

SLEEP DISTURBING BLADDER WEAKNESS BACKACHE-RHEUMATISM, QUICKLY VANISH

Even Most Chronic Sufferers
Find Relief After A Few
Doses Are Taken

Backache, urinary disorders, and rheumatism, are caused from weak, inactive kidneys, which fail to filter out the impurities and keep the blood pure, and the only way on earth to permanently and positively cure such troubles, is to remove the cause.

The new discovery, Croxone, cures such conditions because it reaches the very roots of the disease. It soaks right into the stopped up, inactive kidneys, through the walls and linings; cleans out the little filtering cells and glands; neutralizes and dissolves the poisonous uric acid substances that lodge in the joints and muscles to scratch and irritate and cause rheumatism; it neutralizes the urine so it no longer irritates the tender membranes of the bladder, and cleans out and strengthens the stopped up, lifeless kidneys so they filter and sift all the poisons from

the blood, and drive it out of the system.

So sure, so positive, so quick and lasting, are the results obtained from the use of Croxone, that three doses a day for a few days are often all that is required to cure the worst case of backache, regulate the most annoying bladder disorders, and overcome the numerous other similar conditions.

It is the most wonderful preparation ever made for the purpose. It is entirely different from all other remedies. There is nothing else on earth to compare with it. It is so prepared that it is practically impossible to take it into the human system without results.

You can obtain an original package of Croxone at trifling cost from any first-class drug store. All druggists are authorized to personally return the purchase price if Croxone fails to give desired results, regardless of how old you are, how long you have suffered, or what else has failed to cure you.

MEN'S BALLOT

It is discovered that of the 947 saloons ousted in Illinois 229 were due to women's votes. That is, if the women had not voted the saloons would not have been voted out. The remainder, 718 would have been voted out by men's votes alone. The returns show that the men's votes indicate a majority against these saloons without aid of the female suffrage. This would tend to show that the woman suffrage is not absolutely necessary to eliminate the saloon. There is no doubt that woman's influence has much to do with directing the vote of men in this channel. This will always be the province of good women, to influence more or less the husband's vote in matters of this kind. It is not lessening woman's prestige or her influence but just tends to prove that her influence is not dependent upon the ballot so much as some people would have us believe.

Prints Recommendation

The Chicago Produce Bulletin of April 11, prints the following under the Keytesville dateline: "J. M. Halley has proven himself a mechanical genius in his invention of a twentieth century automatic electric egg tester. It is the wonder of the age, and being practicable in every detail it fills a long felt want. Shippers, dealers, huckster wagons, farmers and even housewives can use the tester in candling an egg. It is so simple in its construction that anyone can operate it, and afford a material saving in money to its owner. This splendid candling apparatus is manufactured by the J. M. Halley Mfg. Co., of this city, and they have put the nominal price of \$5.00 f. o. b. for the tester, so that it is within the means of everyone in any way connected with eggs and their marketing, who wants to obtain all his eggs are worth."

Cough Medicine For Children

Too much care cannot be used in selecting a cough medicine for children. It should be pleasant to take, contain no harmful substance and be most effectual. Chamberlain's Cough Remedy meets these requirements and is and is a favorite with the mothers of young children everywhere. For sale by all dealers.

Gunmen Die

The four gunmen, now famous or infamous throughout the United States were electrocuted at Ossining, N. Y. at 5:45 A. M. Tuesday for the murder of Rosenthal. There were repeated reports of stay of the death penalty but all efforts made in their behalf failed.

A Son

A son was born to Mr. and Mrs. Clyde Atterbury residing north of town, Saturday, April 11.

IF YOUR CHILD IS CROSS, FEVERISH, CONSTIPATED

Look Mother! If tongue is coated, cleanse little bowels with "California Syrup of Figs."

Mothers can rest easy after giving "California Syrup of Figs," because in a few hours all the clogged-up waste, sour bile and fermenting food gently moves out of the bowels, and you have a well, playful child again.

Sick children needn't be coaxed to take this harmless "fruit laxative." Millions of mothers keep it handy because they know its action on the stomach, liver and bowels is prompt and sure.

Ask your druggist for a 50-cent bottle of "California Syrup of Figs," which contains directions for babies, children of all ages and for grown-ups.

