Unless the COURIER is given more encouragement in the way of advertising we shall be compelled to do away with the all-home print feature and adopt a patent in the near future. As it is now our paper is costing us more money than we are getting out of it, hence if the COURIER is not given more patronage by the business men of the town in which it is published there will be nothing left for us to do but to get out the kind of a paper our patronage justifies—that is, such an one as will not exceed the cost of running it.
