Sugar is on the downward path. It was stated here by a traveling salesman recently that within a month or two sugar would be down to \$3.50 per hundred, wholesale. This will of course lead to the extensive lowering of the price at retail. Sugar has been coming down pretty regularly of late and seems doomed to a place to a place in the scale that will make candy cheap enough for anyone.

The Triplett Gun Club sunk a hunting box at the side of Dean Lake for their use and the Kansas City club, lessels of the big lakes in that vicinity opened their season on the 15th. with Tom Gaines in charge. Hunting is getting scarcer every year and the favorable spots are all under private control.

A Tale of a Fox

From down in Sullivan county comes a fox story of some proportions. Harry Gooch was feeding stock when a grey fox was chasing the sheep, the supposition being that it as the fox's meal time. The man threw a pitchfork at it but missed it and could not deter it from its purpose. He finally got a gun and shot it.

SHE LOST HER HAIR.

But she found it again. That is the good part of the story. It cost her a lot of pride to lose it, and just a dollar to find it. You see, the dollar is the price of a bottle of Hall's Hair Renewer. No coloring of the hair. First of all, she talked it over with her doctor. This gave her confidence to go ahead.

Drag the Roads

Farmers, drag the roads. Drag them and again drag them every time it becomes necessary. It is one of the best paying investments. A little time and labor on the roads makes better traveling and the better the highway, the more it adds to the desirableness and liveableness of your own place. You will find that the most valuable lands are always to be found in an improved part of the country and good roads is one of the first vital and noticeable points about a highly developed country.

Bowels are Basis of Child Health

The careful mother, who watches closely the physical peculiarities of her children, will soon discover that the most important thing in connection with a child's constant good health is to keep the bowels regularly open. Sluggish bowels will be followed by loss of appetite, restlessness during sleep, irritability and a dozen and one similar evidences of physical disorder. At the first sign of such disorder give the child a teaspoonful of Dr. Caldwell's Syrup Pepsin at night on retiring and repeat the dose the following night if necessary—more than that will scarcely be needed. You will find that the child will recover its accustomed good spirits at once and will eat and sleep normally. This remedy is a vast improvement over salts, cathartics, laxative waters and similar things, which are altogether

too powerful for a child. The homes of Mrs. J. Epping, Moberly, Mo., and Mrs. Othmer, 5723 Prescott St., St. Louis, Mo., are always supplied with Dr. Caldwell's Syrup Pepsin, and with them, as with thousands of others, there is no substitute for this grand laxative. It is really more than a laxative, for it contains superior tonic properties which help to tone and strengthen the stomach, liver and bowels so that after a brief use of it all laxatives can be dispensed with and nature will do its own work. Anyone wishing to make a trial of this remedy before buying it in the regular way of a druggist at fifty cents or one dollar a large bottle (family size) can have a sample bottle sent to the home free of charge by simply addressing Dr. W. H. Caldwell, 408 Washington St., Monticello, Ill. Your name and address on a postal card will do.
