

Border County Notes.

Thomas B. Alexander of near Linneus, aged 68 years, died of heart failure March 26th.

The township election at Linneus resulted in favor of the Democrats with the usual majority. The officers elected in most of the other townships were mixed, a majority of them being Democrats.

Col. Nell, for several years connected with the editorial staff of the Marcelline Journal, died of consumption in Marcelline on Wednesday of last week, aged 37 years, leaving a wife and one child to mourn their loss.

A. Davis, a painter, was bitten by a dog about six weeks ago, but thought nothing of the matter until a dog developed what was supposed to be hydrophobia about a week later. The wound, which was on his right hand, healed quickly, but about two weeks ago his arm commenced paining him. The pain grew more severe last Saturday when he secured a "mad-stone" from a man by the name of Callahan, living twelve miles south of Marcelline. The stone was still adhering to Mr. Davis' hand yesterday, and the pain had almost entirely disappeared. Mrs. Davis was also bitten by the same dog, but has as yet felt no discomfort from the bite. Mr. Davis is positive that the dog had hydrophobia, and killed it.—Brookfield Gazette.

SALINE.

James Draper, marshal of Slater, died in that city the 24th of March, aged 43 years.

At Slater a business men's organization, whose object is to boom the town, has been effected.

The dead body of a newly-born infant was found on the railroad track in the western part of Slater on Saturday of last week. The verdict of the coroner's jury was that the infant came to its death by means unknown. Eliza Crawford acknowledged the infant to be hers, but said it was a dead.

Messrs. Martin and Bell, two prominent citizens of Marshall have been arrested on a charge of making false affidavits to a pension claim for a woman whom they had known as a widow and thought was a widow still, but who turned out to be married, and had kept the fact a secret from the witnesses in order that she might get a pension.

A certain Slater man, whose name we were ashamed not to tell, was recently very sad because his wife had gone on a visit, which she would not shorten in spite of his appeal to come home. He finally hit upon a plan to induce her to return. He sent her a copy of the Index with one item clipped out, and when she wrote to find out what it was he had clipped from the paper, he refused to tell her. The scheme worked admirably. In less than a week she was at home to find out what it was that had been going on that her husband did not want her to know about. How easily the female sex is fooled.—Slater Index.

The Missouri river rose two feet in 24 hours at Glasgow one day last week.

A lodge of Knights of Pythias was instituted at New Franklin one night last week.

Mr. Jeff Million, a citizen of Howard county since 1826, passed away the 25th of March.

It is expected that the new Central college building at Fayette will be completed in June.

C. B. Crawley of Keytesville and P. S. Rader of Brunswick, two Chariton county attorneys, attended circuit court at Fayette last week.

Several cattle feeders in and around Glasgow have been purchasing feeding cattle in other parts of the state recently and will feed them for the June market.

From the little station of Steinmetz, in Howard county, 16 car loads of stock and grain have been sent away in the last month, and \$150 worth of tickets sold.

Henry Shiflet and Jno. Loeby delivered to Shafroth, Boyd & Co. of Fayette last week their crop of tobacco raised on four acres of ground for which they received \$208.60.

Mrs. Elizabeth Amick of Fayette is 80 years old, and rides horseback. Her hair is as black as when 20 years old. She has 64 grand children and 12 great grand-children.

J. F. Phillips of near Boonesboro presented the Fayette Advertiser last week with a monster beet. It was 19 inches long, 27 1-2 inches in circumference and weighed 16 1-2 pounds.

W. L. McAuley became enraged at a saloon-keeper in New Franklin and threw a rock against the plate glass front of the saloon. The matter was compromised by payment of damages.

Barney Wilhite, colored, a noted petty thief of New Franklin, was taken from the calaboose one night last week and flogged. Since then Barney has been conspicuous for his absence from that city. Flogging for petty offenses is a surer preventive than jail sentences.

We are informed that the water is lower in the Chariton than it has been known for many years, and as a consequence of the damming up of the water at its mouth, the banks of the stream are lined with dead fish, many of which are being gathered up by the farmers and fed to the hogs.—Glasgow Missourian.

The March term of the Howard circuit court convened at Fayette last Monday, week, Judge Hockaday presiding. No trial cases had been heard up to Thursday. A venire of 150 men was ordered to appear on Friday, from which a jury was to be selected to try the Harlan murder case, which was to be tried Monday following.

A special train of 10 car loads of cattle were shipped out of Glasgow Tuesday morning over the Wabash to Chicago. The consignors were Brown & Thompson and J. H. Turner, and we understand it was the finest lot of cattle shipped out of Glasgow for years—in fact, Glasgow enjoys the distinction of being a shipping point for some of the best stock sent to the markets.—Glasgow Missourian.

RANDOLPH.

