A circle of prayer for the abolition of all forms of cruelty and which is acceptable to all Mohammedans and perhaps should be to all other creeds is universally in force in all Moslem territory among the faithful. The following prayers are prescribed, and all are asked to utter them or one of them every Sunday morning at 10 or Sunday afternoon at 3, and to remain in a prayerful attitude for at least 10 minutes. It is deemed absolutely essential for every one to pray at exactly the time designated or no good will result.

"O Thou, who hearest the cry of the little ones Thou hast made, grant us to realize that pain given to any living thing is pain to Thy Heart of Love. Amen.

"O Thou, all merciful and compassionate, whose life maintains the universe and all that is, who suffers in the suffering of both man and beast, be with us, strengthen and guide us in our efforts to reduce the pain that man too often inflicts on the animals who share Thy life, Thy world, Thy love with us. Give us, O Lord, love, wisdom and power, that we may work well and wisely, 'with strength to resist, patience to endure, and constancy to persevere.' Grant that we may hasten the coming of that great day when pain shall have fulfilled its mission and taught its lesson, and joy—the Divine inheritance of both animals and men—shall rule on earth below as bliss reigns now in Heaven above. Amen."

"Father of all Love, in whom we have our being; save, we beseech Thee, Thy creatures, our little brothers, from their great suffering. Send the light of Thy wisdom into minds that they may see and understand the unity of all the life in Thy universe. And grant that our

prayers and supplications, which we raise at one time to Thee, may hasten the day when all the living creatures that Thou hast made shall be delivered from the bondage of pain into the glorious liberty of Thy children. Hear us, O Lord, we beseech Thee, and save in Thine own time and Thine own way. Amen."

### The Eternal Parody

When a selfish man at nightfall grabs a good seat in the train, And he views the fellows hanging on the straps in mild disdain,

He is sometimes forced to yield his seat to one that's sweet but frail,

For the female of the species is more deadly than the male.

Man's timid heart is bursting with the things he must not say

When the mistress of the household finds a vacuum in his pay.

He might possibly explain it to his friend along the rail, But the female of the species is more deadly than the male.

When the winsome woman lawyer to the jury makes appeal

On behalf of some offender with a heart as hard as steel,

She will win the jury over with her sweet pathetic tale,

For the female of the species is more deadly than the male.

The enterprising burglar who attacks a house at night,

And laughs at every effort of the man who makes a fight,

Will go headlong through a window when a woman's on his trail,

For the female with the screeches is more deadly than the male.

### Looked Like one.

"How did that story plan out about the man up in the Bronx who found the big hailstone on his back stoop this morning?" asked the city editor.

"Nothing in it," replied the reporter. "He discovered it wasn't a hailstone after all. The iceman left it there."

There were 7 deaths in the county during September as follows: Tuberculosis of lungs 2; disease of heart 2; other causes 3. The births numbered 45.

Louis D. Clapp vs A. D. Long, change of venue.

Unlike many sections of our own country most of the plowing for the succeeding year's crop in our sister to the north of us is done in the fall of the year. It is practically the last thing the farmer does before winter sets in.

The object of this fall plowing is to gain the time it takes to do the plowing in the spring so as to get the crops planted that much earlier. The fall fairs are over and the plowing contest are the last of the farmers out-door farm amusements. On November first near the town of Markham in York county Ontario 2,000 people went out to witness the county contest and sixty three plow teams competed in what it alleged the biggest and most interesting plowing contest ever held in Canada. In plowing sod thirty-four teams competed and in stubble land twenty-nine.

In the sod contest there was a time limit of five hours to complete the area allotted to each team with the remarkable result when the time was up it was found that the first prize had been won by a farmer who is eighty-seven years old and has been following the plow for 57 years. This aged farmer, according to the judges, out-classed every other competitor for the best work in the contest.

There will be a comic operetta at Karcher Opera House, Salisbury, to-night (Friday) home talent, conducted by Miss Ella Legg.

### Job For an Expert

A gang of navvies were employed on a railway contract removing earth with wheelbarrows. While proceeding with his work one of the navvies noticed that the wheel of his barrow was squealing terribly, and to put a stop to the noise he turned the barrow over and was in the act of greasing it when the ganger noticed him and shouted out:

"Halloo, O'Brien! Halloo, sir! What the deuce are you doing?"

"I'm greasing my barrow, sir."

"Who told you to do that?"

"Sure, no one, sir. I took it upon myself."

"Well, don't let me catch you at it again. What do you know about machinery?"

Sambo Hardin of Kansas City came down to eat turkey yesterday with—a friend.
