An exchange is responsible for the following, but you are not obliged to believe any more of it than you want to: The Waukon girl who expressed much sympathy for the farmer because of his cold job of harvesting his winter wheat is equal in agricultural knowledge to the one who expressed a desire to see a field of tobacco when it was just plugging out. Dr. Potter and staff of the Medical Institute of Philadelphia, Pa., and Kansas City, Mo., lectured to a large audience last Monday night.

The doctors are graceful and forceful speakers and held the large audience in close attention while they explained the theory and usefulness of their wonderful discoveries. Many promises were made which seemed impossible to believe, but when the doctors invited those who were hard of hearing to come forward and be cured, Thomas Jackson and Y. C. Blakey, came upon the stage and were made to hear a whisper in a few seconds.

The doctor then called for cripples on crutches. Pap Minser, who had been suffering with that giant disease, RHEUMATISM for many years, went forward and was operated on for twenty minutes with medicine and walked off home free of pain and stiffness followed by the applauding and wondering crowd.

To say that vast audience was astonished and wild, would be putting it mildly. The doctors were warmly congratulated. It seems like a dream, but it is real. Ministers and doctors were in the audience and seemed as much pleased as any.

They treat successfully the following diseases. Big Neck, Bladder and Kidney Diseases, Rheumatism, scrofula, Loss of Manly Vigor, all Throat and Lung Diseases, and all chronic diseases. Fat folks reduced.

Piles and Cancers cured without the use of a knife.
