 W. C. GASTON Druggist.

The Triplett Tribune says that "the sun has shined since last Friday." A pleasing fact to the farmers, but bad grammar.

Mr. and Mrs. W. S. Shipp of near Triplett are elated over the recent arrival of a fine son at their house. Congratulations, "Dink."

Chamberlain's Stomach and Liver Tablets will brace up the nerves, banish sick headache, prevent despondency and invigorate the whole system. Sold by all druggists.

The Prairie Hill cemetery association has purchased three acres of land from B.S. Egan and added it to its burying-ground but nobody who lives in Missouri is anxious to occupy a lot therein.

The man who was sent to the insane asylum because he insisted there was 20 in his family, while the court found there was only he and his wife, may have figured that his wife was 2 and he was the 0.

W. P. Gaines, rural mail-carrier on route No. 2 out of Triplett, is now making the rounds on a motorcycle of which he is the owner. His colleague, C. F. Merrifield, invested in a similar machine not long since and Preston would not stand for being outdone.

Lame shoulder is almost invariably caused by rheumatism of the muscles and yields quickly to the free application of Chamberlain's Liniment. This liniment is not only prompt and effectual, but in no way disagreeable to use. Sold by all druggists.

The Smnner Star tells its readers that last Sunday the little son of Frank Kaye and wife, who live out in the country, was out in the yard playing when attacked by several cats and badly lacerated on the face and body. Ed Grime, who was passing at the time, ran in and shot the cats to death. The little fellow was brought to town and his injuries dressed by a physician. It is hoped that he will recover soon from the effects of his painful experience.

Sterl (Bud) Beatty was arrested at Meadville Friday, charged with kidnapping his own child. Beatty grabbed the child from its mother's arms and rushed onto a Burlington train. Before the mother, who followed, could recover her baby the train was speeding to Chillicothe. A number of people witnessed the act and the police authorities took Beatty in charge. Mrs. Beatty is only 14 years old and will prosecute her husband for kidnapping their child whom he wanted to take to his mother.

Half an hour is all the time required to dye an article with PUTNAM FADELESS DYES. Any one can do it, as simply boiling the goods with the dye is all that is necessary.

"Oh-be-joyful" water caused J. B. Bennett, who was coming from Lock Springs Saturday, to assault Charley Gaston, a young farm hand. Bennett had a knife and struck at Gaston with it, missing the man but wounding the mule. Gaston knocked the drunken fellow senseless with a heavy plank.

Chamberlain's Cough Remedy is sold on a guarantee that if you are not satisfied after using two-thirds of a bottle according to directions, your money will be refunded. It is up to you to try. Sold by all druggists.

Arthur Marshall and John Mathews, both negroes of Carrollton, stole wearing apparel and money from the employes of Kiley's livery barn at that place Saturday night and started to "walk ties." They boarded a freight train at Wakenda and were arrested at DeWitt. One negro escaped only to be recaptured at Bosworth. The clothing and \$6 were recovered.

If you are not satisfied after using according to directions two-thirds of a bottle of Chamberlain's Stomach and Liver Tablets, you can have your money back. The tablets cleanse and invigorate the stomach, improve the digestion, regulate the bowels. Give them a trial and get well. Sold by all druggists.

A new development in the case against Dr. Martin of Fresno, Cal., whose wife recently died at Chillicothe, is that Mrs. Alice Kirk Brittain, sister of the deceased, testifies that Mrs. Martin's dying words were to the effect that she was forced to commit suicide because of her husband's shocking neglect and his relations with another woman whom he calls his affinity. The coroner and health officers at Fresno are being criticized for allowing the body to be removed from the state of California without an inquest when they knew from Dr. Martin's admission that his wife was a suicide.

"It cured me," or "It saved the life of my child," are the expressions you hear every day about Chamberlain's Colic, Cholera and Diarrhoea Remedy. This is true the world over where this valuable remedy has been introduced. No other medicine in use for diarrhoea or bowel complaints has received such general approval. The secret of the success of Chamberlain's Colic, Cholera and Diarrhoea Remedy is that it cures. Sold by all druggists.

"I Am Glad"

writes Mrs. Ethel Newlin, of Liberty Center, Ind., "that I began to take Cardui, for it has cured me, and I will never forget it. 'I cannot praise Cardui too highly for what it did for me. Before I began to take it, I was very bad color, suffered great pain and weighed only 105 pounds. Now I have a good color, do not suffer and weigh 125 lbs.'"

Take CARDUI

The Woman's Tonic

Beware of strong, noxious, mineral drugs, that sink into your system, like lead to the bottom of a basin of water. Cardui is purely vegetable and contains no poisonous minerals, or dangerous drugs. It is perfectly safe and harmless, for use by old and young, and may be taken, as a tonic, for months, without any possible harmful effect. Try it.

Robt. Paekham and Albert Huffman, both of Brookfield, were given a 30-days' sentence Monday for assaulting J. W. Lind, a teacher at the Forker rural school house, which the two drunken men invaded. Lind refused to permit them to stay in the school in this condition and they gave him a terrible beating. He went for the constable at Laode and in the meantime the offenders broke 38 window panes, two window shades and welded hatchets with disastrous effect on the furniture. The damage amounted to about \$50. The two men were cooking supper when the officers arrived.

Orville Meals of near Moberly is Randolph's latest victim of the black hand. Using Uncle Sam's mail-carriers for terrifying good citizens, this miscreant continues his work. Meals is demanded to pay \$3,000 in \$10 and \$20 denominations. These should be placed in the mail box in front of Enon church June 12. If this were not done the Meals family would be murdered and his house and barns burned. The hand writing was the vertical system taught in our public schools of late years and indicates a youthful writer. The sheriff has taken the letter and will investigate the matter. No money was placed in the box and no developments as yet.

