It took about \$300 of good money earned in Livingston county to get Hoskins out of trouble and he lost the jug also.

Young Smart Alecks.

According to the Salisbury Press-Spectator, Hamden and vicinity are troubled with a lot of young Smart Alecks, about 14 years old, who have been making things unpleasant by shooting at dogs and firing off pistols and whooping like Indians as they gallop over the country at night. Sunday night a week ago they shot at a man's dog as they passed his place and the man got his gun and shot after them several times. This is a dangerous pastime, as the boys seem to shoot promiscuously and may hurt somebody, and trouble is likely to result. Boys of that age have no business with pistols anyway, and their parents should see to it that they cease disturbing the peace of the community.
