During a recent visit to Cunningham the writer called in at the post-office. He found the postmistress to be a lady of great intelligence and an exceedingly pleasant conversationalist.

Catherers, K. of R. and S.; Geo. W. Southerland, M. of T.; William W. Watterson, M. of E.; S. E. Robinson, M. at A.; George Liseter, M. of W.; Leo Minor, I. G.; Ed. Baker, O. G. The ceremony was performed in the presence of the wives and families of the members and a few especially invited guests.

After the installation the evening was given up to social enjoyment, vocal and instrumental music, etc., winding up with a "cake walk," which was participated in by about a dozen couples comprising the very elite of the town, and the prize was awarded to Mrs. Florence Northcott and her youthful partner, C. J. J. Martyr. The lodge room was decorated with the colors of the order—blue, yellow and red—which were tastefully and artistically draped. The refreshments consisted of ice-cream, cake and oranges. The affair was a complete success and reflected great credit upon the management.

CUBAN PROBLEM.

Powerful Influences at Work to Secure Independence for the Island.

THE DESTITUTION IN CUBA.

The Monetary Commission Given a Hearing—Bills Introduced—Prospects for Statehood—Aransas Pass Improvement—To Publish the Pension Roll.

WASHINGTON, Jan. 13.—Private information has been sent to the state department and members of the foreign affairs committee in congress going to show that powerful influences are at work to secure the independence for Cuba. Spain has issued bonds to the gross amount of about \$400,000,000, based specifically upon the resources and revenues of Cuba. These bonds are held in large part in Great Britain and France. Some of the largest syndicates in those countries, it is said, have at last become convinced that these bonds are about to become valueless unless the United States in some way guarantees their payment. They are convinced that the island is entirely devastated and that it can be restored only by the influence of a strong commercial power. Representations have already been made to this country by certain strong commercial interests to secure active intervention under present conditions. President McKinley could not intervene except as an act of hostility to Spain, for the Spaniards have acceded to every demand made by this government almost before it was presented. It has been intimated, however, that if the United States should send its warships to Havana, stop the war, and agree to pay the \$400,000,000 of the Cuban loan, both France and Great Britain would sustain this country, and therefore the Sagasta government could appeal to the people of Spain and show that the loss of Cuba had come about by the influence of France and Great Britain rather than by the dictation of the hated Yankees.

WASHINGTON, Jan. 13.—United States Consul General Lee reports to the state department that according to his advice no less than 200,000 people on the island are in the last stages of destitution and are wholly dependent upon charity. To feed these people on a ten-cent ration per day would cost \$20,000 daily, which sum is double the amount so far received in contributions by the state department. In the opinion of Gen. Lee 20 per cent. of these poor people are surely doomed to death from starvation and disease. In such a state of affairs the existence of any form of organized government is threatened and the autonomy plans of Spain command little attention.

WASHINGTON, Jan. 13.—The monetary commission was given a hearing yesterday by the house committee on banking and currency, on the commission's bill proposing a comprehensive revision of the currency. Ex-Senator Edmunds, of Vermont, chairman of the commission, headed the delegation and with him were ex-Secretary of the Treasury Fairchild, of New York; J. W. Fries, of North Carolina, representing the gold democratic sentiment of the south; T. J. Bush, of Alabama, and Judge K. S. Tyler, of Indiana, representing the middle west. Secretary of the Treasury Gage was also present, accompanied by the solicitor of the treasury. The hearing attracted much interest, a number of the members of the house being present.

WASHINGTON, Jan. 13.—In the senate yesterday Senator Allen, of Nebraska, introduced a bill extending the territorial limits of Oklahoma so as to include the Indian territory. Mr. Barthelemy, of Missouri, introduced a bill in the house granting to the Nebraska, Kansas & Gulf Railroad company the right through the Indian territory. Mr. Consins, of Iowa, has introduced a bill to grant pensions to soldiers and sailors confined in so-called confederate prisons. It provides a pension of \$2 for each day each soldier or sailor was confined in prison, and, in addition, a pension of \$12 a month. Mr. Harris, of Kansas, presented a petition of 49 citizens of Kansas protesting against the passage of the Sherman-Cullom anti-scalping bill.

