

LOCAL MAN GETS JOB

Dr. B. Hughes at the Head of a Sanitarium

Dr. B. Hughes wired Gov. Major that this appointment as head of the Missouri State Sanitarium at Mt. Vernon would be accepted if tendered and the governor wired assurance that the appointment would be made. This cinches the place for Dr. Hughes and family. The governor appoints the board in April some time and will make his recommendation to the board which of course will give its O. K. to the appointment. This means that Dr. Hughes will leave Keytesville for Mt. Vernon probably some time in April to take charge of the institution. The sanitarium is located at Mt. Vernon in Lawrence county south and west of Springfield. It is an institution for the treatment of tuberculosis and has one of the finest locations to be found in the county. It is in the Ozark mountains which are fast becoming famous among the pleasure resorts of the country, where the air is good and conditions for tubercular treatment ideal. It will prove a fine place of residence.

The salary for Dr. Hughes and wife will be \$3100 annually and in addition, a home in which to live and all necessaries, excepting clothing. This means that the income will prove better than the \$4000 mark, each year. Dr. Hughes has been successful in his profession and stands high in the estimation of Keytesville people. He thought that, in view of the surroundings etc. the position was too good to turn down and has accepted it.

Duck's Begin to Lay

This is the season of the year that is interesting to duck raisers, as ducks begin to lay this month. Unlike the chicken and turkey, the duck has no crop, the food passing directly into the gizzard. For this reason they must be fed on more of the soft feeds. Mash, a little corn, and animal food and green stuff are more suitable. Where they receive proper care, more ducks can be raised out of a hatch than any other breed of fowls.

J. Eastwood shipped a carload of hogs to market Monday.

Jackson county will probably be the next to organize a bureau of agriculture and employ a farm advisor. There are several counties in Missouri which now have secured experts to go amongst their agriculturists and expound some of the problems that make for bigger and better yields of farm produce and better farm life in general. The law here is that the county court, may, if desired appropriate sufficient to secure a man of this type, who at the minimum would cost the county \$2,000 per annum. The more advanced counties of the state feel the need of expert help and are willing to pay for it.

Dr. J. W. Conard Wounded

Last Saturday afternoon about three o'clock as he was taking the shells from his automatic shot gun, Dr. Conard, of Sumner, Mo., had his right hand shot off by the accidental discharge of one of the shells.

He had the gun in his left hand, his right hand over the muzzle, forcing the shells out of the automatic gun when in some unaccountable way one of the shells exploded, tearing all the right hand away except the thumb and little finger, some of the shot entering his arm and some passing thru his ear.

Dr. Conard left for St. Joe immediately after first aid, where the surgeons found his hand so badly shattered that it was impossible to save any part of it, and it was taken off at the wrist.

Richard Henry Tisdale

Died at his home in Keytesville, Mo. January 18, 1913 Richard Henry Tisdale aged 75 years four months and seven days.

This old time citizen of Chariton county was born in Leuenberg County, Va. September 11, 1837 and came to Missouri and to Chariton county with his parents when quite a young man and where he has lived the balance of his life.

February 11, 1850 he was married to Miss Anna M. Temple and to them were born eleven children. Mrs. Annie Hawley, Mrs. A. W. Ashbey, Mrs. Wm. Tillotson and Miss Roberta and Richard Henry Jr., Edgar, Geo. T. now living and William, Allen, Claude and Clarence who passed into the illimitable future in advance of their father. One brother only, Karon Tisdale, and fifteen grand-children, his widow and those above named survive. "Squire Tisdale" as he was familiarly called united with the church at Prairie Chapel some fifty years ago but of late he and his wife have been members of the Methodist church at this city.

Squire Tisdale's principal vocation in life was teaching school which he followed for years and until the work was too great for his physical condition when he discontinued teaching and gave all his time to farming. For the last few years he has lived in this city and served the township as one of its most popular justices of the Peace. He was also active in church and Sunday school work and known under all conditions to be a man of positive and open convictions.

There was never any doubt of his permanent position on any matter or question in which he took interest. Fearless yet kind, positive yet considerate, technical yet liberal, religious yet not a boaster of virtues, he was a type which is too rapidly disappearing.

His death was caused by pneumonia, tho for years he had been gradually on the decline with asthma.

After funeral services at the family residence conducted in a plain but touching style by Rev. C. O. Ransford, the last of the old land mark of earlier days was laid to rest Monday afternoon in the city cemetery in the presence of a large assembly of his relatives and friends in spite of the intense disagreeable weather.

No Inaugural Ball

The Inauguration Committee on arrangements, out of deference to the suggestion of President elect Wilson that an inaugural ball, a time honored feature never before omitted, has decided to have no ball as part of the festivities March 4. The gentleman in whose honor it would have been given, holds that the expense would be too great, and implies that he will find better use to put the amount to, later on, where all the people may be benefited a little instead of a few enjoying it all. So far, so good.
