Fail once, try twice.
The friend easily made is usually easily lost.
Childish hindrances are often a parent's best help.
Some men imagine that their surliness is sedateness.
The man who goes out looking for trouble usually meets it half way.
The man who abuses his stomach is the man who abuses modern cookery.
"The wages of sin is death," and there is no use trying to have them reduced.
The prayers of some people sound very much like a demand for a reduction on the gas bill.
Life is like a nutmeg grater—you have to rub up against the rough side of it to accomplish anything.

The proudest day in the life of a boy's parents is when he brings home his first month's wages.
Instinct is what tells a woman five years afterwards just what people didn't send her wedding presents.
Some men have never yet found a cushioned pew as easy a seat as a wood-bottomed chair in the opera house.

As soon as a girl is interested in a man she begins to burn Chinese incense and wear pretty stockings when he comes to see her.

A woman can never enjoy a visit very much, because she is always worrying for fear her husband will use all the napkins for wash rags while she is away.

You can always tell about how much smaller a woman's bust measure is than what she says it is, by the number of sizes too big she tells you the shoes she has on are.

When a girl is 16 she thinks most about a man's hair and eyes; when she's 20 she thinks more about his clothes; when she's 30 she thinks most about his bank account.

Deafness Cannot be Cured.

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surface.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars free.

A race riot was narrowly averted at Huntsville Sunday morning by the quick and timely action of Sheriff Collins. A riot which the Herald thinks would have been a bloody one. The trouble originated between Rice Eubanks one of Huntsville's popular barbers and Frank Wilson, a man and worthless negro. After a little mix-up Wilson was lodged in prison, also three other sons of Ham who were threatening trouble at the depot.

The Randolph-Macon Coal Co. has spent half a million dollars in installing electric cutting machines in its mines. These machines work by cutting under the coal in the clay, and the coal is wedged or broken down, giving a product more free from slack, fine coal and dirt.

Huntsville and vicinity were visited by a severe hail, rain and electric storm Friday evening. One young cow was killed by lightning, much damage was done to the growing crops and fruit and frying size chickens were killed by the hail which fell several inches deep in some places.

E. H. Whitham of Rankin, Ills., one of the owners of the large Whitham-Rankin-Durham ranch, and after whom the new town of Whitham was named, was in Mendon last Friday. For several days Mr. Whitham has been superintending the harvesting of the immense wheat crop raised on their ranch this year. Three threshing machines were used last week, it is estimated that the wheat crop this season will reach 25,000 bushels. Most of the wheat is of extra fine quality—Mendon Constitution.

Again in the Meshes.

Col. Jim Clark, the "Uno" man, down at the old fish trap, is again in their toils for selling liquor. After beating the state in five cases against him at Wein, he was again arrested and this time he will be tried at Salisbury. Clark sells a peculiar brand of medicine. In order to determine just exactly what it was his attorney wrote to the brewers who made it for a certificate of its character. They replied there was a considerable difference between "Uno" and plain, ordinary beer. They said that when making beer they stirred the hops with a wooden paddle and that when manufacturing "Uno" they used a wooden spoon. They generally tried to keep the vats separate. A temperance man man, they said, could get as happy on "Uno" as on beer, and still preserve his reputation. On the introduction of this affidavit the jury cleared Jim from all charges. His luck, however, may change in Salisbury.

The Farmer Boy in the Triplett Tribune says Joe Duffield was so well pleased over the turn out of his wheat that he purchased a new pair of shoes, and Andrew Wohlgenuth bought himself a new straw hat.

From Cecil Wayland, our grain dealer, we learn says the Triplett Tribune, that he has shipped out twenty carloads of wheat since July 12th. He says the quality of this year's crop is the best he has ever bought.

The Sumner Star's correspondent from Cunningham says: Sixteen rattlesnakes were killed in one field east of town Friday and Saturday. One rattler fastened its fangs in Pete Thompson's pants leg. Pete says that is as near as he wants them in his boots.

The Press-Spectator says C. O. Houston and daughters, Misses Bertha and Edna, returned Thursday morning from St. Louis. Miss Edna, who had been suffering from appendicitis and a complication of diseases, was taken to the Baptist sanitarium about three weeks ago, where an operation was performed. The family's many friends will be glad to learn that the operation was successful and that Miss Edna is now on a fair road to recovery and good health.

The Sumner Star very curtly remarks: some weeks ago there were thousands of pounds of fine fish in the Estes slough. The state game warden had a deputy here to prevent people from catching and eating them. The dry weather came on and the water evaporated from slough, leaving thousands of fish to perish and decay, sending their offensive stench near and far. The game and fish law was enforced, but who was benefitted in this case? The people in that neighborhood would have been very slow going to their relief if the state warden and deputies had been chained on the bank of the slough and compelled to breathe the stench from the decaying fish for a solid week.