WASHINGTON, Jan. 13.—The prospects of statehood for the territories are not encouraging. At the meeting of the house committee on territories yesterday Delegate Ferguson, of New Mexico, obtained a favorable vote on the bill to locate the capital permanently at Santa Fe. He then made a speech for statehood, and after listening to him the committee agreed to take up the question of reporting bills admitting New Mexico and Arizona one week from yesterday. Mr. Ferguson urged that if the committee was not favorable to statehood, justice demanded legislation which would turn over to the educational institutions the public lands to which they would be entitled if New Mexico was admitted.

WASHINGTON, Jan. 13.—Congressman Beach, of Ohio, introduced a bill in the house yesterday providing that the entire pension roll of the government be published in March of each year and that a copy of the printed roll be posted conspicuously in every post office in the United States. The bill further provides that a fine of \$25 be imposed in each case where the roll so posted is altered or defaced.

WASHINGTON, Jan. 13.—Representative Kleberg yesterday introduced a bill of the utmost importance to Texas, making an appropriation of \$2,000,000 for a deep-water channel across the bar at Aransas pass and providing that the government take control of same. The secretary of war is authorized and directed to enter into contracts for the work.

A wreck occurred on the Bluff line near Jerseyville, Ill. A freight train was derailed by a washout and seven cars were wrecked.

SOME BEAUTY RULES.

Modern Recipes for Attaining Good Looks of Varied Kinds.

To Get Thin.—Eat a great deal of chopped meat without any potato in it. Drink little fluid of any kind except strong tea. Exercise a great deal without drinking and do not eat bread, butter or candy. Lemonade, acid drinks of all kinds, and saline mineral waters are excellent. Drink a glass of clear water before breakfast.

To Get Fat.—Eat vegetables and sleep after each meal. Go to bed at nine o'clock and lie in bed half an hour after you wake up. Laugh a great deal. Drink water by the pint or the quart if you can. Drink weak and sweet tea with plenty of milk in it. Take cod liver oil and sweet oils as much as you can. Eat until you feel as if you would burst at the table. Put plenty of butter on your bread, and do not be afraid of ales, lagers and sweet wines. This will guarantee a gain of five pounds a month, and, if you can sleep a great deal, of double that amount.

To Have a White Skin.—Eat no meat at all. Become a vegetarian; they always have a beautiful skin. Once in six weeks or so eat a meal of fresh meat. This does away with the tendency to scurvy—the curse of the vegetarian. Drink as much water as you can, eat little grease, and touch no tea or coffee. Your breakfast may be oatmeal and oranges; your dinner fruit, nuts, fruit tea—preferably quince tea—graham muffins, cauliflower croquettes, marmalade and dishes of stewed vegetables. The diet is not so bad when you get used to it. In large towns you will find one or two restaurants catering to such as you.

To Become Very Muscular.—Walk a great deal, carrying something always in the hands. This develops the arms. To make hooping good if one were brave enough to do so in public. Practice lifting a little every day. Never strain or tire yourself. Eat meat, drink milk, and practice bending backward, forward and sideways every day. At night rub about a tablespoonful of brandy or rum into your skin on the under and tender part of the arms.

To Have Plump Hands.—Rub them with sweet oil at night and morning. Exercise them by rubbing together. Never wear tight sleeves or small gloves.

To Keep One's Feet Small.—This is difficult. The first sign that one has passed youth is the tendency to wear a larger pair of shoes—and this is necessary. The feet spread and really grow. To remedy this wear shoes as long as seem necessary. Never wear old slippers around the house, unless they are snug in the width, and be careful of corns. These are never necessary while the chiropodist exists.

To Have a Fine Color.—Wash the face with the juice of preserved strawberries in the winter, and in summer rub a ripe berry on the face.