We can't advise you, Clarissa, as to the propriety of those contemplated wedding jinks until we know more about your rank and station in life. What is eminently right, proper and cute for one class of people to do is disgustingly different, doncher know, when done by another. If you belong to what small town folks call society circles nobody will find fault when you go to the depot to annoy a helpless pair of newlyweds with rice and old shoes, placards and other hoary methods of torture. But, Clarissa, if you are a waitress, a laundress, or what the darkeys call pore white trash, restrain yourself. Your fun will be interpreted as coarse horse play and some folks will remark about nothing being expected of you. Had you ever observed this trait of human nature, reader? Why is it that things seem so innocent and amusing when pulled off by the upper crust, degenerate into mendacious monkey business as we approach the bottom of the pan?—Paris Appeal.

The kicker should ponder well upon the fate of the mule, which is so handy with his posterior extremities, but who, not only leaves nothing to posterity, but has no posterity to leave anything to.

Our Washington Letter.

The week just ended has been marked with stirring events not only in the halls of national legislation, but the president, early in the week demonstrated his ability to gauge the temper of the people relative to railroad rate legislation by accomplishing a diplomatic coup against the railroads which has won him no end of praise from all sections of the country. By tact, fair play and good humor Mr. Taft succeeded in convincing the presidents of eastern railroads that an increase of freight rates before the passage of the railroad rate bill would result in legislation on the part of the government which might seriously cripple the railroads and put a temporary stop to railroad construction and the building of equipment. The representatives of the eastern trunk lines met the president in a spirit of friendliness and after a conference extended over several hours the railroad magnates agreed to withhold the advance until after the railroad rate bill had been finally agreed to by the two houses of congress and then, to proceed along lines laid down in the law to raise rates, with the right of review resting in the interstate commerce commission.

Another event of great moment to the country at large was the final adoption of the conference report on the rivers and harbors appropriation bill without the change of an "i" or the crossing of a "t" from the agreement reached by the senate and house conferees. Senator Bailey of Texas, Burton of Ohio, Beveridge of Indiana and Stone of Missouri, endeavored with all their eloquence and all their persuasiveness to send the bill back to conference with instructions to insert in the bill certain pet projects of theirs which had either been unfavorably reported upon by the board of engineers or which failed, as in Senators Burton's case, to appropriate for the national waterways commission of which he is chairman. But neither eloquence or cajoling, sarcasm or invective could change the minds of senators and the conference report on the rivers and harbors bill, carrying nearly \$52,000,000 was agreed to by a vote 45 to 12, nine Democrats and three Republicans casting the negative vote. The house adopted the conference report late Friday evening and the bill which is regarded as the fairest and most equitable river and harbor bill ever prepared by the committees having such legislation in hand has gone to the president for signature.

E. Dana Durand, director of the census, is now devoting the greater portion of his time to organizing his force so that the public may know at the earliest possible moment the result of the census of the leading cities of the country. Director Durand is of the opinion that his force will be in readiness to tabulate the returns of the supervisors of the cities of the country of 25,000 or over so that announcements may be made public during the months of July and August. Full returns from many of the large cities of the country are now in the hands of the director and the work of tabulation is about to commence. It was said today that the census of Washington would probably be the first to be announced to be followed as rapidly as possible by cities in the order in which returns have been reported by the supervisors. Director Durand intends to issue two bulletins daily to the press of the country carrying announcements of the results of the census takers of the cities. One bulletin will be issued daily at 11 a. m. and a second at 6 o'clock, thus furnishing "copy" for afternoon and morning newspapers. When the

Administrator's Notice.

Notice is hereby given that letters of administration on the estate of Frederick Naberhaus, deceased, have been granted me by the Probate Court of Chariton County, Mo. bearing the date June 5, 1910. All persons having claims against said estate are required to exhibit them for allowance within one year from the date of said letters, or they may be precluded from having any benefit of said estate, and if such claims are not presented within two years they shall be forever barred.
 JOHN NABERHAUS, Administrator.

work is fairly started these bulletins will fall thick and fast, and even at that it will probably consume the months of July and August to complete the returns from the cities.

The suggestion that the great engineering work on the various reclamation projects, inaugurated and carried forward by Director Newell and his associates, is about to be revolutionized by the removal from office of Director Newell and the appointment in his stead of an officer of the engineer corps of the army is not well received by members of congress representing the states where this work, under civilian management, has already accomplished so much and promises even greater results.

In fact these western congressmen are very outspoken in expressing their opposition to a change in the supervision of the reclamation work. They doubt very much the wisdom of placing the construction work of the 30 odd reclamation projects under the control of an army engineer. If there should be a change, owing to the alleged differences between Director Newell and Secretary of the Interior Ballinger, these western men contend the work should be prosecuted under the direction of an engineer appointed from civil life and not under the supervision of an army engineer.

SCOTT'S EMULSION

is now a summer as well as a winter remedy. It has the same invigorating and strength-producing effect in summer as in winter.

Try it in a little cold milk or water.

ALL DRUGGISTS

The recent census may have been expensive, but a wealth of information has been secured.

Careful attention given to legal business in all courts of the county and in the appellate courts of the State. Offices on the courthouse.

WHEN you order Budweiser you order more than any other beer can deliver.

You order the most costly beer that's brewed; for it costs more to make Budweiser and it costs the dealer more to buy Budweiser than any other.

Budweiser is the best bottled beer that's brewed. At least people seem to think so; they buy more of it than any other; more, almost, than all others put together.
