

## Chariton Courier

E. B. KELLOGG, Editor and Publisher

KEYTESVILLE, MISSOURI

Friday, April 13, 1917

Entered at the Post Office at Keytesville Mo  
as second-class mail matter.

However it may be in other parts of the United States the people in this section are against fighting anywhere else than at home.

The appropriation asked of congress for loans to allies and preparation and prosecution of our entry into war is seven billions of dollars, \$700 for every man, woman and child in this country.

Some time ago it was reported that 18 German U boats were captured at one haul near Australia. When the same papers reported facts three days later, the captured undersea craft were known to be tarzets for practice. Monday the St. Louis paper told of a German raider sunk in battle with U. S. warship off the United States Coast. Just such scare-head doings for the purpose of keeping the public mind inflamed and selling papers is responsible for a general misunderstanding of the true state of affairs and the boys who will have the fighting to do if any fighting is done, are entitled to know the truth.