For a Smooth, White Skin, Without Dieting.—Bathe the face daily with buttermilk. A preparation of tincture of benzoin and rose water is excellent for whitening purposes. There are very good prepared creams, but these are never cheap. Do not go under a dollar for them if you want them compounded of fine and pure materials.

To Have One's Garments Sweet-Scented.—Make sachet bags and slip them in the linings of dresses. They will, if good at first, keep their scent for a year or more. Fold the bodies of the scented gowns and lay them away in air-tight boxes. This fills them with scent.—Philadelphia Times.

ENGLISH STUFFINGS.

Recipes Which Are Excellent and Not Found in the Cook Books.

Here is a recipe for turkey and chicken stuffing which the senders says is very different in its results from those given in the cook books:

Crumble or grate the inside of a stale loaf or more of bakers' bread. Add pepper and salt, the grated rind of lemon, and to one loaf half the juice, to two loaves all of it; a little grated nutmeg, a handful each of finely cut parsley leaves and fine white celery leaves; thyme, sweet marjoram and summer savory, using the leaves in preference to the ground, and twice the quantity of thyme as of the marjoram or savory. Mix all together dry and fill the crops, putting all the remainder into the bodies of the fowls. As the filling is being done, add small pieces of good butter, which, together with the proper basting, will give the dressing sufficient moisture.

This dressing is also excellent for roast leg of pork when you do not want to simulate duck or goose with it.

"The recipe for the good old English stuffing for ducks or geese," the sender adds, "I never see in our cook books, and do not find it used upon my neighbors' tables. People spoil these birds with soft bread and muss."

This is the old recipe for stuffing for geese, ducks, or a leg of pork:

Take equal parts of parboiled potatoes cut into inch-square cubes, and onions cut up. Strain dry, add pepper and salt and sage leaves crushed up. Prepare enough of the mixture to fill the birds or pork with it and to lay some of it under them in the roasting pan. Keep this extra filling under the birds. Dish it separately, and serve it at the table with the rest.—N. Y. Sun.

Date Gems.

Separate two eggs, beat the yolks and add half a pint of milk, half a cup of finely-chopped dates, a cup and a half of whole wheat flour, a tablespoonful of melted butter and beat thoroughly; add one teaspoonful of baking powder and then stir in the well-beaten whites of the eggs. Bake in hot, greased gem pans in a quick oven for 20 minutes.—Boston Budget.

A fibrous preparation of steel, made in the same manner as the so-called "mthermal wool," by passing an air blast through molten steel, is coming into use for cleaning, polishing, etc., instead of sandpaper.

Those Dreadful Sores

They Continued to Spread in Spite of Treatment but Now They are Healed—A Wonderful Work.

"For many years I have been a great sufferer with varicose veins on one of my limbs. My foot and limb became dreadfully swollen. When I stood up I could feel the blood rushing down the veins of this limb. One day I accidentally hit my foot against some object and a sore broke out which continued to spread and was exceedingly painful. I concluded I needed a blood purifier and I began taking Hood's Sarsaparilla. In a short time those dreadful sores which had caused me so much suffering, began to heal. I kept on faithfully with Hood's Sarsaparilla, and in a short time my limb was completely healed and the sores gave me no more pain. I cannot be too thankful for the wonderful work Hood's Sarsaparilla has done for me." Mrs. A. E. GILSON, Hartland, Vermont.

Special Notice.

Having concluded to quit the wood-work and blacksmithing business, I will give my attention altogether to the painting and trimming of buggies, wagons, etc., just across the street east of J. P. Tippet's blacksmith shop. I expect all accounts due Keeting & Walter to be settled with me during the month of January, 1898. There are many names on my list, and I would appreciate it very much if all would call on me at above place. Remember, it is a vast amount of trouble for me to see each one. Please make it a personal matter to see me and help me out, so that I can meet my obligations. Having earned the money once by honest work, it is wrong for you to make me earn it again in collecting it. So please come around and settle your accounts. "Every little helps." Thanking all my patrons for past favors, and hoping you will continue to patronize me in my present business, I remain, Truly yours, EDWARD WALTER.
