseases.

The eminent and celebrated Dr. Gleason writes: THE KASKINE CO.—DEAR SIRS.—The first greatest success I had with Kaskine were in chills and fever, malaria, nervous debility, rheumatism, dyspepsia, and liver diseases, and I considered at that time it was undoubtedly the best medicine ever discovered, but I was even then unfamiliar with its really wonderful powers in curing all the other germs diseases and disorders, particularly where the blood had become diseased or impoverished and the digestion impaired. Strictly speaking, Kaskine is the only blood purifier we have. I use it also very largely with unfailing success in all diseases peculiar to women and children. In over 300 cases I have cured there has never been the slightest bad effect following its use, and it is far superior to any tonic or nerve medicine ever known to the medical profession. Yours Truly, L. M. GLESSNER, M. D., 369 E 121 St. N. Y.

Prof. W. F. Holcombe, M. D., 54 East 25th St., N. Y. (late Prof. in N. Y. Med. College) writes: "Kaskine is superior to quinine in its specific power, and never produces the slightest injury to the hearing or constitution."

St. Francis Hospital, N. Y.—"Every patient treated with Kaskine has been discharged, cured."

Bellevue Hospital, N. Y.—"Universally successful."

St. Joseph's Hospital, N. Y.—"Its use is considered indispensable. It acts perfectly."

Kaskine is pleasant to take and can be used without special medical counsel.

SWIFT'S SPECIFIC. About twenty years ago I discovered a little sore on my cheek, and the doctors pronounced it cancer. I tried a number of physicians, but without receiving any permanent benefit. Among the number were one or two specialists. The medicine they applied was like fire to the sore, causing intense pain. I saw a statement in the papers telling what S. S. S. had done for others similarly afflicted. I procured some at once. Before I had used the second bottle the physicians could notice that my cancer was healing up. My general health had been for two or three years—I had a hacking cough and spit blood continually. I had a severe pain in my breast. After taking bottles of S. S. S. my cough left a little spot about the size of a half dime, and it is rapidly disappearing. I would advise every one with cancer to try S. S. S. at a fair trial.

THE SWIFT SPECIFIC. About twenty years ago I discovered a little sore on my cheek, and the doctors pronounced it cancer. I tried a number of physicians, but without receiving any permanent benefit. Among the number were one or two specialists. The medicine they applied was like fire to the sore, causing intense pain. I saw a statement in the papers telling what S. S. S. had done for others similarly afflicted. I procured some at once. Before I had used the second bottle the physicians could notice that my cancer was healing up. My general health had been for two or three years—I had a hacking cough and spit blood continually. I had a severe pain in my breast. After taking bottles of S. S. S. my cough left a little spot about the size of a half dime, and it is rapidly disappearing. I would advise every one with cancer to try S. S. S. at a fair trial.

PARKER'S HAIR BALM. The popular favorite for dressing the hair, and preventing dandruff, itching, and falling out. It is the only hair dressing that is so good for the hair, and so good for the scalp. It is the only hair dressing that is so good for the hair, and so good for the scalp. It is the only hair dressing that is so good for the hair, and so good for the scalp.
