We were shown thru the carpet and rug department of the Hayes & Bell Dry Goods Company at Salisbury one day this week, and were surprised to see the variety and pretty patterns displayed and considerably astonished also to learn that while prices on everything had advanced the difference between the prices this year and last on such household necessities were about the same, quality considered. The matting and linoleum patterns this year are exceptionally pretty, but the carpet and rug designs were what most attracted our attention. It would be impossible to fail to be pleased with what this firm has on sale. 6

A. V. Simmon, the best tailor in Missouri, returned Monday from his several weeks trip to Florida, and to say that he is looking and feeling better does not half express it. He is enthusiastic and doesn't care who knows that he thinks the southern sea shore is the place to spend a vacation. Mr. Simmon had earned such a trip, for he had crowded work night and day for a long time before he decided to take a rest and have a good time. He will ply the shears and needle vigorously now to catch up with his customers needs, but his mind will turn back to the delightful scenes, the pretty women and sweet scented air of the south and it may be that he will have to sew himself to his table to resist bouncing off his perch and returning to finish off the lark with a few more rounds of pleasure.

Grippe has settled in more throats in this neighborhood and city than Budweiser ever had a chance at. All sorts of throat affection, infection and defection are prevalent. Fatherly, motherly, sisterly, brotherly, religiously and sweatheartedly kisses are taboo and the trouble is consequently most unpopular. One more round of prohibiting local option and grippe will make a cleaning.

A letter from Mr. Nathan Clair of Mendon neighborhood says that the wheat which was sowed early is in fine shape but that which was not put in until late is not looking so well. Some of it was spewed partly out of the ground by the freezing and thawing. Mr. Clair thinks the chinch bug will bother no one this season, and that the fly was cheated by late sowing of wheat where the insect was numerous. There are a few things which appear between the lines in Mr. Clair's letter which would indicate that he is a great admirer of President Wilson and while he does not say it in so many words, we take it that Mr. Clair fancies our president more than some others he could name who may bob up serenely for the office. He hopes to restore the prestige of the g. o. p. but a latent tone of despair is observable when he speaks or writes on the subject.

Vermont registered against prohibition by more than thirteen thousand. Puritanical, eh?

Miss Jeanette McConachie, a stenographer, is reported to have been acting governor since Monday. The "Guv" has been in Iowa on a speaking trip and his private secretary is laid out with the rheumatism. So far as can be seen with the naked eye, the state has been run about as well as usual. This instance does not prove that a woman can manage official affairs as well as a man. The man must be taken into consideration.

Snedeker who was on the trail of the lonesome pine here last week and made tracks away from the company having trade mark rights to the play before he could pull off the show at Brunswick, is in Corder on the trail of something else.