Mrs. Sigloch and Miss Sigloch were in Moberly on business, Saturday.

Miss Bula Bennett was confined to her home last week with the grip.

Found a Cure for Rheumatism

"I suffered with rheumatism for two years and could not get my right hand to my mouth for that length of time," writes Lee L. Chapman, Mapleton, Iowa. "I suffered terrible pain so I could not sleep nor lie still at night. Five years ago I began using Chamberlain's Liniment and in two months I was well and have not suffered with rheumatism since." For sale by all dealers.

Auto Turns Over

A Ford automobile turned turtle near Moberly last Saturday and pinned three men to the road slightly injuring them and another man escaped uninjured. The men were from New Cambria and were riding 25 miles an hour when the steering gear went wrong. The men were M. Jones, Richard Gunter, O. G. Siemens and J. M. Jones. The latter was unhurt.

Can't Do It

John C. Mayo the wealthiest man of Kentucky is spending \$500 per day in an effort to prolong his life. He is afflicted with Brights Disease and his attending surgeons, the best in the land say that death is a matter of a short time. Transfusion of blood has been resorted to but it is of no avail.

Tonight there will be held a joint debate at the Russell Opera House at Brunswick between the Chillicothe High school representatives and those of the Brunswick high school. The debate is on the question if the U. S. should own its railway systems.

Easter Gone

Easter is past and the bluebirds have arrived. The members of the feathered bird family arrived some time ago but there was another variety very plentiful in view on Easter Sunday. There was the usual Easter parade and it would take a man insensible to sartorial effects to fail to note the predominance of fashionable clothing. It is safe to say that there are not many places the size of Keytesville where the women are more correctly garbed and pay more attention to the essentials of correct costuming. Blues seem to have reigned the favorites in this year's clothes coloring, according to the Easter and pre-Easter showing. There was a green now and then and a black and a few quiet shades recognized as being "good" but the blues were in the large ascendancy. These suits seem to become light and dark, blonds and brunettes alike, according to the showing, and everybody was happy, firm in the knowledge that all was right with the world when new clothes were to be disported. Those melancholic critics who predicted rain, snow, sleet and a general cold wave were disheartened and disappointed. The day was bright and warm and everyone with new clothes had an excuse for getting out to church and those who did not, found it a hard task to stay at home. With all it was a good Easter.

Kills Fish With Rail

Orton Chinn an insurance man of Salisbury had a turn of luck Friday that brings to mind of Biblical scholars the old manna a story. Chinn was walking along the Wabash railroad near the Arrington farm in pursuance of his duties when he noticed a commotion in the water of a ditch near a closely woven wire fence. The commotion proved to be caused by fish which were trying to get through the fence to the open creek but were too big to get through. Chinn picked up a rail and swatted one of the struggling fish and killed it. Brought from the water it proved to be an immense buffalo fish, weighing sixteen pounds. Chinn brought the fish to Keytesville and then took it to Salisbury with him. He had several offers here from persons desiring to buy the fish or part of it but he refused to part with the trophy or any part of it. The high waters left quite a few fish struggling in the shallows but most had managed to get into the deeper in the shallows but most of them had managed to get into the deeper water as the water subsided gradually. The fish making the commotion were principally buffalo and carp.

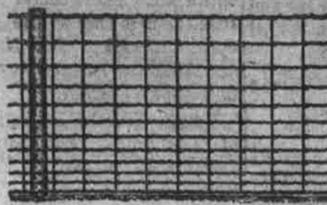

School Board Meets

The school board held a meeting Friday night of last week and set the dates for two other meetings. The first was for Wednesday, April 15 when the meeting was to be had for deciding upon the plans to be selected. After the plans were selected a meeting was to be held the following Monday, April 20 when the \$15,000 issue is to be sold. It is expected that bonds for the full \$15,000 will be issued for it will require this sum it is thought, to build the right sort of a school structure. Considerable of the old material will be used and it is probable that the city will have a school worth between \$20,000 and \$25,000 after the structure is completed.

A Standard Application

Mrs. Israel of New York is suing her father Isaac Goldman for \$5000 damages for a spanking administered four years ago while she was single. She alleges that the spanking still hurts. It might be a good thing for some of the local people to get the recipe for this kind of corrective application.
