WHAT THE KIDNEYS DO

Their Unceasing Work Keeps Us Strong and Healthy.

All the blood in the body passes through the kidneys once every three minutes. The kidneys filter the blood. They work night and day. When healthy they remove about 500 grams of impure matter daily, when unhealthy some part of this impure matter is left in the blood. This brings on many diseases and symptoms— which vary widely but may include pain in the back, headache, nervousness, hot, dry skin, rheumatic pains, and hearing, dizziness irregular heart, debility, drowsiness, dropsy, deposits in the urine, etc. But if you keep the filter right the danger is overcome. Doan's Kidney Pills have proven an effective kidney medicine.

Mrs. Frank Fezell, Second St., Salisbury, Mo., says: "I have used Doan's Kidney Pills for kidney complaint and backache and they have given me fine relief. Consider them a valuable remedy and recommend them highly."
