

**COURIER POINTS.**

Habit is our heaven or our hell.

Love of the law finds liberty in the law.

The way to keep friends is to keep faith.

The heaviest chains are made from liberties abused.

The men that have too much money live to get more.

The sleeping church always awakes to shame.

Scratch a chronic critic and you find a hypocrite.

He cannot move hearts whose heart cannot be moved.

He who has to be goaded to do right is going to do wrong.

A worthy life is impossible without a worthy motive.

The worst punishment of sin is that one learns to love it.

A woman in love doesn't care for the ring being diamond.

You never know what is in a man until he gets in a minority.

A man must understand himself in explaining rascality problems.

A reform champion's husband believes reformation would be good.

Eloquence has a tendency to act as an evaporator for religion.

The bread of life is never on the lips of a bread and butter preacher.

A good housekeeper keeps her kettle and her temper from boiling over.

Modern doctors think it is better to take a patient's money than his blood.

Business offices are being put farther heavenward because ground costs so much.

The dark horses often run best in elections because their stains are not seen so well.

A woman fiercely resents being regarded as set in her ways and opinions.

The best point in a sermon is that which pierces your self-satisfaction.

When all the homely people redeem their faces with their conduct this will be a fine world.

When a woman shows a disposition to be disagreeable she knows how to make it most effective.

One comfort in life, any way, is to know that nobody is responsible for what their eyes say.

A woman ever so much likes to feel that she has a capacity for guiding others.

The woman who goes into the business world wants to be considered above the average in shrewdness.

There isn't much difference between a very sensitive person and one with a very bad temper.

Even when a woman earns more salary than her brother he never dreams it inconsistent to advise her about business and money.

Rapid changes of temperature are hard on the toughest constitution.

The conductor passing from the heated inside of a trolley car to the icy temperature of the platform—the canvasser spending an hour or so in a heated building and then walking against a biting wind—know the difficulty of avoiding cold.

Scott's Emulsion strengthens the body so that it can better withstand the danger of cold from changes of temperature.

It will help you to avoid taking cold.

According to the Salisbury Press-Spectator, a very interesting sight was entertaining the neighbors of Will Heiman of Shandonale last week. Mr. Heiman has been threshing his wheat, and the whistle sounded strange on the February air. Mr. Heiman was too busy gathering corn in the fall to thresh wheat and choss this time when nothing particular was doing.

**Caution.**  
Imitation has been placed upon the market so closely resembling Alcock's Plasters in general appearance as to be well calculated to deceive. It is, however, in general appearance only that they compare with Alcock's for they are not only lacking in the best elements which have made Alcock's so efficient, but are harmful in their effects. Remember that Alcock's are the original and only genuine porous plasters—the best external remedy known—and when purchasing plasters the only safe way is to always insist upon having Alcock's.

**Put a Bull Behind the Bars**  
We call especial attention to the hinge joint at each intersection of stay with main bars. This is the essential of every good wire fence. Unless the stay has a hinge joint the fence cannot receive pressure from contact and right itself. All rigid stay fences have been unsatisfactory and disappointing, as they crush down and when once down, remain so.  
**AMERICAN FENCE**  
Is made with a hinge joint, by which the maximum of elasticity is secured and the fence if properly stretched, remains in place indefinitely. With the hinge joint, no amount of strain on the bars can effect the connection of stay and bar, while the opposite is true of all rigid stay fences.