The Florence hotel in Moberly is to be remodeled at an early day and put in first-class running order.

The question of reducing the salaries of Moberly officials is agitating the people of that city just on the eve of their municipal election.

The stock holders of the First National bank of Moberly have concluded to surrender their charter and reorganize under the state banking system.

On March 27th another old resident of Moberly passed away in the person of Mrs. Elizabeth Graves who was 79 years old. She was a pioneer of Randolph county.

The contract for the erection of the new school building at Moberly has been awarded to J. M. Sandison for \$21,865. Other bids for the same job ran up as high as \$28,853.

Some parties drilling a well for Judge Wayland of Moberly, having gone down 175 feet, left their drill in the well over night. In attempting to take it out the next morning they broke the rod and as a consequence lost their labor on the well and also their drilling tools.

Wm. Smith, formerly of Huntsville,

commonly called Bill Smith, at one time proprietor of the back line running from "Old Allen" to Brunswick, who has lived in Colorado for a number of years, visited his old home and friends at Huntsville and Moberly last week, all of whom were glad to see him.

Another fire occurred in Moberly on Monday night of last week. The fire started in the grocery store of Mrs. Meyers. Her stock was entirely destroyed, but was covered by insurance. Several other buildings and stocks of goods were damaged, but the prompt response of the fire company and its efficient work soon put a stop to the conflagration.

Ex State Senator Andrew Mackay passed his 76th birthday at his home in Keytesville on the 20th inst. He is one of the old-time wheelhorses of the Democratic party, and is well known throughout the state and highly respected by all acquaintances. While in the state senate he demonstrated great ability as a leader in his party and made a brilliant record as a legislator. He is one of the most capable and accomplished public men in his party, and a courteous gentleman in and outside of it. He is expected to live a happy and prosperous old age.—Moberly Headlight.

For many years there has lived on his farm near Clifton Hill, Randolph county, a very eccentric character by the name of Gunn. He owned the farm, renting out most of the land tilling only a few acres for his own supplies. He did his own house-keeping, cooking, washing, etc. Rarely ever admitting anyone into his home, one room particularly being locked and barred against all comers. The curtains were always drawn, the utmost privacy and secrecy being maintained. He had no wife, no family, talked but little and never of his affairs. Saturday last he died, the neighbors heard of it and gathered in and prepared the body for burial. On his person next to the skin was found a money belt in which were found twelve \$20 gold pieces each wrapped in many papers and rags—first a tissue paper, then coarse, then a rag—a gold watch also was found in the belt. So long had it been in the belt that the watch case was glued to the belt by the heat and moisture of his body. His age was over 60 years.—Moberly Monitor.

LIVINGSTON.

Mrs. Rebecca Moorman, mother of the sheriff of Livingston county, died in Chillicothe last week, aged 75 years.

At the late election for township officers in Chillicothe township the Republicans scooped everything in sight, with majorities ranging from 9 votes to over 200.

Porter Romsey, a 60 year old farmer living near Muddy Lane, in Livingston county, fell from a load of hay and striking the hard ground received injuries from which he died last Friday.

Mattie Charboman, an inmate of the girl's industrial home at Chillicothe, escaped one night last week, and after considerable search was captured the next day in the edge of Carroll county and returned to the home.

The friends of Elder A. M. Fisher, who a few years since was pastor of the Christian church in Chillicothe, were recently notified that he was in very destitute circumstances in Texas. Help for him was solicited from his former congregation.

CARROLL.

Alonso H. Holmes and Rosa Bates were married in Carrollton March 27th.

The Carroll papers are too full of testimony taken in murder trials this week to be newsy about other matters.

At the late township election in Carrollton the Democratic ticket was elected by old time majorities, ranging from 67 to 193 votes.

Jonathan McKinney and wife, two of the oldest residents in Carroll county, celebrated their golden wedding March 27th. Six children, 15 grand children and 1 great grand child were in attendance.

The Carrollton street railway was sold last week by the sheriff under execution in favor of W. S. Creel & Son and the Wabash railroad. These judgments were for material furnished the contractor. The road was bid in for \$6,350 by James M. Wilcoxson.

The Norborne Jeffersonian gives parents some wholesome advice con-

cerning the letting of their small boys roam the streets till 12 o'clock at night, indulging in all kinds of vices that to-day are the curse of older heads, that would do well for these parents and many others to heed.

Never before has a court in Carroll county had as much important business to transact as has this present term. Judge Rucker is to be commended for the manner in which he is pushing matters along. As he intimated at the commencement of the term that he meant business, he is sticking to it and no time is being lost.—Carrollton Democrat.

MACON.

Mr. John Clark, 80 years of age, a highly respected citizen of Callao, died suddenly the 24th of March.

