KEYTESVILLE, MISSOURI

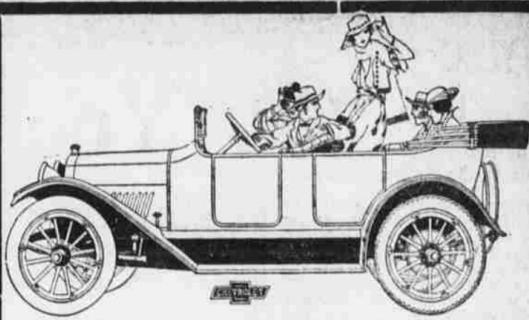

Friday, June 23, 1916

Entered at the Post Office at Keytesville, Mo. as second-class mail matter.

If there is a living man or woman in this country who has fully figured out the actions of the two conventions in Chicago last week, he or she has not let it be known. Suddenly Col. Roosevelt faded from the sight of the delegates to the Moose convention and as suddenly appeared a platform adopted by the standpatters which contains at least six of Col. Roosevelt's ideas out of the entire twelve material points covered by that document. Then Col. Roosevelt refuses to accept the nomination unless the Moose Convention chose to wait until he decided whether he wanted it or not, and the matter of a candidate for president on the Moose ticket stands that way to this time.

The unprecedented thing of a Justice of Supreme Court of the United States holding on to a life job until he had the actual tender of another by a party in hand, and the further unprecedented condition of a leading party considering that there was but one Mooses, characterized the situation in the Republican and Moose conventions.

As the matter stands, the progressive and German-Americans yes, hyphenated good citizens if you please, elements in politics are adrift. Both elements are necessary to the success of either the Republican or Democratic party and each is anxious to attract this vote.

BEAT IT! BEAT IT! CHEVROLET

The mechanical construction of the Chevrolet is equal to that of any \$1000 to \$2000 machine on the market, and it rides equal to any car at any price.

Some of the special features of this car are the bronze bearings laced with babbit lining, which makes them stronger and they will not burn out. The crank shaft is 1 7/8 inches while other small cars are only 1 1/4. It is also three bearing. It has a three quarter floating rear axle and a clutch collar that has them all beaten. There are three speeds forward and reverse and it can go two miles or fifty on high, which makes it an exceptional hill climber. The engine test is 22 on A. L. A. M. rating and 40 on brake test. The car weighs 1700 pounds and has 162-inch wheel base. All these advantages you get in the Chevrolet; but come in and let us demonstrate it to you, whether you are a prospective buyer or not.

Suffrage Shouter

Miss Arabella Simpkins Brown is now a suffrage shouter; The cause at last has won its crown, it could not do without her, She stepped into that Golden Lane a truly lovely vision, And Votes For Women, now 'tis plain, will win a quick decision.

We wondered why she fell in line, for she had been agin' it,

And straightway with a smile divine she told us in a minute.

Now you may guess the reason why she thus has been converted,

And if at first you vainly try, do not be disconcerted,

For there are many reasons still which may clear up the mystery,

And women who have said "I will" are scattered all thru history.

They've sometimes done the queerest things without an explanation,

And caused the mightiest of

kings to quake with trepidation.

They do now this and do now that; they're changeable and willful;

They'll wreck an empire, buy a hat, in manner neat and skillful.

So if you ask us why Miss Brown is now a suffrage shouter.

We'll have to set her answer down, and surely we can't doubt her.

For, as we say, she told us why, and we, in turn reveal it,

As it would be a sort of lie to cover or conceal it,

And so the secret we must tell on charming Arabella—

She joined because she looked so well in suffrage white and yellow.

—James in Post-Dispatch.
