DEIED:—Mrs. Agnes Music, at her home, near Prairie Chapel. Mrs. Music had been a helpless invalid for several weeks caused by a cancer.

Her friends thought her much improved in health, but her accustomed strength and health had never returned. She gradually declined. She was the mother of two children and several step-children. Both of her children survive her. To them the heart-felt sympathy of a host of friends is extended. Mrs. Music was a woman of deep convictions. Truth took deep root in her soul. The gospel of Jesus Christ was held by her with the firmest grasp. Her remains were laid to rest in the Elliott cemetery to await the resurrection morn. Our comforting hope is that her husband and children will meet her in the happy land. Rev. Edmonson, of Brunswick, conducted the funeral services at Prairie Chapel.

DEIED:—The painful news of the removal of Mr. and Mrs. Chas. Barnes' 6-months-old son from this world has just reached us, and we hasten to express our affectionate sympathy with the bereaved parents under so severe an affliction. Their child has gone to Him who said, "Suffer little children to come unto Me," and we know not how soon we may be called to that heavenly home which is always bright and fair. His generous, loving, truthful spirit, with his mind of untold wealth, can be with them only by the eye of faith. No doubt he will be a ministering angel in their home. The burial took place at the Indian Grove Presbyterian cemetery last Thursday, April 30th. The sorrowing relatives and friends have the comforting hope that some sweet day they will meet Johnnie again in the better land. We add no more but our fervent prayer that the parents may be divinely comforted in their sore trial, and be aroused from their grief by claims of duty to those whose welfare demands their care.

## My

Nerves are weak, many people say, and yet they do not seem to know that they are literally starving their nerves. Weak, pale, thin blood cannot give proper sustenance—that is why you are nervous, tired, exhausted. The cure for this condition is to purify, vitalize and enrich your blood. Take Hood's Sarsaparilla fairly and faithfully, and the rich, red blood, which it makes, will soon feed the nerves the elements of true strength they require; they will cease their agitation and will resume their proper place—being under the control instead of controlling the brain and body. Read Miss Bartley's letter:

"I want to express my gratitude for what Hood's Sarsaparilla has done for me. My health has been very poor for three years, due to trouble with my Kidneys. I was nervous, had pains in my back. I cannot tell what I suffered. My eyesight became affected and I was so despondent I did not have any interest in life. I had two physicians, but my complaints became worse. I was told that I was affected with Bright's disease. A relative urged me to try Hood's Sarsaparilla. I did so and in a short time I began to notice a change in my condition. Things began to appear brighter, my eyes improved and

#### Reminiscent Old Timers.

Three gentlemen, who lived in and near Brunswick back in the '50's, were in Keytesville Wednesday and in our presence talked over reminiscences of those halcyon days. The gentlemen named were Messrs. Charles Hammond and A. L. Wires, still of Brunswick, and Mr. Elias Elliott, now of the Forks of Chariton. Charlie Hammond is not usually regarded as a pessimist, but in comparing the good things of then and now he said: "So far as I am concerned I would gladly welcome a return of those times. I boarded with 'Uncle Jo' Howerton and taught school for nine months. I had a room 20 feet square in which I slept in a good feather bed. The table was furnished with all the substantial, including ham and eggs, as well as many of the delicacies to tempt the palate. Every morning in cold weather old 'Uncle Jim' came into my room and made a rousing fire in an old chimney fireplace, for all of which I only paid \$5 per month for board."

"Yes," said Brother Wires, "and if you wanted to borrow \$100 all you had to do was to make your wants known to some old farmer, who was always glad to accommodate you. They never thought of such a thing as an ironclad deed of trust, as they do now, and they always had the money too."

"Uncle Elias" Elliott chimed in and said: "Times were better then than now. People were honest, more accommodating and more sociable. They used to go ten miles and take their ax to help raise a log house. They have no occasion to do that now, but they have become so selfish they would not do it if it was necessary to be done to help a fellow along."

In talking about the "old timers" in and around Brunswick, they said "Dr. Prosser was the only one left."

ion of Providence that we do not have to always look upon mutations in this world that are not to our liking. In the use of the means of grace placed within our reach we may become inhabitants of a better country, where change is unknown and where the inhabitants never say, "I am sick."

Father Honarious Bush, of Wien, who used the beautiful ritual of his church in the ceremony. The attendants were Mr. Peter Gladback and Miss Lena Senn. After the ceremony the bridal and guests repaired to the home of the bride's parents, where a bountiful repast was served, and a good time had the balance of the day. On Wednesday a grand feast was prepared at the home of the parents of the bridegroom where, as on the day before, there was a large number of guests, and a large fund of enjoyment. Upon the whole the nuptials of this worthy young couple furnished the most enjoyable event in the history of this vicinity in many years.