Electric lights have been put into the court-house at Macon, besides other improvements on the building.

Dr. Ditzler the eminent Methodist preacher and debater from Kentucky, began a series of meetings at Callao last Saturday.

The 40th anniversary of the wedding of Mr. and Mrs. Wm. Whitehead was celebrated at their home near Macon March 25th.

The protracted meeting which has been going on at the Christian church in Macon for four weeks closed on Wednesday night of last week with 24 accessions to the church.

Charles Owens, colored, was arrested in Macon last week, charged with criminal assault upon a 10-year-old colored girl. He waived preliminary examination and was bound over in the sum of \$500 to await the action of the grand jury.

FELLOW-SERVANT BILL.

The lower house passed what is known as the "fellow-servant bill" by a vote of 72 to 36—32 members being absent or not voting. This bill was killed in the senate, 5 Democrats and 3 Republicans voting for it, and 11 Democrats and 10 Republicans voting against it.

The defeat of this measure has been the subject of much unfavorable comment by various and sundry papers of the state.

The features of the bill applied to railroads only. It made railroad companies liable for all damages sustained by any agent or servant while engaged in operating such railroad, by reason of the negligence of any other agent or servant.

The laboring men of this state have been entreating for such a law as this for years, but the railroad lobby has always been too strong for them, and will continue so to be till the people in their might give such legislators as are controlled by railroad or any other kind of lobbyists against right and justice, a back seat.

In many of our counties the scramble for office has become so disgraceful that numbers of our best men, well qualified for representatives in our legislative bodies, will not suffer their names to be used for such a position. This, coupled with the small remuneration, has brought many men to the surface not fit to make judicious legislators, and as their offices generally cost more to get them than the legitimate emoluments amount to, they are ready to barter with any body that will pay most for their votes. The people will keep an eye on the members of the legislature who voted against the fellow-servant bill, or at least they ought to do so.

Blasts by Baring.

Following are some of the trite sayings of Dr. Baring, the evangelist, who for the past two weeks has been conducting a union revival meeting in Fayette:

"The devil is not in hell, he's right here in Fayette.

"What you had better do, is to try to get away from him now.

God never made a woman to be whirled around on a man's hip in the dance.

The women were included in the baptism of the Holy Spirit as well as the men.

Jesus came to destroy the works of the devil. Ask Jesus to help you get away from the devil.

Hell is a prison prepared for the devil and his angels, and some day he will be cast into hell with all the nation, that forget God.

God has not confined himself to one way of saving men; it is not absolutely necessary for you to go to the mourner's bench to get religion.

If you believe in your heart that Jesus Christ is your savior, and God has raised him from the dead, then with your mouth make a confession of it unto salvation.

People are afraid to die, because they are afraid they will go to the devil. Why you need not be afraid you will go to the devil when you die. He's got you now.

The man that runs the Christian race must lay aside every weight. Some of these weights are the bottle, the pack of cards, the pistol, worldly amusements, such as the dance and theater.

You think the devil is in hell, that hell is the seat of his empire. No, the devil is not in hell, and he don't want to go there. He will have to be bound before we can get him into hell."

TAX COLLECTIONS.

Table with columns: TOWNSHIP, COLLECTOR, PER CENT. Lists various townships and their respective collectors and percentages.

As compared with 1893 the collections of 1894 were not as good in the aggregate as those of 1893. Some township collectors made better collections in 1894 than in 1893, but others made nothing like as good collections in 1894 as were made the previous year.

The Dakota Hot Springs.

The Hot Springs of Arkansas have long been deservedly popular, for the reason that there has been no other place that has filled the requirements of both a health and a pleasure resort. This state of affairs has changed. The Hot Springs of South Dakota have, in recent years, been thrown open to the people, and because of their delightful situation and great curative qualities, are becoming more popular every day.

The hotel accommodations are of the best—hotels with all the modern improvements and conveniences. The Evans Hotel, built of pink sand stone, with steam heat, electric lights, and every room an outside one, is easily the best conducted house between Chicago and Denver. Fine bath houses are connected with the best hotels. The rates of all the hotels are very reasonable. The surrounding country more than picturesque—it is wonderful. The marvelous "Wind Cave"; the falls of Fall River; Battle Mountain, the old Indian battle ground; Deadwood and the gold fields; and the famous Bad Lands are all within driving distance. The mammoth plunge bath at the Springs is noted as being one of the largest natatoriums in the world. So healthful are the surroundings, and so many the conveniences of this "Carlsbad of America," that it is rapidly becoming the "Mecca," not only for invalids, but for pleasure-seekers as well. The "Burlington Route" reaches there in a day and a half from St. Louis. Pullman sleepers and free chair cars on train No. 15 run to Lincoln, and from Lincoln free chair cars and sleepers run through to the springs.
