State of Missouri vs. Hez Mitchell, was the style of a case tried in Judge Bradley's court Friday. Mitchell was accused of disturbing the peace of Lavinia J. Bucker prosecuted and the writer defended.

Salisbury has been visited by two fires since our last. Wednesday of last week the planning mill was discovered on fire and soon burned to the ground. The entire plant was consumed, on which there was \$2,100 insurance. This will not cover the loss, but by just how much we cannot say. The second fire was the dwelling of Ammon Todd, a colored man, which burned Sunday night. The insurance was \$400. The amount of loss we did not learn.

Marshal Gilchrist shot at some fellow Friday night but failed to do anything more than scare him. It seems that the marshal had arrested some one and was trying to get him out of the crowd when some one else

but failed to hit him. We are glad no damage was done and that no one was hurt. Our marshal will shoot and those who doubt it should take care.

An editor who has been out in the rural districts says that a drive through the country in any direction shows that a large amount of farm machinery, plows, etc., are yet standing in the fields where last used. Bunch's Grocery, MARCELINE, MISSOURI.

On the 21st instant we sent out subscription statements to all our delinquent subscribers, but so far we have not been reimbursed to the amount of cash paid for postage. Our delinquents may find it very convenient to treat our dues with silent contempt, but it certainly is very bad treatment considering the indulgence we have bestowed upon many of those who are in subscription arrears. To those who have responded promptly to our requests to "pay up," we acknowledge our lasting obligations and extend our profound gratitude.

Mayor Scott is the kind of an official that is always "going to do something" but never carries out his promises of conducting the affairs of his office on a higher plane. His honor is doing both himself and the citizens a great injustice by longer continuing in office. He ought to resign. Capt. Scott would make a much better private citizen than he does a mayor. In case he interviews you on the subject tell him candidly and honestly what you think of his resigning.
